Email and Social Media Both work great. You might want to capture leads and then send them email follow-ups with CPA offers and other affiliate offers.

Now look at all of the email submit offers. (Below)

You could choose Maxim and here's the reason why: CPA offers and Dating.

You can promote dating products to these men, while promoting a Free Maxim Subscription offer too.

Can you say Win-Win?

1.

So we've chosen our niche. Pretty simple right?

Don't overcomplicate things..l could setup 10 niches today..if one doesn't work just stop using it. You'll find huge winners eventually. (Niches that will make you \$250-\$500 a DAY!)

2. Create Your Page

Very easy. Go to Create a Page on Facebook.

http://www.facebook.com/pages/create.php

Choose community for most of your pages. (unless it's a business page of course)

Simple picture and cover photo work..anything from Google. (Doesn't really matter..)

Here's my page I just made:

Now you're done with your page. Simple right?

Now the fun part..

3. Setting Up Your Ads

Check out the screenshot below for how everything should be:

Main things to note: Text should be; Do You Like (X)? Then Like This Now!

We're targeting people who like Maxim, so obviously they're gonna like the ad.

Make sure to only target **ONE Thing.** If you target multiple interests, one might do well, and the other could do poorly. Your ad is now a waste.

You only wanna connect with people who are not already connected to Maxim Fans. That's self explanatory.

You might get some ads rejected at first (definitely for this fan page, others will be easier)

Keep setting up ads until you have at least 5 approved.

I find my winning Ad after I get around 1,000 impressions for each one. I like to get .0500% or above to keep the ad running.

4. PROFIT!

Start running CPA offers on the page after you get around 800-1k fans! It'll start off slow, but when you get around 5k fans, you'll be making money all day.

I have a fan page that gets me around 1500 clicks a day and makes around \$600-\$700 a DAY!

Test multiple offers if you have to. You want your epcs around 3x what your paying for traffic, just because not everyone will be clicking on the ad you post.

Sample AD:

"Were Giving Away 1 FREE Steelers Jersey to one Fan!

Click Here >> (link)

Expires in 15 minutes!"

That always works. It's got a nice call to action, plus an expiration date to get multiple people clicking and entering their email address!

BONUS TIP: Keeping Your EDGERANK

If you post too much on your page with offers people don't like..they will not like the photo, comment, or interact. You need to keep your edgerank up in order for people to see your posts on their newsfeeds.

So what I like to do is post a photo and ask them to like and share it if they like it.

Obviously they're gonna like and share it, they liked the page already!

You will also pick up extra fans because of all of the shares.

Closing Statements

You can expand and make products, and sales funnels for each Fan Page.

For one fan page I have, I'm creating a \$7 report and then a \$27 a month membership site.

Should do real well with all of the people I have to market too.

Think outside of the box.

TEST!

Test different offers and you will find one that outperforms the rest, I promise!
