Privacy policy: September 21, 2020 Version 2.5.7 1. Protocols and servers optimized to improve the quality of the connection2. Improved stability and bug fixes I tried to open it and not work? it allows me to use vpn but its not very well pls help me ... Dear user, Thank you very much for your comments, you put a big smile on our faces! Our team works hard to continually improve our product and service, and it's always rewarding to hear kind words. We love that you love us:) This vpn is terrible! He doesn't stay connected. When I contact the support for help, they say I have to turn off my antivirus prom in order to use it. This should have been noted in the big red letters before customers wasted their money on this garbage app! Extremely disappointed. As I purchased the annual subscription, I was told that I am not entitled to a refund. However, you can bet your lower dollar as I won't renew my subscription! Such a loss of and money! Will not recommend to anyone else! Dear user, we apologize for any inconvenience it may have caused. To solve this problem, please close all apps in the background before using our app. If the problem remains, please get us a message via the in-app feedback system. Thank you! Since downloading and using this vpn, the vpn connection has never recorded for less than 30 minutes, and each connection is easily disconnected, when we finally find video we want to watch, it will fail in the middle of playback, in the situation, I do not know how many times I have been reconnecting and continue to watch the step, I hope to improve this problem. Dear user, we apologize for any inconvenience it may have caused. To solve this problem, please close all apps in the background before using our app. If the problem remains, please get us a message via the in-app feedback system. Thank you!
