Thursday, November 2, 2017 at 2:28pm EDT	Statement from the Kurdistan Regional Government Representation in the United States Following the aggressive actions against Kurdistan taken by Iraqi security forces in the disputed territories since October 16, which resulted in the deaths of civilians and security forces on both sides as well as the displacement of 168,000 civilians to Kurdistan, the Kurdistan Regional Government (KRG) issued a call for dialogue to prevent the escalation of a civil war. Since October 27, senior officials from the federal Iraqi and KRG security forces have engaged in dialogue to determine the short-term plan for security in the disputed territories and control of the border crossing, particularly at Fish Khabur. The federal Iraqi delegation created the first draft of the agreement, which was sent to the KRG for review. With input from the KRG Prime Minister and Kurdistan Region Security Council, the draft was sent back with some amendments on October 31. It was understood that the original draft was intended to be a starting point for negotiations, and the KRG believed that its amendments were entirely reasonable and were to be negotiated with the Iraqi federal delegation. Without warning, the federal Iraqi Joint Operations Command then publicly issued the below statement (translated from Arabic), indicating that the amendments that KRG proposed have been "absolutely rejected", calling the negotiations "a ploy". The statement says that the federal government has "orders

to secure the region and its borders". Tragically, it appears that dialogue has collapsed. The KRG and its security forces fear that a major attack by Iraqi military and Popular Mobilization Forces (PMF) militia (including Iranian-backed militia) is imminent. This would be an extreme and likely irreversible escalation in violence that will jeopardize the safety of the diverse people of Kurdistan, nearly 2 million displaced Syrians and Iraqis, and the thousands of foreign workers and diplomats that live in the Kurdistan Region. The KRG remains prepared to negotiate in accordance with the Iraqi Constitution. We call on the international community to bring the federal government back to negotiations and prevent an immediate and catastrophic escalation of violence. ===== Statement by the federal Iraqi Joint Operations Command Showing an acute sense of responsibility and wisdom, Mr. Prime Minister Al-Abadi, General Commander of the Armed Forces, sent a high military technical delegation for a series of meetings with the security delegation from Erbil. The Prime Minister gave them a couple of days in order to avoid bloodshed and to protect citizens, but the region's leadership and their negotiating delegation devolved completely on the evening of Tuesday 10/31/2017 on the draft agreement that the federal team had been negotiating over; this has been an apparent ploy to waste time. After all these negotiations and agreements, in the very last minute, what they offer is going back to the square one and the opposite of all that they agreed to. What they have offered has been absolutely rejected. During the negotiations the Kurdistan Region moved forces and built new defenses to impede the deployment of the federal forces and has caused losses among them. As such, we cannot keep silent and it is our duty to protect our citizens and forces. Erbil has been given a specified period of time to agree to the paper they were negotiating and has turned against it. They unfortunately are employing procrastination and treachery to kill our forces as they did before and we will not allow this to continue. The federal government has orders to secure the region and its borders, to protect civilians, and to have strict instructions not to get engaged in fights. The federal government will attempt to prevent bloodshed, but if groups of armed forces related to Erbil resist by firing at the federal forces, killing members of armed forces, or terrorizing the citizens then they will be chased by the forces of federal law and there will be no place for them to retreat. We assure that our people's interests everywhere where the federal forces enter shall be under its protection.

Kurdistan Region Security Council: Multiple Iraqi forces and Iranian-backed PMF attacks against Peshmerga positions Today at 0600hrs Erbil time Iraqi forces and Iranian-backed Popular Mobilization Forces (PMF) began an unprovoked, four-pronged assault on Peshmerga positions in north-west Mosul; Bardiya and Hamad Agha towards Ain Ouais, Mosharaf towards Sufaya, and from Rabia towards Mahmoudiya. The following Iranian-backed PMF played a role in the attacks: Kataib Imam Ali, Harakat Al-Najba, Tofuf Brigade, Hussein Brigade, Badr Corp, Al-Abbas Brigade, Kataib Jund Al-Imam, and Raad Al-Saree Division, all under command of Hadi Ameri and Abu Mahdi Mohandes. Frontline reporting confirms Iraqi forces and Iranian-backed PMF continue to use U.S. weapons given to Iraq for the anti-ISIL campaign, including Humvees, Armored Personnel Carriers and Badger infantry vehicles. This is a blatant violation of the Iraqi Constitution which forbids the use of the army to settle political disputes. We condemn Iraq's military aggression in the strongest terms. As of 1200hrs Erbil time, the Peshmerga had heroically repelled the attacks, destroying three tanks, five Humvees and one Badger infantry vehicle. Having retreated from the areas, Iraqi forces have resorted to shelling Peshmerga positions. Peshmerga forces will defend their positions against Iraq's wanton aggression and will continue to protect the region and its peoples. These attacks

