

For Six Month Period Ending 01/31/2011
(Insert date)

I - REGISTRANT

1. (a) Name of Registrant
Conover + Company Communications, Inc.
- (b) Registration No.
5994
- (c) Business Address(es) of Registrant
7 Highland Street, South Dartmouth, MA 02748

2. Has there been a change in the information previously furnished in connection with the following:

- (a) If an individual:
- | | | |
|---------------------------|------------------------------|--|
| (1) Residence address(es) | Yes ☐ | No ☒ |
| (2) Citizenship | Yes ☐ | No ☒ |
| (3) Occupation | Yes ☐ | No ☒ |
- (b) If an organization:
- | | | |
|--------------------------|------------------------------|--|
| (1) Name | Yes ☐ | No ☒ |
| (2) Ownership or control | Yes ☐ | No ☒ |
| (3) Branch offices | Yes ☐ | No ☒ |
- (c) Explain fully all changes, if any, indicated in items (a) and (b) above.

IF THE REGISTRANT IS AN INDIVIDUAL, OMIT RESPONSE TO ITEMS 3, 4 AND 5(a).

3. If you have previously filed Exhibit C¹, state whether any changes therein have occurred during this 6 month reporting period.
- Yes ☐ No ☒
- If yes, have you filed an amendment to the Exhibit C? Yes ☐ No ☐
- If no, please attach the required amendment.

¹ The Exhibit C, for which no printed form is provided, consists of a true copy of the charter, articles of incorporation, association, and by laws of a registrant that is an organization. (A waiver of the requirement to file an Exhibit C may be obtained for good cause upon written application to the Assistant Attorney General, National Security Division, U.S. Department of Justice, Washington, DC 20530.)

NO/YES/REGISTRATION
UNIT
2010 OCT 20 PM 12:32

4. (a) Have any persons ceased acting as partners, officers, directors or similar officials of the registrant during this 6 month reporting period? Yes ☐ No ☒

If yes, furnish the following information:

Name	Position	Date connection ended
------	----------	-----------------------

- (b) Have any persons become partners, officers, directors or similar officials during this 6 month reporting period? Yes ☐ No ☒

If yes, furnish the following information:

Name	Residence address	Citizenship	Position	Date assumed
------	----------------------	-------------	----------	-----------------

5. (a) Has any person named in item 4(b) rendered services directly in furtherance of the interests of any foreign principal? Yes ☐ No ☒

If yes, identify each such person and describe his service.

- (b) Have any employees or individuals, who have filed a short form registration statement, terminated their employment or connection with the registrant during this 6 month reporting period? Yes ☐ No ☒

If yes, furnish the following information:

Name	Position or connection	Date terminated
------	------------------------	-----------------

- (c) During this 6 month reporting period, has the registrant hired as employees or in any other capacity, any persons who rendered or will render services to the registrant directly in furtherance of the interests of any foreign principal(s) in other than a clerical or secretarial, or in a related or similar capacity? Yes ☐ No ☒

If yes, furnish the following information:

Name	Residence address	Citizenship	Position	Date assumed
------	----------------------	-------------	----------	-----------------

6. Have short form registration statements been filed by all of the persons named in Items 5(a) and 5(c) of the supplemental statement? Yes ☒ No ☐

If no, list names of persons who have not filed the required statement.

n/a

II - FOREIGN PRINCIPAL

7. Has your connection with any foreign principal ended during this 6 month reporting period?

Yes ☒ No ☐

If yes, furnish the following information:

Name of foreign principal
Government of Quebec

Date of termination
August 24, 2010

8. Have you acquired any new foreign principal² during this 6 month reporting period?

Yes ☐ No ☒

If yes, furnish the following information:

Name and address of foreign principal

Date acquired

9. In addition to those named in Items 7 and 8, if any, list foreign principals² whom you continued to represent during the 6 month reporting period.

n/a

10. **EXHIBITS A AND B**

(a) Have you filed for each of the newly acquired foreign principals in Item 8 the following:

Exhibit A ³	Yes ☐	No ☐
Exhibit B ⁴	Yes ☐	No ☐

If no, please attach the required exhibit.

(b) Have there been any changes in the Exhibits A and B previously filed for any foreign principal whom you represented during the 6 month period? Yes ☒ No ☐

If yes, have you filed an amendment to these exhibits? Yes ☒ No ☐

If no, please attach the required amendment.

² The term "foreign principal" includes, in addition to those defined in Section 1(b) of the Act, an individual organization any of whose activities are directly or indirectly supervised, directed, controlled, financed, or subsidized in whole or in major part by a foreign government, foreign political party, foreign organization or foreign individual. (See Rule 100(a) (9).) A registrant who represents more than one foreign principal is required to list in the statements he files under the Act only those principals for whom he is not entitled to claim exemption under Section 3 of the Act. (See Rule 208.)

³ The Exhibit A, which is filed on Form NSD-3 (Formerly CRM-157), sets forth the information required to be disclosed concerning each foreign principal.

⁴ The Exhibit B, which is filed on Form NSD-4 (Formerly CRM-155), sets forth the information concerning the agreement or understanding between the registrant and the foreign principal.

III - ACTIVITIES

11. During this 6 month reporting period, have you engaged in any activities for or rendered any services to any foreign principal named in Items 7, 8, and 9 of this statement? Yes ☒ No ☐

If yes, identify each such foreign principal and describe in full detail your activities and services:

Government of Quebec:

Set up meetings for Quebec companies engaged in waste to energy and renewable energy who were attending WasteCon 2010 in Boston. Meetings were set up with: Biocycle, Mass Clean Energy Center, Mass Department of Energy Resources, University of Massachusetts, Worcester Polytechnic Institute, CLF Ventures, NStar, Northeast Gas Association, Isosceles Group, SCS Engineers, Town of Lexington, MA, City of Revere, MA, City of Worcester, Massachusetts Municipal Association, ML Strategies, Camp Dresser McKee, City of Salem, Institute for Energy and Sustainability, SCS Engineers, City of Salem, MA, Mass Development, Massachusetts Office of International Trade and Investment, U.S. Virgin Islands Waste Management Authority, AECOM, MassCo, New England Sustainable Energy Association, Energy Federation, and Bay State Gas. Full list of contacts made attached.

12. During this 6 month reporting period, have you on behalf of any foreign principal engaged in political activity⁵ as defined below? Yes ☒ No ☐

If yes, identify each such foreign principal and describe in full detail all such political activity, indicating, among other things, the relations, interests and policies sought to be influenced and the means employed to achieve this purpose. If the registrant arranged, sponsored or delivered speeches, lectures or radio and TV broadcasts, give details as to dates and places of delivery, names of speakers and subject matter.

We arranged by phone and email in-person meetings between Quebec companies engaged in waste to energy and other renewable energy technology with Boston area entities that would potentially have an interest in their work, products, services, technologies or processes. All but one meeting took place at WasteCon 2010 in Boston. Biopierre met with Worcester Polytechnic Institute (WPI) at the WPI campus in Worcester, MA. A list of all meetings, participants and dates is attached.

13. In addition to the above described activities, if any, have you engaged in activity on your own behalf which benefits any or all of your foreign principals? Yes ☐ No ☒

If yes, describe fully.

⁵ The term "political activities" means any activity that the person engaging in believes will, or that the person intends to, in any way influence any agency or official of the Government of the United States or any section of the public within the United States with reference to formulating, adopting or changing the domestic or foreign policies of the United States or with reference to the political or public interests, policies, or relations of a government of a foreign country or a foreign political party.

IV - FINANCIAL INFORMATION

14. (a) RECEIPTS - MONIES

During this 6 month reporting period, have you received from any foreign principal named in Items 7, 8, or 9 of this statement, or from any other source, for or in the interests of any such foreign principal, any contributions, income or money either as compensation or otherwise? Yes ☒ No ☐

If no, explain why.

If yes, set forth below in the required detail and separately for each foreign principal an account of such monies⁶.

Date	From whom	Purpose	Amount
9/17/10	Government of Quebec	Balance due for scheduling appointments with nine Quebec companies	7800.00
7/11/10	Government of Quebec	First payment for scheduling appointments with Quebec companies	3900.00
			11,700.00
			Total

(b) RECEIPTS - FUND RAISING CAMPAIGN

During this 6 month reporting period, have you received, as part of a fund raising campaign⁷, any money on behalf of any foreign principal named in items 7, 8, or 9 of this statement? Yes ☐ No ☒

If yes, have you filed an Exhibit D⁸ to your registration? Yes ☐ No ☐

If yes, indicate the date the Exhibit D was filed. Date _____

(c) RECEIPTS - THINGS OF VALUE

During this 6 month reporting period, have you received any thing of value⁹ other than money from any foreign principal named in Items 7, 8, or 9 of this statement, or from any other source, for or in the interests of any such foreign principal? Yes ☐ No ☒

If yes, furnish the following information:

Name of foreign principal	Date received	Description of thing of value	Purpose
------------------------------	------------------	----------------------------------	---------

^{6, 7} A registrant is required to file an Exhibit D if he collects or receives contributions, loans, money, or other things of value for a foreign principal, as part of a fund raising campaign. (See Rule 201(e).)

