

Caution To The Wind by Fellowship Creative

You gave it all
You faced the dark
You laid Your life down
With open arms
While the world was caving in
You made a way to start again

So here I am
Take all of me
No turning back now
I go where you lead
I throw my caution to the wind
To the Beginning and the End
So get up, come on, let's go

Jesus
The only thing I'll ever need is Your love
It's overtaken me, I can't believe I'm free
You died and rose again for me
No I'll never look back, I'll never look back again

The world behind
The cross ahead
So take it all now
My heart is set
I throw my caution to the wind
To the Beginning and the End
So get up, come on, let's go

Jesus
The only thing I'll ever need is Your love
It's overtaken me, I can't believe I'm free
You died and rose again for me
No I'll never look back, I'll never look back again

I throw my caution to the wind
Surrender all I am to you
I throw my caution to the wind
And I'll never look back, I'll never look back again

Jesus
The only thing I'll ever need is Your love
It's overtaken me, I can't believe I'm free
You died and rose again for me

No I'll never look back, I'll never look back again

Jesus

The only thing I'll ever need is Your love

It's overtaken me, I can't believe I'm free

You died and rose again for me

No I'll never look back, I'll never look back again

I throw my caution to the wind

Surrender all I am to You

I throw my caution to the wind

And I'll never look back, I'll never look back again

I throw my caution to the wind

Surrender all I am to You

I throw my caution to the wind

And I'll never look back, I'll never look back again
