March 5, 2007

To Whom It May Concern,

"Nothing to Hide: Mental Illness in the Family" from Family Diversity Projects was a wonderful addition to the Red Cloud Opera House at the Gather Center 2007 schedule of events. This exhibit was an integral part of the theme for our 2007 programming based on the quote from Willa Cather, *"Where there is great love, there are always miracles."*

We received very heartfelt and touching comments from our visitors. They felt that their perceptions of mental illness were changed. They were touched by the stories and pictures of these honest families who have faced challenges and are moving on with their lives.

We would definitely be interested in working with Family Diversity Projects -in the future!

Sincerely,

Stephany Thompson Program