⁸ An Exhibit D, for which no printed form is provided, sets forth an account of money collected or received as a result of a fund raising campaign and transmitted for a foreign principal.

⁹ Things of value include but are not limited to gifts, interest free loans, expense free travel, favored stock purchases, exclusive rights, favored treatment over competitors, "kickbacks," and the like.

15. (a) **DISBURSEMENTS – MONIES**

During this 6 month reporting period, have you

(1) disbursed or expended monies in connection with activity on behalf of any foreign principal named in Items 7, 8, or 9 of this statement? Yes ☒ No ☐

(2) transmitted monies to any such foreign principal? Yes ☐ No ☒

If no, explain in full detail why there were no disbursements made on behalf of any foreign principal.

If yes, set forth below in the required detail and separately for each foreign principal an account of such monies, including monies transmitted, if any, to each foreign principal.

Date	To whom	Purpose	Amount
10/01/2010	Lydia Pastuszek	For setting up meetings and attending WasteCon 2010 to help with meeting logistics.	\$9000.00

Total

(b) DISBURSEMENTS – THINGS OF VALUE

During this 6 month reporting period, have you disposed of anything of value¹⁰ other than money in furtherance of or in connection with activities on behalf of any foreign principal named in Items 7, 8, or 9 of this statement?

Yes ☐ No ☒

If yes, furnish the following information:

Date disposed	Name of person to whom given	On behalf of what foreign principal	Description of thing of value	Purpose
---------------	------------------------------	-------------------------------------	-------------------------------	---------

(c) DISBURSEMENTS – POLITICAL CONTRIBUTIONS

During this 6 month reporting period, have you from your own funds and on your own behalf either directly or through any other person, made any contributions of money or other things of value¹¹ in connection with an election to any political office, or in connection with any primary election, convention, or caucus held to select candidates for political office?

Yes ☐ No ☒

If yes, furnish the following information:

Date	Amount or thing of value	Name of political organization	Name of candidate
------	--------------------------	--------------------------------	-------------------

^{10, 11} Things of value include but are not limited to gifts, interest free loans, expense free travel, favored stock purchases, exclusive rights, favored treatment over competitors, "kickbacks" and the like.

V - INFORMATIONAL MATERIALS

16. During this 6 month reporting period, did you prepare, disseminate or cause to be disseminated any informational materials¹²?
 Yes ☒ No ☐

IF YES, RESPOND TO THE REMAINING ITEMS IN SECTION V.

17. Identify each such foreign principal.

Government of Quebec

18. During this 6 month reporting period, has any foreign principal established a budget or allocated a specified sum of money to finance your activities in preparing or disseminating informational materials? Yes ☒ No ☐

If yes, identify each such foreign principal, specify amount, and indicate for what period of time.

The Government of Quebec paid us \$11,700 to set up meetings with a Canadian delegation of companies attending WasteCon 2010 in Boston in August 2010. As part of our activities we sent out emails and descriptions of the companies and their technologies, processes, and products. No specific budget was set up for the express purpose of disseminating informational materials. This activity took place as part of the process to help us set up meetings with area companies, institutions, municipalities, non-profits and state agencies.

19. During this 6 month reporting period, did your activities in preparing, disseminating or causing the dissemination of informational materials include the use of any of the following:

- | | | | |
|---|--|---|---|
| ☐ Radio or TV broadcasts | ☐ Magazine or newspaper articles | ☐ Motion picture films | ☐ Letters or telegrams |
| ☐ Advertising campaigns | ☐ Press releases | ☒ Pamphlets or other publications | ☐ Lectures or speeches |
| ☐ Internet | ☒ Other (specify) <u>Emails and one pagers</u> | | |

20. During this 6 month reporting period, did you disseminate or cause to be disseminated informational materials among any of the following groups:

- | | | |
|--|--|--|
| ☒ Public officials | ☐ Newspapers | ☐ Libraries |
| ☐ Legislators | ☐ Editors | ☒ Educational institutions |
| ☒ Government agencies | ☒ Civic groups or associations | ☐ Nationality groups |
| ☒ Other (specify) <u>Private companies</u> | | |

21. What language was used in the informational materials:

- ☒ English ☐ Other (specify) _____

22. Did you file with the Registration Unit, U.S. Department of Justice a copy of each item of such informational materials disseminated or caused to be disseminated during this 6 month reporting period? Yes ☐ No ☒

23. Did you label each item of such informational materials with the statement required by Section 4(b) of the Act?

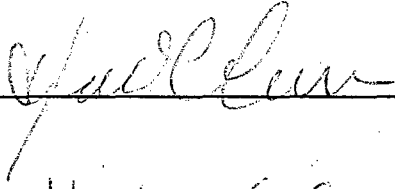

Yes ☐ No ☒

¹² The term informational materials includes any oral, visual, graphic, written, or pictorial information or matter of any kind, including that published by means of advertising, books, periodicals, newspapers, lectures, broadcasts, motion pictures, or any means or instrumentality of interstate or foreign commerce or otherwise. Informational materials disseminated by an agent of a foreign principal as part of an activity in itself exempt from registration, or an activity which by itself would not require registration, need not be filed pursuant to Section 4(b) of the Act.

VI – EXECUTION

In accordance with 28 U.S.C. §1746, the undersigned swear(s) or affirm(s) under penalty of perjury that he/she has (they have) read the information set forth in this registration statement and the attached exhibits and that he/she is (they are) familiar with the contents thereof and that such contents are in their entirety true and accurate to the best of his/her (their) knowledge and belief, except that the undersigned make(s) no representation as to the truth or accuracy of the information contained in the attached Short Form Registration Statement(s), if any, insofar as such information is not within his/her (their) personal knowledge.

(Date of signature)

(Type or print name under each signature¹³)Heather C. ConoverOctober 8, 2010

¹³ This statement shall be signed by the individual agent, if the registrant is an individual, or by a majority of those partners, officers, directors or persons performing similar functions, if the registrant is an organization, except that the organization can, by power of attorney, authorize one or more individuals to execute this statement on its behalf.

INSERT

V. Informational Materials

Copies of company information disseminated to companies, institutions, non-profits, municipalities and state agencies.

Innovente owns the rights to a drying technology that allows it to produce energy (electricity) from a wide spectrum of wet biomass.

Target: Companies, government, authorities

www.innovente.ca

NI Corporation manufactures and sells refuse and plastic containers of all sizes used in offices and recycling bins. (Booth number: 2783-E)

Targets: Environmental agencies, municipalities, waste recycling, building property management

www.ni-corporation.com

Odotech offers a full range of services and technologies relating to odor. Odotech has developed leading-edge commercial products, including a dynamic dilution olfactometer (ODILE), a sampling device (OdoFlux), atmospheric dispersion modeling software for odors and contaminants (POLAIR and TROPOS), as well as automated systems for the monitoring and management of site odors (OdoScan) using electronic noses (OdoWatch). (Booth number: 2783-B)

Targets: Composting, waste storage/burial, wastewater treatment, rendering, refinery, municipal and county landfills, governmental regulatory authorities engaged in regulating solid waste industry

www.odotech.com

Pyrogenesis offers plasma waste destruction and waste to energy technologies along with plasma torch and engineering services. Their alternative technology is an alternative to landfill incineration and other waste destruction technologies. (Booth number: 2783-D)

Targets: Chemical and industrial clients where technology can bolt on to existing facilities, communities where waste hauling is prohibitive, companies dealing with low level radioactive waste where technology can reduce volume, and municipalities looking to own their own hazardous biomedical waste destruction capabilities

www.pyrogenesis.com

Urwind designs, manufactures and sells their wind turbine, the UrWind O₂, to dealers and end consumers. The turbine is an urban-friendly residential sized turbine that can power 20% to 40% of an average U.S. household's annual electricity needs and is mounted on a vertical axis.

