EUUS Why the EU and the US need to work together on #techregulation?
With increasing ambitions to decouple from China, the US and Europe have been top trading partners for each other.

However, the two governments struggle to find regulatory alignment, which will be necessary to foster the innovation and competitive climate that both markets are thriving for.

Our #GACCAdvisoryCirlce member, Sean Randolph of the Bay Area Council, has summarized arguments and possible solutions for how both sides can work together to ensure that regulatory differences don't impede larger strategic goals.

We updated our data on #GermanBusinessUSA!
www.GermanBusinessUSA.com

Did you know there are 5,800 German companies in the U.S. and that German-owned affiliates employ nearly 925,000 workers directly?

Here a couple of more fun and serious facts 💡:

⚡ Most of these 5,800 companies are small and medium, family-owned enterprises #SME
⚡ German companies are the third largest foreign employer in the U.S., and the second largest in #manufacturing (318,000). They create jobs in every U.S. State! 👷👷👷👷
⚡ With $619 billion invested, Germany is the fourth largest foreign direct investor in the U.S. 💲
⚡ With their high-standard #apprenticeship programs, German companies help to close the skills gap and build a high-skilled workforce for the future.

Would you like to know more? For an overview of how German companies contribute to the economic well-being in the U.S as well as a state-by-state analysis of import/export, #trade|d goods, and jobs created, please go to www.GermanBusinessUSA.com

Always a pleasure to host BusinessEurope at our office #RGIT, the joint liaison office of BDI - Bundesverband der Deutschen Industrie e.V. and DIHK. Ahead of the US-EU Summit we covered a wide range of topics that are currently shaping the #transatlantic marketplace: #CBAM, #GSA, #TTC, #MRA, #TIST, #232, #301, #IRA, #LLC, #CMA, #WTO - to name a few...
Markus BEYRER, thanks for cracking the joke "say #TTIP" just before the picture which led to these happy smiles :-)

In collaboration with Morgan Lewis, RGIT was glad to discuss the new EU #AI Act and its implications for #transatlantic business. Thank you to speakers Axel Spies of Morgan Lewis, Luise Ritter of DIHK, and Polina Khubbeeva of BDI - Bundesverband der Deutschen Industrie e.V. for their valuable insights!

📣 Dear friends and colleagues, I am excited to share this invitation to the U.S.-GERMAN HYDROGEN FORUM! 📣

The Representative of German Industry and Trade, Georgetown University McDonough School of Business, Georgetown University Walsh School of Foreign Service, and Responsible Alpha invite you to a unique event which brings together policymakers, experts, and stakeholders from #Germany and the #US to discuss #transatlantic cooperation in #hydrogen policy and the hydrogen sector.

Received by NSD/FARA Registration Unit 01/31/2024 9:59:58 AM

usbe. This event is in cooperation with the USA-Germany Climate and Energy Partnership.

🎙 Keynote by Sunita Satyapal, Director, Hydrogen and Fuel Cell Technologies Office, U.S. Department of Energy (DOE), Director, Hydrogen Interagency Task Force, U.S. Government.

🎤🔑 Panelists and Moderators : Christoph Schemionek, Susana Moreira, Samantha Gross, Oleksiy Tatarenko, Dr. Christine Falken-Großer, Martin Lischka, Brian Raymond, Rb Balaji, Kendall Stephenson, Gabriel Thoumi, CFA, FRM, Certified Ecologist.

✔ Registration: https://lnkd.in/gmS4TxMU

📅 🕐 Date and Time: January 17th, 2024 | 10:00am – 12:30pm ET | Followed by lunch and networking.

📍 Location: Fisher Colloquium | Rafik B. Hariri Building | Georgetown University

The Forum is intended to spotlight the burgeoning clean hydrogen sector and cooperation in the field between the United States and Germany and will foster dialogue on the economic benefits of mutual #cooperation in hydrogen. Bringing together policymakers, agencies, think tanks, industry participants, and investors from both countries will create a vibrant discussion of the opportunities and challenges for the U.S. and German hydrogen ramp-up. Discussions will center on the importance of policy in shaping transatlantic hydrogen demand, the role(s) of hydrogen in the energy transition, and how cooperation among partners can drive down hydrogen production costs.

A quick personal thanks to Christopher Perry for spearheading this event and bringing me in as a Co-Organizer. Thanks also to Amal Khaled for her support as part of the US-Germany Climate and Energy Partnership Support Office. Thanks also to Mike Kroll, Ph.D..

Together with Georgetown University and Responsible Alpha, the Representative of German Industry and Trade (#BDI, #DIHK) hosted the "U.S.-German #Hydrogen Forum" in Washington, D.C. Received by NSD/FARA Registration Unit 01/31/2024 9:59:58 AM two countries. In both countries, we are accelerating the energy transition. There is no doubt that German and American #businesses with their know-how at the forefront of clean tech manufacturing will – and already are – carrying out the energy transition.

Thank you Sunita Satyapal for your introductory remarks and your ongoing engagement with the German #business #community. Thank you to our panelists for sharing their valuable insights: Samantha Gross, Gabriel Thoumi, CFA, FRM, Certified Ecologist, Dr. Christine Falken-Großer, Oleksiy Tatarenko, Susana Moreira, Brian Raymond, Kendall Stephenson, Martin Lischka, and Rb Balaji.

Yesterday, I had the privilege to welcome Hildegard Müller, President of German Association of the Automotive Industry (VDA), and Jürgen Mindel, Managing Director of #VDA

We discussed the strength of a #transatlantic marketplace when both sides of the Atlantic work together based on our #sharedvalues, and counter the global trend of inward-looking, domestically focused economic policies. With more #FTA, we can combine the concepts of #exportnation and #nationalsecurity

AI regulation is gathering momentum both in Europe and the US. The Biden Administration recently issued an Executive Order on AI and Congress is in the early phases of considering AI legislation. Meanwhile, in the EU, draft AI legislation has entered "trilogue" negotiations between the European Parliament, the European Council, and the European Commission.