	<p>must stop immediately; Iraq must withdraw all forces and return to negotiations to address political differences. The international community must denounce Iraq's reckless behavior in the last two weeks. It has destabilized some of the country's safest areas, displaced over 150,000 individuals and created dangerous security vacuums. For updates, follow @KRSCPress on Twitter.</p>
<p>Wednesday, October 25, 2017 at 9:40pm EDT</p>	<p>Kurdistan Region Security Council: Imminent attack by Iraqi forces and Iranian-backed PMF in north-west of Mosul The Kurdistan Region Security Council is alarmed by intelligence signaling an imminent attack by Iraqi forces and Iranian-backed Popular Mobilization Forces in North West of Mosul. Despite KRG's flexibility and repeated calls for dialogue, the US-led Global Coalition and US Government in particular has signaled tacit approval by dangerously -- and incorrectly, referencing the need to implement the law. That position sanctions forces reporting to Hadi Ameri and Abu Mahdi Mohandes to launch unprovoked attacks against the people of Kurdistan Region. It also gives Iran an opening to expand its influence and destabilize the Kurdistan Region. In the last six days, Iraqi forces and Iranian-backed PMF have deployed heavy weapons in preparations for this major attack. In Zummar, heavy artillery and tanks are positioned in offensive posture towards nearby Peshmerga positions. In Rabia, US equipment, including significant number of Humvees and Armored Personnel Carriers, have arrived to reinforce tanks and artillery deployed in recent days - again barrels positioned towards Peshmerga forces. This is unconstitutional. The KRG has implemented obligations under the tripartite agreement in October 2016 between Erbil, Baghdad and Washington D.C. requiring a withdrawal to areas prior to the anti-ISIL campaign in Mosul. That agreement stipulates the Iraqi Government would not deploy PMF to areas bordering Kurdistan. Their continued deployment and use of heavy equipment, including many American, signals intent to use military means to settle political disputes. That too is unconstitutional. This behavior continues because the US-led Global Coalition fails to apply the pressure necessary to stop Iraq's aggressive military attacks. The KRG calls on the international community to intervene immediately to stop Iraq's reckless behavior. Baghdad should withdraw all forces from nearby areas and accept KRG's offer for unconditional talks to settle political differences. The United States in particular must apply the pressure necessary to stop Iraq. It must not allow Iranian-backed forces to use American equipment.</p>

<p>Monday, October 23, 2017 at 10:25am EDT</p>	<p>Kurdistan Region Security Council: Continued build-up of Iraqi forces and PMF towards the Kurdistan Region The Kurdistan Region Security Council (KRSC) is concerned about continued military build-up of Iraqi forces and Iranian-backed Popular Mobilization Forces (PMF) towards the Kurdistan Region. In the last 48 hours, Iraq has continued to deploy tanks and artillery, as well as American equipment, including Humvees and Armored Personnel Carriers. Iraq has shown zero signs of de-escalating their military aggression against the people of the Kurdistan Region. This dangerous deployment follows Iraq's unprovoked attacks last week in Kirkuk and Altun Kupri. The Kurdistan Regional Government calls on the Iraqi Government to immediately cease its military aggression and withdraw from all territories. As the political leadership of the Kurdistan Region has said time and again, Iraq must commit to unconditional talks to settle political disputes through peaceful means. For updates, follow @KRSCPress on Twitter.</p>
<p>Friday, October 20, 2017 at 4:17pm EDT</p>	<p>President Barzani statement today - http://bit.ly/2xcNH93 President Masoud Barzani released a statement today directed at the people of the Kurdistan, living both in the</p>

	<p>Region and abroad as well as to the public opinion worldwide. The President commences the statement by saying that the people of Kurdistan had peacefully engaged in a democratic exercise to decide on their destiny which is a natural right of any and all nations. As a result of the Kurdistan Independence Referendum, the people of the Kurdistan Region have been under attack and punished by a blockade by the Iraqi government. These aggressive policies of punishment by the Iraqi government have resulted in a severe economic impact on the Region and have led to the displacement of 150,000 civilians from their homes. The President calls upon the international community as a whole to work towards ending these aggressive measures by the Iraqi government against the people of Kurdistan. He calls upon the conscience of humanity to impede the occurrence of another genocide against the people of Kurdistan who are now living under the oppression of the Iraqi government. The statement says that it is unfortunate that because of their interests, many of the governments around the world have forgotten the sacrifices of the Peshmerga forces during the war on the terrorists of the Islamic State. They have forgotten, the President adds that the Peshmerga forces were recently fighting against the terrorists of the Islamic State on behalf of the free world. It was during that war, the statement says, that thousands of Peshmerga forces paid the ultimate sacrifice or were wounded. President Barzani also calls upon the people of Kurdistan who are living in Europe and the United States to peacefully protest against the silence of the international community at a time when the Kurdistan Region is under attack by the Iraqi government. The President concludes the statement by calling upon the Kurds of the diaspora to "convey the oppressed voice and peaceful message of the Kurdistan Region to the world."</p>

Thursday, October 12, 2017 at 2:53pm EDT	Iraqi Forces and PMF attack Peshmerga Forces south of Kirkuk On Sunday, October 15 at approximately 2330 hrs local time Iraqi forces and Iranian-backed Popular Mobilization Forces advanced from Taza Khormatu in south Kirkuk in a major, multi-pronged operation intended to enter the city and take over K1 base and oil fields. At approximately 0230hrs they attacked Peshmerga Forces from two fronts in the Taza-Kirkuk intersection and Maryam Bag bridge, both south of Kirkuk, using US military equipment, including Abrams tanks and Humvees. Significant forces have also been deployed to Maktab Khalid intersection south-west of Kirkuk as part of the operation. Peshmerga Forces have destroyed at least five US Humvees used by PMF. Peshmerga will continue to defend Kurdistan, its peoples and interests. This was an unprovoked attack following days of Iraqi military deployments to Kurdistan's borders. Further updates will be posted on @KRSCPress using #SupportKurdistan.