Targets: Local partners, dealers, LEED architects, LEED engineers, LEED Projects, eco-friendly businesses, homeowners, institutions

Company Name: UrWind Inc. Company Logo:  Participant 1 Name: Jean-Christophe Mortreux Title: Chief Executive Officer Tel.: 514 690-4466 Email: jcmortreux@urwind.com Participant 2 Name: Vanessa Hirschl Title: Business Development Manager Tel.: (514) 316-17 Email: vhirschl@urwind.com	Management team (names, titles) Jean-Christophe Mortreux : Chief Executive Officer Jonathan Mortreux : Vice-President, Operations Olivier Blanc: Vice-President, Technology Business objectives / Specific needs We are currently looking to have highly visible projects that will help UrWind gain recognition and market share in the North-eastern U.S. This is why UrWind is making great discounts on these types of projects. Our objective is also to establish key relationships with environmental consultants, engineering, and architectural firms that will suggest and spec our product to their own clients. Finally meeting local installers/dealers who could work on selling, managing, and installing the UrWind O₂. Desired solutions / « Value proposition » Increase visibility and recognition in the region, increase sales, and start a network of local dealers. Targeted markets / Marketing strategy / Targeted clients In the short term, our target markets are located in the North Eastern United States. The high electricity prices, the federal and state financial incentives, interest in renewable energy, and high family income render this market attractive for small wind energy. In medium term, the company will expand to target Western US and European countries where demand is also very strong. In the short term UrWind will be selling the turbine directly by contacting LEED Architects (currently becoming AIA, USGBC educators), LEED projects, and eco-friendly businesses. We are working on establishing a network of local partners who could deal with installation, permitting and financial incentive administrative work, maintenance, and customer service. Local partners are usually small businesses who focus on renewable energy such as solar and wind installations. Our target clients are homeowners, businesses, and institutions in urban or suburban settings who are interested in renewable energy. The UrWind O₂ is an urban-friendly residential sized turbine that can power 20%-40% of average U.S. annual household electricity needs. Businesses & institution will generate electricity and send a strong environmental message. Targeted companies/governments for onsite appointment UrWind designs, manufactures and sells the UrWind O₂ to dealers or end consumers. Close relationships with dealers are built to ensure swift local permitting, installation, assistance and maintenance. A solid dealer network will ensure strong sales, quality installation and overall consumer service satisfaction. Green architects and engineers are also called upon as they can simplify the integration process and even introduce the product to their customers. - Boston Mayor Meninos office - Northeast Sustainable Energy Association (NSEA) - Governor of Massachusetts - Green product dealer network associations

Business objectives / Specific needs

Innoventé firmly intends to become a major producer of electricity from wet biomass in all regions at the national and international scale. Innoventé's strategic vision lies in producing electricity from power stations that will be built in the very regions they will serve.

Desired solutions / « Value proposition »

Innoventé owns the rights to an innovative drying technology that allows it to use a wide spectrum of wet biomass to produce electricity. This technology will ensure biomass supply for electricity production at Innoventé's future co-generation power plants.

Targeted markets / Marketing strategy / Targeted clients

The targeted markets are the energy production from biomass market and the biomass market. Innoventé is still in the process of deciding which of the marketing strategies at the company's disposal it will adopt and to which client base it will propose its solutions in order to maximize adoption of its "value proposition".

Targeted companies/governments for onsite appointment

Again, because Innoventé is not set on its marketing strategy, it can't identify, for the moment, specific companies or government authorities that could be candidates for appointments with the company's representatives.

To: Pat Mikes <pmikes@mma.org>

Hi Pat,

It was good to talk with you today. I'm attaching a brochure on WasteCon 2010 for your information should you wish to pass it along to any of your members. You'll note that this year, WasteCon is colocating with the American Public Works Association Congress and Exhibition.

I appreciate your passing the information on to Tom Philbin and will look forward to hearing back from one of you soon. Thank you!

Date: Tuesday, July 20, 2010 2:30 PM
From: HEATHER CONOVER <hconover@conoverandcompany.com>
To: <fkibble@themahercorp.com>

Dear Fred:

Per our phone conversation, I am sending information about a number of Canadian companies that will be in Boston on August 15-17 for WasteCon2010. My firm has been hired by the Government of Quebec to set up meetings for these companies while they are in Boston. The companies are all involved in some aspect of waste to energy technologies, wastewater treatment, solid waste treatment, waste volume reduction technologies, etc. A number of these companies are interested in and would benefit from a relationship with a manufacturer's rep.

I'm hoping that you will be available and interested in meeting with several of these companies at WasteCon (I can provide passes). As promised, I am attaching some brief information about each of these entities, their target markets and a link to their web sites. If you are interested, please contact me so that we can confirm which companies you'd like to meet with and a mutually convenient time.

As you probably know, WasteCon is the annual conference put on by the Solid Waste Association of North America. This year WasteCon will be colocated with the American Public Works Association at the Boston Convention & Exhibition Center. I'm also attaching a WasteCon 2010 brochure for your information.

Thank you. I look forward to hearing from you.

The poster for SWANA's WASTECON 2010 features a large, stylized 'W' and 'A' forming the word 'WASTECON' in a bold, blocky font. Below this, the year '2010' is displayed. The location 'Boston, Massachusetts' and dates 'August 15-17, 2010' are prominently shown. A vertical banner on the right side reads 'Registration Brochure'. The background includes a city skyline and a large, stylized 'B' with the word 'BOSTON' inside it. The tagline 'Strengthening the Industry' is positioned above the 'BOSTON' logo. Logos for 'SWANA' and 'Public Works' are visible. A 'SAVE \$200' badge is present, along with a 'BOSTON CONVENTION AND EXHIBITION CENTER' logo at the bottom.

As the pass to the exhibit hall might not reach you in time, please also find a pass to the convention hall attached. Print out as many passes as you'd like for entry into the exhibit hall. The meetings will be held at booth # 2783.

Dear Mayor Ambrosino:

Thank you very much for taking the time to meet with members of the Quebec Trade Mission next week. Following is the information for your meetings:

Date: Tuesday, August 17, 2010

Time: 10:00 am – 11:00 am

Location: Boston Convention and Exhibition Center

415 Summer Street

Boston, MA

Booth #: 2783

Meetings:

10:00 am: Enerkem

10:30 am: Pyrogenesis

I have attached company information for Enerkem and Pyrogenesis, as well as a list of the other companies in the trade mission and a WasteCon 2010 brochure.

If you need to contact me next week, I can be reached on my cell phone on Monday and Tuesday: 508-789-9273.

I look forward to meeting you and appreciate the time you are taking from your busy schedule to meet with these companies.

From: HEATHER CONOVER <hconover@conoverandcompany.com>
To: Vincent DeVito <vdevito@bowditch.com>

Hi Vincent,

I understand that you're out of the office at meetings today and have a busy schedule for the next few days. Lydia and I are working with the Quebec Government on a trade mission that will be in Boston in mid August (15-17) for WasteCon 2010. We are setting up meetings for these companies with potential clients, partners and reps, as well as with certain state agencies, municipalities and regional and statewide organizations. Most of the companies are involved in some aspect of waste to energy technologies, wastewater treatment, solid waste treatment, waste volume reduction technologies, etc. One company, UrWind has an "urban-friendly residential sized" wind turbine.

We are hoping to set up meetings with both Boston and Worcester, as well as other municipalities. Lydia and I wondered if you'd like to have the meeting with Worcester set up through IES and if there are any companies (or other organizations) that you might also suggest would be interested in meeting with one or more of the trade mission participants.

I am attaching some brief information about each of these entities, their target markets and a link to their web sites.

As you probably know, WasteCon is the annual conference put on by the Solid Waste Association of North America. This year WasteCon will be colocated with the American Public Works Association at the Boston Convention & Exhibition Center. I'm also attaching a WasteCon 2010 brochure for your information.

Thank you. I look forward to hearing from you when you come up for air!

The 2010 SWANA Wastecon

Subject: Québec Trade Mission
Date: Wednesday, July 21, 2010 4:52 PM
From: HEATHER CONOVER <hconover@conoverandcompany.com>
To: Kathleen Freeman <kathleen.freeman@nstar.com>

Hi Kathleen,

I'd hoped to get this off to you earlier, but it's been one of those days. I'm attaching a corporate profile on Xebec, the company you and I discussed yesterday. I'm also attaching information on the other firms that have signed up thus far for the trade mission and a brochure on WasteCon 2010 in Boston, which is the conference the Canadian firms will be attending and at which they are exhibiting.

We've been hired by the Government of Quebec to set up meetings for these companies while they are in Boston from August 15-17. As you'll see from the attached, most of the companies are involved in some aspect of waste to energy technologies, wastewater treatment, solid waste treatment, waste volume reduction technologies, etc.

I would like to arrange for NStar to meet with the representatives from Xebec at WasteCon (I can provide passes). Of course, if you have an interest in any of the other companies, we'd be happy to arrange those meetings, as well. Please let me know if we can set up a meeting and I'll arrange a mutually convenient time.

Many thanks.

Heather

Subject: Quebec Trade Mission

Date: Tuesday, July 27, 2010 1:59 PM

From: HEATHER CONOVER <hconover@conoverandcompany.com>

To: <jdevillars@bluewavestrategies.com>

Hi John,

I hope business continues to thrive and that you're enjoying the summer. I've been meaning to call or email you for awhile to check in ... And now have a compelling reason to get in touch sooner rather than later.

