Anchor Projects

A manufacturing & services hub for offshore rigs, commercial vessels and offshore service vessels

Steel Plate manufacturing, feeding the heavy industries sector such as; construction, automotive, pressure vessels, offshore equipment, and military applications

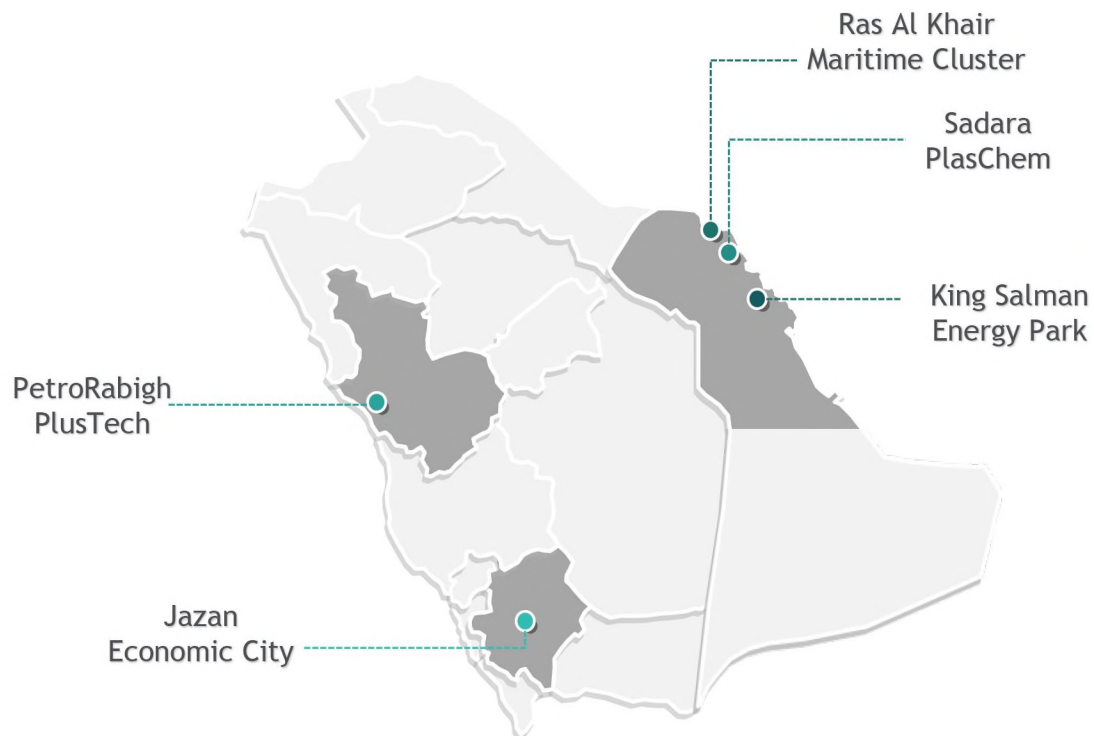

World-class land rig equipment manufacturing and repair facility

World-class casting and forging facility

Industrial Parks

SPARK

Area (Sq km): 50

Targeted Industry: Oilfield equipment, IR 4.0, electrical, nonmetallic, static & rotating, chemicals, logistics and industrial services

Sadara PlasChem

Area (Sq km): 12

Targeted Industry: Oilfield chemicals, elastomers & chemical derivatives and conversions

Ras Al Khair Maritime Cluster

Area (Sq km): 22

Targeted Industry: Ship building, rig manufacturing, casting and forging, metals and enabling equipment

PetroRabigh PlusTech

Area (Sq km): 2.4

Targeted Industry: Plastic, processing, assembling, technology, industrial services and logistics

