ENFORCEMENT SETTLEMENT WITH VALERO FOR \$7,500

Valero self-reported their failure to make proper notification of a marine vessel import of July 3, 2003, vessel O/S Philadelphia. One of the tanks into which the fuel was offloaded was designated a product and a predictive model was in effect for that tank which the imported fuel did not meet, although it met limits. The case was settled for \$7,500 and was closed in June 2005.