Our firm is currently working with the Government of Quebec to set up meetings for a number of Canadian companies that are traveling to Boston for WasteCon 2010 in mid August.

The companies are for the most part involved in new technologies and solutions for solid waste, including waste to energy, waste water treatment, solid and hazardous waste treatment, waste volume reduction technologies, as well as design and engineering services. There is one company that designs and manufactures an urban-friendly residential sized turbine that can power 20% to 40% of an average U.S. household's annual electricity needs and is mounted on a vertical axis.

I'm hoping that you might be interested in meeting with some of the companies at WasteCon (I can provide passes). I'd be happy to send along a brief description of each of the companies to you.

As you undoubtedly know, WasteCon is the annual conference put on by the Solid Waste Association of North America. This year WasteCon will take place from August 15 to 17 and will be co-located with the American Public Works Association at the Boston Convention & Exhibition Center. I'm also attaching a WasteCon 2010 brochure for your information.

Please reply to let me know if you are interested in finding out more about the companies that will be in attendance. Also, if you know of other individuals or organizations that we should be contacting, we'd appreciate knowing about them.

We plan to finalize the schedule no later than August 10, so would appreciate your prompt reply.

Thank you.

Subject: Quebec Solid Waste Trade Mission Meeting Request
Date: Tuesday, July 27, 2010 12:22 PM
From: HEATHER CONOVER <hconover@conoverandcompany.com>
To: <buckleybd@cdm.com>

Dear Brian:

Victor L'Esperance gave me your contact information regarding a Quebec Trade Mission to Boston in mid August for WasteCon 2010. I know that CDM is the key sponsor for WasteCon 2010 and am hoping there will be interest on your part of meeting with some of the Canadian companies. The companies are involved in new technologies and solutions for solid waste, including waste to energy, waste water treatment, solid and hazardous waste treatment, waste volume reduction technologies, as well as design and engineering services. While they are in Boston, they would like to meet with companies and organizations that would be interested in learning about their products, services and technologies.

Please reply let me know if you or someone else at CDM is interested in finding out more about the companies that will be in attendance. We plan to finalize the meeting schedule no later than August 10, so would appreciate your prompt reply. Also, if you know of other individuals or organizations that we should be contacting, we'd appreciate knowing about them.

Thank you.

Subject: WasteCon 2010 matchmaking meetings
Date: Monday, August 2, 2010 11:43 AM
From: HEATHER CONOVER <hconover@conoverandcompany.com>
To: Deb Hadden <dhadden@massport.com>

Dear Deb:

It's been a long time since we've spoken. I hope all is well and that I will still find you at Massport.

My firm has been hired by the Government of Quebec to set up meetings for a number of companies while they are in Boston. The companies are mostly involved in some aspect of waste to energy technologies, wastewater treatment, solid waste treatment, waste volume reduction technologies, etc.

One of these companies, Pyrogenesis, is very interested in meeting with Massport. They offer plasma waste destruction and waste to energy technologies that are alternatives to landfill incineration and other waste destruction technologies. I'm hoping that you will be able to direct me to the appropriate individuals on both the aviation and maritime side of Massport.

I'm attaching the complete list and brief description of the trade mission companies for your review should there be others with which Massport would be interested in meeting.

As you probably know, WasteCon is the annual conference put on by the Solid Waste Association of North America. This year WasteCon will be colocated with the American Public Works Association at the Boston Convention & Exhibition Center. I'm also attaching a WasteCon 2010 brochure for your information.

Thank you. I look forward to hearing from you.

Heather

From: HEATHER CONOVER <hconover@conoverandcompany.com>

To: Linda Burke <lburke@admakepeace.com>

Hi Linda,

I hope you're having an enjoyable summer and that all is going well for you. Are you living in Onset this summer? Great place to be, if so!

I am working with the Government of Quebec delegation in Boston helping a group of companies set up meetings while they are at WasteCon 2010 in Boston. The companies are all involved in some aspect of waste to energy technologies, wastewater treatment, solid waste treatment, waste volume reduction technologies, etc. One of these companies, Electrigaz, is particularly interested in meeting with farms and agribusinesses, so I immediately thought of A.D. Makepeace.

I'm hoping that you or someone from the cranberry operations would be interested in meeting with Electrigaz and perhaps other companies at WasteCon (I can provide passes). I'm attaching a list and brief description of the companies that will be at WasteCon in Boston on August 16th and 17th, as well as a WasteCon 2010 brochure for your information.

Thanks! We're working on getting appointments booked this week, so I look forward to hearing from you soon.

From: HEATHER CONOVER <hconover@conoverandcompany.com>

To: Kathleen Freeman <kathleen.freeman@nstar.com>

Hi,

Thanks for forwarding my voicemail to Tom O'Rourke. I didn't get his email address, but wanted to send some information on to him before we speak again tomorrow. The three companies below are ones I believe could be of interest to NStar.

1. Xebec – I sent their information along earlier and have attached it again. They design and manufacture purification, separation, dehydration, and filtration equipment for gases and compressed air.
2. Electrigan – They focus exclusively on biogas engineering and have performed a number of studies that could be of interest to NStar, including Economical viability of upgrading farm biogas to sell energy directly to consumers over the natural gas grid.
3. Innoventé – Innoventé owns the rights to an innovative drying technology that allows it to use a wide spectrum of wet biomass to produce electricity.

Of course, if there are other companies from the list we sent earlier, we'd be happy to arrange those meetings, as well.

Thank you.

Heather

Hi Kathleen,

I'd hoped to get this off to you earlier, but it's been one of those days. I'm attaching a corporate profile on Xebec, the company you and I discussed yesterday. I'm also attaching information on the other firms that have signed up thus far for the trade mission and a brochure on WasteCon 2010 in Boston, which is the conference the Canadian firms will be attending and at which they are exhibiting.

We've been hired by the Government of Quebec to set up meetings for these companies while they are in Boston from August 15-17. As you'll see from the attached, most of the companies are involved in some aspect of waste to energy technologies, wastewater treatment, solid waste treatment, waste volume reduction technologies, etc.

I would like to arrange for NStar to meet with the representatives from Xebec at WasteCon (I can provide passes). Of course, if you have an interest in any of the other companies, we'd be happy to arrange those meetings, as well. Please let me know if we can set up a meeting and I'll arrange a mutually convenient time.

Many thanks.

Pam,

I have heard back from the executive director of Biopterre that they would be very interested in meeting with you. We are communicating with several other WPI faculty, as well with whom Linda put us in touch. I'm going to suggest that we ask the Quebec government (coordinators of the trade mission) that we ask Biopterre if they'd be willing to travel to WPI during or after the WasteCon meeting. It seems that might accommodate your schedules better. What are your thoughts on this possibility?

Company Name:

Biopterre – Bioproducts Development Center

Biopterre's main objectives for this event are to improve their expertise and knowledge in waste's treatment technologies, specifically about the biomethanization process. They would like to meet with US institutes, research centers or University School specialized on bioproducts development, bioprocess or in «green» technologies.

Website address:

www.biopterre.com

About Biopterre (from Biopterre's web site)

Biopterre's Bioproducts Development Center seeks to foster competitiveness in the bioproducts sector and promote multifunctionality of rural communities by

- developing new products, technologies and/or processes;
- improving existing products, technologies and/or processes;
- implementing and transferring new technologies and/ or new operational modes;
- technological and market trend spotting, registering products and disseminating information to companies in the bioproducts sector.

Two types of services are offered to our clients.

A. Professionnal services:

1. Support for product accreditation (registration, certification and standardization), standards assessment, writing of specifications in relation to bioproducts;
2. Technical and market trend spotting for the peat industry, NTFPs and specialty products with the help of existing monitoring networks;
3. Organizing of workshops and seminars based on sector-specific needs identified by businesses;
4. Completing technical and economic feasibility studies for innovative products or new technologies;
5. Support for funding and file preparation for project funding applications;
6. Establishing and maintaining windbreaks and riparian strips.

B. Services directly related to products and technologies development:

1. Improving production processes;
2. Developing NTFPs under the forest canopy production methods;
3. Carrying out test runs and experiments with new technologies;
4. Developing, evaluating and characterizing value-added bioproducts, agroenvironmental and bioenergetic technologies;
5. Developing equipment that allows a judicious use of biofertilizers, as well as NTFPs or specialty plants harvesting;
6. Developing equipment and physical, biological and biotech methods (mostly peat-based) to treat effluents from livestock, reduce background pollution and eliminate pollution load and odours;
7. Developing production, harvesting, separation, extraction, conditioning, processing and packaging techniques for specialty products, NTFPs, natural health and biomass products. These techniques are applicable in such fields as pharmaceuticals, cosmetics, energy, food, etc.;
8. Technology transfer.