Jazan Economic City

Area (Sq km): 15.2

Targeted Industry: Heavy industry, medium industry, light industry and logistics

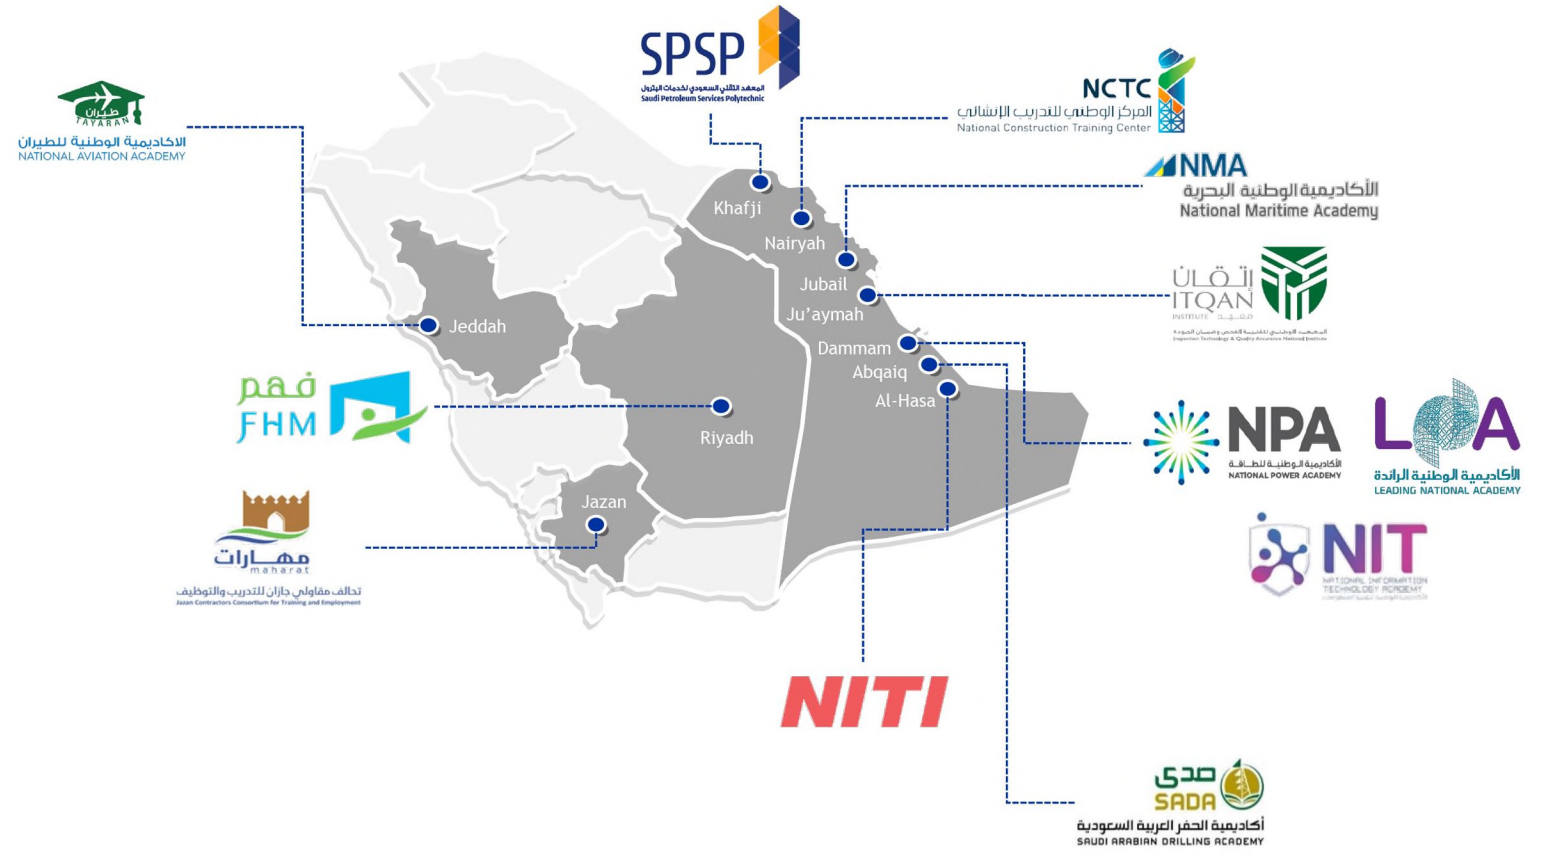

Workforce Development

Objective:

Accelerate Job Creation	Build Training Expertise
Support Local Content	Support Industry Growth

Achievements:

	
Established	Graduated
16	+33K Trainees
