Hi [REDACTED]

I came across your writing on machine learning and thought you could be interested in joining the [2022 Global AI Summit](#) given some of the most influential voices on AI are confirmed as speakers (see below), including leaders from Google, Gradient Ventures, Amazon, IBM, Softbank and Saudi Arabia's AI Authority. A series of significant partnerships and initiatives are also expected to be announced during the conference, which will take place on September 13-15 in Riyadh, Saudi Arabia.