Specialty bioproducts

Until recently, agricultural products were almost exclusively used for food. However, new applications are being discovered. These products are now being used in pharmaceuticals, cosmetics and nutraceuticals. Niche products development and specialty products processing help foster economic activity in rural areas.

Non-timber forest products (NTFPs) and agroforestry systems

NTFPs are products or by-products of forest vegetation other than wood substance. NTFPs have various commercial uses: resins, essential oils, medicines, cosmetics, ornamental products, bio-industrial products, biofuels, food and food additives. Agroforestry systems, which combine trees with crops or animals, help protect the environment and increase crop yields. They are a source of biomaterials, biomass and NTFPs.

Peat-based bioproducts and agroenvironmental technologies

Value-added products and growing mixes (biofertilizers) and development of agroenvironmental technologies (bioremediation, biofiltration and biotreatment) relying on the filtration capacity of peat and other bioproducts.

Hi John,

Thank you for your email. I have attached a one-pager from Biopterre that you might also find helpful. Do I understand correctly, that you would prefer not to attend WasteCon, but instead to have a telephone conversation with a member of Biopterre's technical staff? If there's enough interest on the part of WPI faculty to have some initial discussions, we may also be able to have the executive director of Biopterre travel to the campus during or immediately following WasteCon.

Please let me know how you would like to proceed and I'll work on moving things forward.

Thank you.

On 8/3/10 9:39 AM, "Bergendahl, John A" <jberg@WPI.EDU> wrote:

Hi Heather and Linda:

Sorry for not responding sooner. I have been trying to think about topics/ideas that may have mutual interest. One area that interests us is the development of "peat based" methods to treat effluent such as listed on their main web page. We have not done any research with peat, but I understand it has great potential, and is renewable if harvested correctly. We have been involved in quite a bit of research into novel treatment technologies for water, and would be interested in talking about a common direction with peat and water (wastewater) treatment. We can provide some publications that illustrate the caliber of our work. I hadn't planned on attending WasteCon, but would like to talk with a technical person at Biopterre about ideas if they are interested. I expect that we would need a confidentiality agreement before detailed discussions. And, to be honest, while we may have some ideas to try, we wouldn't be able to start any work without student funding (and laboratory funding). Part of the discussion would have to be about potential sources of funding, and how to obtain it. Please let me know how to proceed.

Subject: RE: Québec Trade Mission

Dear John, Jim, Jeanine, Bob and Pam,

In response to an earlier question from Pam about Biopterre's ability and interest in supporting faculty research, Heather Conover provided the following:

"Here's what we've learned from Biopterre:

Biopterre is primarily a research institute with funding from the Quebec government. They are interested in developing a relationship with US researchers in the event they do projects in the US and also to help with projects in Canada. They may need a speaker for an event, or some research done, or an abstract written, etc. So they want a win-win situation, and they will pay, of course, for anyone's time with the possibility of more in the future if there is joint work. They currently have relationships with McGill and Laval Universities in Quebec.

Heather"

I've intentionally copied the full e-mail thread below. Biopterre does seem to be a credible potential partner. Please contact Heather if you have interest in meeting with them. Please feel free to forward this invitation to your colleagues who may also have interest in meeting with Biopterre.

Best,

Linda

Hi Linda,

It was a pleasure to speak with you today, as always.

I'm attaching a brief write-up on Biopterre – Bioproducts Development Center's goals for the trade mission, as well as some information from their web site. Some confidential information was contained on their registration form, so I thought it best to develop a separate document.

Please let me know if I can provide you with any other information. Many thanks for your interest and willingness to explore whether there might be interest at WPI in meeting with Biopterre while they are in Boston for WasteCon 2010.

P

Subject: FW: Quebec Solid Waste Trade Mission Meeting Request

Date: Wednesday, August 4, 2010 3:30 PM

From: HEATHER CONOVER <hconover@conoverandcompany.com>

To: <wayland07@verizon.net>

Dear George:

As someone who is involved in the solid waste industry, we wanted to let you know about a Quebec Trade Mission to Boston in mid August. The companies are largely involved in new technologies and solutions for solid waste, including waste to energy, waste water treatment, solid and hazardous waste treatment, waste volume reduction technologies, as well as design and engineering services. In addition to attending WasteCon 2020 while they are in Boston, they would like to meet with companies and organizations that would be interested in learning about their products, services and technologies.

Our firm, Conover + Company, is working with the Government of Quebec to set up meetings for each of the companies.

I'm hoping that you will be available and interested in meeting with several of these companies at WasteCon (I can provide passes).

As you undoubtedly know, WasteCon is the annual conference put on by the Solid Waste Association of North America. This year WasteCon will take place from August 15 to 17 and be co-located with the American Public Works Association at the Boston Convention & Exhibition Center. I'm also attaching a WasteCon 2010 brochure for your information.

Please contact either Lydia Pastuszek (lpastuszek@conoverandcompany.com) or Heather Conover (hconover@conoverandcompany.com), if you are interested in finding out more about the companies that will be in attendance. We plan to finalize the schedule no later than August 10, so would appreciate your prompt reply. Also, if you know of other individuals or organizations that we should be contacting, we'd appreciate knowing about them.

Thank you.

Lydia Pastuszek

Bob,

Thanks so much for the information. Biopterre has indicated that they would be happy to travel to WPI to meet with you, Pam Weathers and, perhaps others on the afternoon of August 18th once WasteCon is over. Will you be available? What information would you like me to share with them prior to their visit?

Hi Bruce,

I want to make sure we get Bruce the appointments you want next week at Waste Con. Since you're going to be at the conference anyway, I assume we won't need to book your meetings back to back, but rather when you and the companies have both have time to meet. In general, we are booking meetings between 10 and 3 on Monday and Tuesday.

Have you had a chance to look over the list and select the companies with which you'd like to meet? If so, please send along with the dates and times you're available and I'll set up the appointments. Or feel free to call and I can take the information on the phone.

Thank you.

Hi Bruce and Brian,

Thank you for being in touch and your interest in meeting with some of the Quebec companies while at WasteCon. Please see the attachment with a list of the companies/organizations that will be in Boston. If you can indicate to me with which of the entities you and your colleagues would like to meet, we will set up appointments. Also, please let me know if your technical solid waste folks would be in the meeting with you or would require a separate meeting(s).

Thank you.

To: Sukalyan Sengupta <ssengupta@umassd.edu>

I am awaiting word from them on who will be present at the meetings and will get back to you shortly. I would wait at the Westin with Biopterre until your arrival. If you want to know what I look like you can find a photo of me at: <http://www.conoverandcompany.com/team.cfm> I have already found your photo on the UMASS-D web site, so we should be able to spot each other.

I am awaiting word from them on who will be present at the meetings and will get back to you as shortly.

My cell phone is 508-789-9273.

Heather

Thank you. The exhibition hall closes at 2 pm on Tuesday. We could have you meet with Biopterre next door in the lobby of the Westin. You could then go to the restaurant for a cup of coffee/tea and meeting. Would that work for you?

Dear Professor Sengupta,

I'm following up on the information that we sent to Susan Jennings regarding the Quebec Trade mission to Boston to see whether you would be interested in meeting with any of the companies/organizations. Biopterre, in particular is highly interested in partnership with US institutes, research centers or university departments involved in their fields of interest (waste treatment technologies, especially the biomethanisation process). I am attaching some information on Biopterre, as well as the complete list of organizations on the trade mission to WasteCon 2010 and a WasteCon brochure.

Please let me know if you are interested in having me set up any meetings for you either next Monday, August 16 or Tuesday, August 17 at WasteCon 2010. I would provide you and any of your colleagues with passes to the exhibition hall where the meetings will take place.

I look forward to hearing from you.

Subject: Re: Quebec Trade Mission

Hi Susan,

Thanks so much for getting back to me and forwarding the information to some of the faculty members. I'm attaching a list of the Quebec trade mission participants with a brief description of each for you to forward on to Professor Sengupta. If he would like to meet with any of the participants I will be happy to set up meetings for him at his convenience on Monday, August 16 or Tuesday, August 17 at WasteCon in Boston. We will, of course, a pass to WasteCon for him.

I will look forward to speaking with you about an energy public education campaign. Would you like to get a date in the calendar?

Dear Susan,

I've been meaning to call or email you for awhile now to introduce myself. I'm a colleague of Mary Harman's and an admirer of the work you are doing at UMASS Dartmouth.

Our firm, Conover + Company, is currently working with the Government of Quebec to set up meetings for a number of Canadian companies that are traveling to Boston for WasteCon 2010 in mid August.

