## Transparent Secret Agenda

# People Are Amazing

- Thrive under intolerable conditions
- Somehow we don't notice
- We ignore our peril
- Everything's just fine

# Some Examples

- Super massive volcanos are brewing
- Space debris is coming our way
- Delicate houses on hurricane island
- Nuclear reactor in a tsunami zone

# More Examples

- Glaciers are melting,
- Atmospheric CO<sub>2</sub> is increasing,
- But global warming is a farce
- Pollution, overpopulation, habitat destruction,
- But mass extinction, what's that?
- People want to NOT KNOW about big problems

# Transparent Secret Agenda

- Bad deals in broad daylight
- Contract, negotiators often public
- But motivation still secret
- Transparency over a secret agenda
- Most everybody misses it

# Example One – Land Sale

- City council meeting March 13, 2018
- Agenda item 8, surplus real property
- Sold at 90% of appraised value
- Why the 10% discount?
- Who owed a favor to whom?
- Great job offer coming?
- Council approved unanimously

# Example Two – Parking Ramp

- Could build 692 stall parking ramp for \$10 million
- Instead building 525/375 stalls for \$21 million
- Secret proposal evaluation looks corrupt
- We must look deeper
- Basic plan the real boondoggle
- Public/private partnership used to hide a scam
- Almost impossible to believe something this bad

# Recommendations

- See the truth in front of us
- Reclaim government for the people

# Enjoy Nature
