

Improving Traffic Safety

David Zokaite

May 9, 2017

Dangerous traffic

- Last night on I-229
- 65 MPH one moment
- Zero the next
- No traffic signs
- No warning lights
- Good way to cause an accident

The scene

Underlying issue

- Bridge repairs near Rice Street
- During the busiest time of the day
- 3 lanes down to 1
- Not a good idea

My recommendation

MY PLANS AS MAYOR

investigate repairing commercial roads
at night instead of during the day

Better signage during “rush hour”

Good evening, see beauty :-)