The companies are for the most part involved in new technologies and solutions for solid waste, including waste to energy, waste water treatment, solid and hazardous waste treatment, waste volume reduction technologies, as well as design and engineering services. There is one company that designs and manufactures an urban-friendly residential sized turbine that can power 20% to 40% of an average U.S. household's annual electricity needs and is mounted on a vertical axis.

I'm hoping that you might be able to suggest some individuals at UMASS that would be interested in meeting with several of these companies at WasteCon (I can provide passes) ,and perhaps you would be interested in meeting with some of them yourself. I'd be happy to send along a brief description of each of the companies to you to forward along or I'd be happy to send an email with the attachment to those contacts you provide me.

As you probably know, WasteCon is the annual conference put on by the Solid Waste Association of North America. This year WasteCon will take place from August 15 to 17 and will be co-located with the American Public Works Association at the Boston Convention & Exhibition Center. I'm also attaching a WasteCon 2010 brochure for your information.

We plan to finalize the schedule no later than August 10, so would appreciate your prompt reply.

I also would very much like to meet with you at your convenience to learn

more about your work and continue the conversations you were having with Mary regarding how we might play a role in assisting you in your initiatives.

Thank you.

Hi Tom and Steve,

I was just advised that the exhibit hall will not be open till 10 am on Tuesday, so I'm going to adjust your meeting schedule to begin at 10:05 and probably run till approximately 11:45. If you are driving, it's probably a good idea to plan to arrive at least by 9:45 to allow time to get to the booth. I'll plan to call you on Monday with any updates and to confirm the meeting. We will also send you information regarding the exact location of the Quebec delegation's booth.

Can both of you send me a short bio and any information you'd like the companies to have about your company/organization prior to the meeting to help them prepare in advance.

My cell phone # is 508-789-9273. You can also call me when you arrive at the building and I can have someone meet you and walk you to the meeting location.

Many thanks.

I look forward to meeting you both on Tuesday.

Heather

Hi Tom,

This is to confirm that we are setting up three meetings for you with:

Electrigaz
Innovente
Xebec

We are scheduling your meetings beginning at 9:45 am and ending at 11:30 am on Tuesday, August 17, 2010 at the Boston Convention and Exhibition Center. If this time slot is not convenient for you, please let us know.

We will email you a list with the names of the companies, the individuals with whom you will be meeting and the time and place of each meeting (at WasteCon) next week. You will be receiving two passes in the mail; one for Northeast Gas Association should they wish to accompany you. ***Please let me know the address to which we should send the passes and if you would like additional passes.***

I also need you to send me (by Wednesday, 8/11, if at all possible) your bio, the bio of anyone accompanying you, and relevant literature about Nstar and Northeast Gas Association, if they will be attending.

Please feel free to call or email me or my colleague, Lydia Pastuszek if you have any questions.

Thank you.

Thank you, Nicolas. I'm sure we'll be reaching out to them.

The registration forms have not contained all the information we expected, e.g., targeted companies/governments for onsite appointments. As a result this process is going to take longer than we anticipated as it involves more lengthy phone conversations and time to determine and find appropriate contacts for each company. Is there any chance that someone can get us more detailed information from the companies?

Many thanks,

Heather

Objet : Re: Registration form_Enerkem

Bonjour Nicolas

Does this complete the companies that are participating? If not, when will the list be complete? What about URWIND? They called me separately and after speaking with them, I told them that

they would have to contact you to 'get on the list'.

Thank you.

---Lydia

Hello Lydia,

Please find attached Innoventé's form.

I asked them to provide us with further information for their meetings.

By the way, I will be meeting the companies next Monday. Please indicate to me whether you have any question for them, I will make sure to get the answer for you.

Innoventé Meeting

Nicolas.Vezeau@mdeie.gouv.qc.ca <Nicolas.Vezeau@mdeie.gouv.qc.ca>

Tue, Jul 20, 2010 at
4:40 PM

To: lydia pastuszek <lydia.pastuszek@gmail.com>

Hello Lydia,

Please find below the mail I just received from Innoventé.

Basically, they are becoming a public company this summer (at the TSX Venture Exchange).

Then, they are looking for venture capital investors.

Please feel free to call Richard Painchaud, the CEO for more details.

All the best,

Nicolas Vézeau

Objet: Wastecon Meetings

Hi Nicolas,

As you requested, I discussed with Richard the kind of meetings we would like to take part in once we are in Boston. I know you are working hard with your consultant up there to book us the best meetings possible so here's a list of things we are looking for:

- Funds willing to invest in public companies
- Funds with/or willing to build a portfolio of green energy companies
- Meet with decision makers

If you think anything else could be good for us feel free to comment.

Regards,

Francis B. St-Jacques

Nicolas

We are happy to hear that the seminar went well. I'm glad to hear about the mandate that you gave the companies - did you give them a time deadline?

We should talk about progress so far. Thursday would be fine with me. 10 am?

Also, one clarification, is NI Products off the list? It was on the original list but we never received a registration form for them.

Thank you.

On Tue, Jul 20, 2010 at 4:31 PM, <Nicolas.Vezeau@mdeie.gouv.qc.ca> wrote:
Hello Lydia,

Yesterday's seminar went well. I asked every companies to send to you their 1 pager / corporate profile. Please find Xébec's attached.

I also gave them the mandate to call you / or send to you 6-8 examples of companies/governments that they would like to chat with at Wastecon. Moreover, I explained to them that they need to give you a very concise pitch of their business objectives for Wastecon.

We spoke about the Monday August 16 seminar, and all companies seemed excited about it.

Let me know if you want to hold a conference call with Vahé and I this Thursday.

Regards,

Nicolas

Corporate Brochure

Tom Whitton <twitton@pyrogenesis.com>

Thu, Jul 29, 2010 at 2:13 PM

To: lydia pastuszek <lydia.pastuszek@gmail.com>

Cc: Heather Conover <hconover@conoverandcompany.com>, "nicolas.vezeau"

<Nicolas.Vezeau@mdeie.gouv.qc.ca>, "vahe.apelian" <Vahe.Apelian@mri.gouv.qc.ca>, Gillian Holcroft <gholcroft@pyrogenesis.com>

Hi Lydia,

We specialize in smaller systems (as opposed to the big Covanta or Wheelabrator WTE systems). Our plasma WTE technology, the PRRS can be designed for capacities from 2 to 50 TPD, though if there is a need for a system up to 100 TPD, we would consider the opportunity. I suspect Massport requirements would be for amounts within our capacities.

If you mean that in terms of polymer manufacturers, do you mean end-use plastic products, or do you mean the plants that make the polymer resins? If you are referring to the resin manufacturers, then there could be a nice fit with our technology. If you are referring to plastic product manufacturers (injection molding operations) then it is unlikely that they will have a hazardous waste stream large enough to be worthwhile. It would not hurt to make a call or two to them, but unless there sounds like there could be something promising, I would not spend too much time on this.

On the chemical waste front, another approach may be to target engineering firms which might provide their services to chemical processing companies. I did see this company: <http://www.spec-eng.com>. They seem to be a process engineering firm big into clean tech.

As I mentioned, if you need any guidance, or if you have any questions, please do not hesitate to contact me during my vacation. I will be going through my e-mails daily. And as soon as certain appointments are booked, please let me know, so we can put them into our agendas.

Please note as well that for meetings during the exhibit hours, our Director of Operations, Gillian Holcroft, will be meeting with the potential customers. Outside of exhibit hours, either Gillian or I will be available (perhaps both). I sent an e-mail to Nicolas this morning as well to specify that the Tuesday 10h30-12h00 timeslot is also not available, as one of Gillian or I will be attending one of the technical sessions, with the other manning the booth.

We have not used any of our free passes yet, so if you need this to get people to come to our booth and attend the event, please let me know.

Best regards,

Tom Whitton, Eng

Hello,

You might want to send this precious info to richard.painchaud@videotron.ca

The only thing is that last time I talked to him, he was not sure no more if VCs were his targets....I believe he is a little confused.

Thanks for your researches.

Objet : Venture Capital

Innovente and now Urwind have asked about venture capital.

There is a very reputable group, called the Investor's Circle, that has a major conference each year to bring socially responsible entrepreneurs and investors together.

Here is a link to their website: http://www.investorscircle.net/for_entrepreneurs/call-for-applicants

The deadline for applying for their annual conference is July 30 (tomorrow). I am going to send this link to Jean- Christophe Mortreux at UrWind. To whom at Innovente should this be sent?

THANK You

Objet : Re: test

Dear Eric

It was very nice to speak with you this morning and learn more about Biopterre's interests.

I am sending you this link to a study recently completed by the government in Massachusetts. Perhaps you can review it and also take a look at those who commented on the study. There may be some organizations who are involved in this study that would be a good connection for you. The study seems to focus on developing a state policy on harvesting wood for biomass energy production. This is not exactly the same area of research that you are involved in, but many of the experts may be the same.

