SUSPENSION SYSTEMS

CL90 Cable Lock

CL90 carries one of the heaviest working load for a one-piece square duct lock in the industry!

durodyne.com

DYNA-TITE®

CL90 one-piece square duct lock is heavy duty to the core!

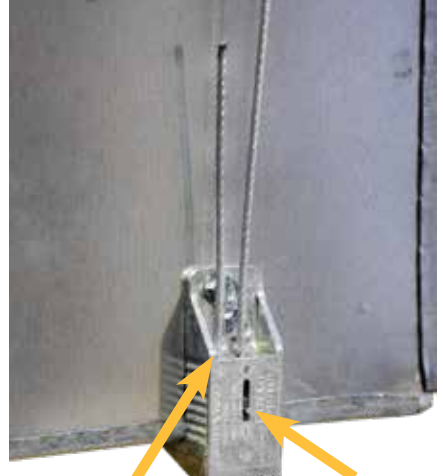

CL90 Cable Lock

The Duro Dyne Dyna-Tite one piece CL90 Square Ductwork Lock is designed for safe suspension of square ductwork. It utilizes Dyna-Tite cable for secure hanging. The CL90 Lock attaches to square ductwork and equipment using standard Duro Dyne sheet metal screws.

Innovation made simple

- Side pin location makes for easy adjustments, compared to being located under the lock
- One-piece pre-assembled lock with no need for a bracket

- Our unique pass through hole allows the extra cable to be stored safely out of the way
- Easily accessible side release pin
- Can be used with rectangular ductwork & equipment
- Can be used with two different cable sizes

SAFE WORKING LOAD

- ▶ With WC2 Wire Rope: 10-75 lbs. (5-34 kg)
- ▶ With WC3 Wire Rope: 25-150lbs (12-68 kg)