First the study:

http://www.mass.gov/?pageID=energyterminal&L=4&L0=Home&L1=Energy%2c+Utilities%26+Clean+Technologies&L2=Renewable+Energy&L3=Biomass&sid=E0eea&cb=terminalcontent&f=doer_arra_bscps&osid=E0eea

then the link to the public comments:

http://www.mass.gov/?pageID=eoeaterminal&L=4&L0=Home&L1=Energy%2c+Utilities+%26+Clean+Technologies&L2=Renewable+Energy&L3=Biomass&sid=Eoeea&b=terminalcontent&f=doer_renewables_biomass_public-comments&csid=Eoeea

I also wanted you to take a look at a couple of websites to see if these may be good contacts for you:

The Manomet Center for Conservation Science, located in Maine. They did the study for the State of Massachusetts. They look to have a birding focus but apparently have a lot of environmental science connections as well.

<http://www.manomet.org/>

Also, another organization in Vermont that I came across that also appears to have research and university connections:

<http://www.biomasscenter.org/>

Also, the American Biogas Council which promotes anaerobic digestion: <http://www.americanbiogascouncil.org/>

and The Northeast Biomass Conference: <http://www.biomassthermal.org/>

There is also another conference in Boston in August: <http://ne.biomassconference.com/ema/DisplayPage.aspx?pageId=About>

The Northeast Sustainable Energy Association
<http://www.nesea.org/>

Please let me know which of these organizations may be worth pursuing once you have had a chance to review all of these websites and documents.

I look forward to speaking with you again!

Call + Seminar

Nicolas.Vezeau@mdeie.gouv.qc.ca <Nicolas.Vezeau@mdeie.gouv.qc.ca>

Fri, Jul 16, 2010 at
12:16 PM

To: lydia pastuszek <lydia.pastuszek@gmail.com>, Heather Conover <hconover@conoverandcompany.com>
Cc: vahe.apelian@mri.gouv.qc.ca

Hello Lydia,

I am sorry that we could not call you.

I reviewed your very relevant analysis of the companies profile with Optival, and we prepared a «questionnaire» for Monday. We will get more specific information for you on their market strategy and the potential meetings they want to have.

Seminar

- Monday August 16 is a perfect date for the seminar, say from 3:30 pm - 5 pm.
- The idea could be that each company, the MDEIE, Conover + guests do a 6 mins elevator pitch on what they have to offer, and then, present actors/government officials would then ask questions for an other 3 minutes.
- I was thinking that we could prepare a one pager flyer to invite relevant people that we will be meeting at the APWA show and would like to invite at the seminar. Do you think that we invite as much relevant guests as possible or that we set a limit?
- Where should we hold the seminar? Any thoughts on that Vahé?

Best regards,

Subject: Quebec Solid Waste Trade Mission Meeting Request
Date: Monday, July 26, 2010 2:04 PM
From: Lydia Pastuszek <lpastuszek@conoverandcompany.com>
To: <jonathan@usarecycle.com>

Dear Jonathan:

As someone who is involved in the solid waste industry, we wanted to let you know about a Quebec Trade Mission to Boston in mid August. The companies are involved in new technologies and solutions for solid waste, including waste to energy, waste water treatment, solid and hazardous waste treatment, waste volume reduction technologies, as well as design and engineering services. In addition to attending WasteCon 2020 while they are in Boston, they would like to meet with companies and organizations that would be interested in learning about their products, services and technologies.

Our firm, Conover + Company, is working with the Government of Quebec to set up meetings for each of the companies.

I'm hoping that you will be available and interested in meeting with several of these companies at WasteCon (I can provide passes).

As you undoubtedly know, WasteCon is the annual conference put on by the Solid Waste Association of North America. This year WasteCon will take place from August 15 to 17 and be co-located with the American Public Works Association at the Boston Convention & Exhibition Center. I'm also attaching a WasteCon 2010 brochure for your information.

Please reply to this email or to Heather Conover (hconover@conoverandcompany.com), or by phone to 866-411-7321 x3, if you are interested in finding out more about the companies that will be in attendance. We plan to finalize the schedule no later than August 10, so would appreciate your prompt reply. Also, if you know of other individuals or organizations that we should be contacting, we'd appreciate knowing about them.

Thank you.

This year WasteCon will take place from August 15 to 17 and be co-located with the American Public Works Association at the Boston Convention & Exhibition Center. I'm also attaching a WasteCon 2010 brochure for your information.

Please reply to this email or to Heather Conover (hconover@conoverandcompany.com), or by phone to 866-411-7321 x3, if you are interested in finding out more about the companies that will be in attendance. We plan to finalize the schedule no later than August 10, so would appreciate your prompt reply. Also, if you know of other individuals or organizations that we should be contacting, we'd appreciate knowing about them.

Thank you.

Subject: Quebec Solid Waste Trade Mission Meeting Request
Date: Monday, July 26, 2010 1:53 PM
From: Lydia Pastuszek <lpastuszek@conoverandcompany.com>
To: <cblake@woodardcurran.com>

Dear Craig:

As someone who is involved in the solid waste industry, we wanted to let you know about a Quebec Trade Mission to Boston in mid August. The companies are involved in new technologies and solutions for solid waste, including waste to energy, waste water treatment, solid and hazardous waste treatment, waste volume reduction technologies, as well as design and engineering services. In addition to attending WasteCon 2020 while they are in Boston, they would like to meet with companies and organizations that would be interested in learning about their products, services and technologies.

Our firm, Conover + Company, is working with the Government of Quebec to set up meetings for each of the companies.

I'm hoping that you will be available and interested in meeting with several of these companies at WasteCon (I can provide passes).

As you undoubtedly know, WasteCon is the annual conference put on by the Solid Waste Association of North America. This year WasteCon will take place from August 15 to 17 and be co-located with the American Public Works Association at the Boston Convention & Exhibition Center. I'm also attaching a WasteCon 2010 brochure for your information.

Please reply to this email or to Heather Conover (hconover@conoverandcompany.com), or by phone to 866-411-7321 x3, if you are interested in finding out more about the companies that will be in attendance. On Tue, Aug 3, 2010 at 11:54 AM, lydia pastuszek <lydia.pastuszek@gmail.com> wrote:

Hello Bill,

As you can see from the dialog below, your name was given to me by Dennis Villanueva.

I am working with the Quebec delegation to bring some technology companies down to Boston for the big solid waste convention called Wastecon, August 15-17. I am making some connections for these companies with local institutions who may be interested in some of their products.

One of the companies with which I am working is called Pyrogenesis. They are in the "waste destruction" business and have deployed their technology with the US military. They take hazardous waste and create inert byproducts as well as syn fuels. I don't know your technology needs, as it sounds like you may have a system for handling your hazardous wastes, but perhaps some of this technology may be of interest for future needs. I have attached a brief summary of each of the companies attending.

I would be happy to set up meetings for you with Pyrogenesis or with any other of the other companies.

Please let me know if you are interested or not.

Many thanks!

Hi Lydia,

I am not the right person, the person in charge of waste disposal is Bill Banchiere and you can contact him by email at bbanchiere@partners.org, he is the Director of Environmental Services. We have a system for disposal of hazardous waste converting it into inert byproducts already. He may already be planning to assist to Wastecon.

Regards,

~DV

Dennis, I am resending this note to you to see if you have any interest in meeting with this company. I have attached a brief description of all the companies that are coming down, but I think Pyrogenesis has an application that is known to work well with hospital waste.

Please let me know if you are interested or if you can pass this along to someone else in your organization.

Thank you and have a great weekend!

Dennis,

How are you doing? This heat must be creating a lot of problems for you!

I am working with the Quebec delegation to bring some technology companies down to Boston for the big solid waste convention called Wastecon, August 15-17. I am making some connections for these companies with local institutions who may be interested in some of their products.

One of the companies with which I am working is called Pyrogenesis. They are in the "waste destruction" business and have deployed their technology with the US military. They take hazardous waste and create inert byproducts as well as syn fuels.

Would you be interested in taking the time to meet with this company and learn more about what they offer? Are you the right contact at Partners? If not, can you send me along to the better contact? If you could come to the convention, I will get you passes to attend, and set up a time for you to meet with Pyrogenesis.

Please let me know if you are interested in doing this. I will send you more information on their technology if so.

Thanks Dennis!

MassCo which is an association for several major hospitals in Boston, will meet with you on Monday at 11 am.

On Tue, Aug 10, 2010 at 3:53 PM, lydia pastuszek <lydia.pastuszek@gmail.com> wrote:

Tom, that's good to know regarding Wednesday. I finally have an agreement to meet and am trying to set up a time for meeting with Massco, which is an association of hospitals. He is balking at coming to WasteCon so I will offer him a 9 or 9:30 am meeting at his office on Wednesday?

Right now you have meetings with State agencies at 3:30 pm Monday, a meeting with AECOM set for Tuesday sometime, and a pending meeting with representatives from the Virgin Islands solid waste management authority. I have not heard back from Solutia and have a call in to TF Green airport. MassPort is not interested in meeting.

Tom,

There are so few manufacturers left in New England.

Here is the description of one.....should I try to track them down?

The plant occupies 250 acres and is the largest chemical manufacturing facility in New England. About 750 employees keep the Indian Orchard facility in continuous operation 24 hours a day, seven days a week.

Key Products:

- Saflex® automotive and architectural interlayer.
- Butvar® resin used for coating and adhesive applications or used as an intermediate for Saflex®.
- Resimene® amino crosslinkers, for liquid thermosetting surface coatings for automotive paints and industrial applications Gelva® adhesives and specialty resins with a variety of applications in the graphics, solar, medical, automotive and packaging industries.

Lydia:

Yes, please feel free to invite Robyn Kennedy from the Lt. Gov office.

As I'll be away all next week, I'm cc'ing Natalie Andrews who works with me. Early next week she'll get you a list of attendees with their agency and titles.

Will: Please provide Natalie with any information on responses to your Outlook invitation for this meeting.

Thanks,

Dwayne

Hi Dwayne

I asked Will if I could invite Robyn Kennedy from the Lt. Gov's office to the Monday event and he suggested I ask you that question.

Thank you for getting all of this organized.

I am working on an agenda for the meeting and will run it by you early next week.

THANKS

Hi Will,

This is great. Will you send me a list of who all the people are that are coming - I see their email addresses but not their full names or titles. Has everyone responded yes?

Is it ok if I ask Robyn Kennedy from the Lt. Gov's office to come as well? I have been working with her on this project as well as the Worcester Institute for Energy and Sustainability.

Thanks.

Subject: WasteCon Convention

Hi Mike

As I mentioned at Nichols' lunch, I'm working for the Quebec delegation who is organizing a Clean Tech trade mission to Boston, during the time of the WasteCon convention, August 16-17.

A couple of the companies are involved in technologies that produce clean pipeline gas and will be meeting with NSTAR while they are in Boston. Is there any interest on the part of Bay State? I am attaching a brief summary of the companies that are coming.....I would highlight Electrigaz, Innovente, Enerkem and Xebec as being of interest.

Please let me know if someone at Bay State may be interested.

THANKS. Enjoy the summer weather!

SEBANE Members:

We have received the following notice regarding a delegation of Quebec technology companies that are coming to Boston and looking for business partners:

A delegation of Quebec technology companies are coming to Boston for the WasteCon show August 16 and 17. One of the companies, URWIND, which has a small wind turbine, is looking to set up a dealer network. The company brochure is attached.

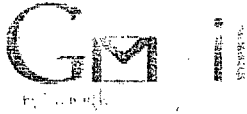

Also attached is a pdf that overviews all of the companies that are coming down for the mission, in case any of the members are interested in meeting with any of the other companies. They range from biomass and gas adsorption systems to suppliers of waste and recycling bins.

Anyone interested in discussing becoming part of a dealer network for the small wind turbines or learning more about this technology or the others described on the attachment should contact:

Hi Jennifer

I have put you on the agenda for UrWind at 1 pm on Monday. That should give you some time on the exhibit floor!

I will email Bob directly tomorrow.

---Lydia

On Wed, Aug 11, 2010 at 2:11 PM, Jennifer Spencer <jspencer@nesea.org> wrote:

Hi Lydia,

Thanks for offering to set up the meeting with UrWind. Would there be a slot at 12 or 1 on Monday? We have decided to go for the day from our home in So. VT. Should be there at 10am. But traffic makes it iffy!

We do contract with the Seaport for BE Shows for everything including recycling etc (they could do a better job!) so I don't think we would have an opportunity to use the NI products. But we would welcome them as an exhibitor! We have had BigBelly Solar as an exhibitor for many years. BigBelly is the very cool compacting trash container using solar for power.

Bob will look over the info. The companies you mentioned are certainly interesting ones and in his area of expertise. Thanks! I hope you and Bob can connect about that.

Great to talk to you. Thanks for contacting NESEA!

Subject: WasteCon Quebec Mission

Hi Jenny

I found you on the website!

Here is a brief description of each of the companies coming to the trade mission. Let me know who looks of interest to you. I know that UrWind specifically wants to meet with you.

Would NI products, who supplies trash and recycling containers, be someone who might participate in your building energy conference? So that might be a good meeting for both of you.

Also, if you could tell me your husband's name please and email. I will send him this info as well. I know that there are a couple of companies that would benefit from meeting him - Biopterre, Xebec, Innovente - who all have biomass interests.

Monday 10-2 is the best time for us to set up these meetings.

Let me know your schedule and interests please!

It was great to connect with you. THANKS.

On Mon, Aug 9, 2010 at 8:38 PM, lydia.pastuszek <lydia.pastuszek@gmail.com> wrote:

We did not directly discuss their exact interest. From previous conversations, I would think that they are interested in maximum use of the real estate, so to speak, so they could use the power for their own use, but also use the locations to lease out to other who might want to use or sell the power into the grid.

I am also not sure it is a question of strength, but more how the turbine "fits" onto the tower/or the pole along with all of the other equipment.

—Lydia

On Mon, Aug 9, 2010 at 4:48 PM, Vanessa Hirschl <vhirschl@urwind.com> wrote:

Lydia,

Just to make sure we are on the right page. Would they be interested in integrating our wind turbine in one of their towers in order to power their systems?

If I understand correctly, the wind turbine solution wasn't possible before because their towers were not strong enough? what specifically do they refer to in terms of footprint? In any even a very interesting idea to use the existing towers for communications or for example highway light poles and mount wind turbines on top. The towers are one of the high cost cost compor of the wind energy system, thus there are great economic advantages.

We will bring further technical information to present to the dealer in terms of the installation process.

Thank you,

Vanessa

Subject: Re: Brochure and Contact info UrWind

Dear Vanessa

The dealer would like to meet with you on Monday morning at 11 am. As I mentioned he would be interested in seeing any technical documents that you bring.

I also have had some interest from American Tower. I have sent them the brochure and the website link as they are also interested in technical specs. This is what they say. Perhaps you have something else I can tell them that will entice them to come and talk to you!

Regarding the poletop mounted wind turbine, do you have any specs of what they require? We have looked at using our towers in the past for wind turbines and the footprint requirement have been the challenge.

—Lydia

On Fri, Aug 6, 2010 at 5:20 PM, lydia pastuszek <lydia.pastuszek@gmail.com> wrote:

Hello Vanessa

I did get the newsletter in email yesterday and visited the new website very quickly. I think you can be very proud of it!

Your meeting schedule is getting very busy. On Monday you will meet with National Grid, a large electric utility and with a number of state agencies like the Clean Energy Center and the Department of Energy Resources. On Tuesday, you will meet with the Worcester Institute for Energy and Sustainability, with CLF Ventures, and with a potential dealer/distributor.

The dealer has asked to contact you directly but I asked him to please wait to meet with you face to face. But you may hear from him nonetheless! I did send him your brochure and the website link, so if there is anything else you want me to send him before the meeting, let me know. In any event, I think he would be very interested in any technical documents you could photos of installations, and even a model. He has been in the solar and PV business for a long time so I think he will be a good contact.

I will be preparing a detailed agenda for you next week.

I hope this is helpful to you and Jean-Christophe.

Have a great weekend.

—Lydia

On Fri, Aug 6, 2010 at 4:14 PM, Vanessa Hirschl <vhirschl@urwind.com> wrote:

Hello Lydia,

Dear Will

Here is the agenda for Monday's seminar.

What we are envisioning is that everyone will introduce themselves and then the companies will do VERY brief 'elevator' speeches. Then we would break out into smaller sessions with the various agencies meeting with the various companies. We have made an attempt in the agenda to match companies with agencies, but this will be flexible. Heather and I will facilitate getting people to the right breakout sessions.

So yes, please bring handouts. Thirty-five (35) would be about right. Yes, we can provide a table. And no, there will not be any speeches per se just the brief introductions followed by small group meetings.

Thanks Will.

Will you be there? Will I meet you?

Duane,

I am very sorry that you were unable to attend. However, I have attached more information on each of the companies with whom you had been scheduled and will send your contact information along to them so that you may connect in another way.

Please feel free to be in touch if I can be helpful in some way.

Thank you very much for organizing the meetings on Monday August 16 for the Quebec Clean Energy companies.

Your assistance was invaluable. If you have any thoughts or feedback, it is always welcome.

I look forward to working together again. Please don't hesitate to be in touch.
