

## No One Like Our God by Fellowship Creative

Lord, here and now  
Come make Your presence known  
Burn like a fire  
Awake our weary souls

Your vibrant beauty  
Has made our hearts its home  
And we won't be quiet  
We won't be quiet  
We won't be quiet

O Your love is our anthem  
O Your love is our song  
O we're singing it forever  
O we're telling everyone  
There's no one like our God  
We're singing it forever  
No one like our God

We can't contain  
But overflow with praise  
We shout on parade  
The only worthy name

We dance on the ashes  
Of all our sin and shame  
And we won't be quiet  
We won't be quiet  
We won't be quiet

O Your love is our anthem  
O Your love is our song  
O we're singing it forever  
O we're telling everyone  
There's no one like our God  
We're singing it forever  
No one like our God

We're singing it forever  
There's no one like our God  
We're singing it forever  
No one like our God  
We're singing it forever

You reign over the heavens  
You reign over the earth  
You reign over eternity

And You chose to dwell in us

You reign over the heavens  
You reign over the earth  
You reign over eternity  
And You chose to dwell in us

You reign over the heavens  
You reign over the earth  
You reign over eternity  
And You chose to dwell in us

O Your love is our anthem  
O Your love is our song  
O we're singing it forever  
O we're telling everyone  
There's no one like our God  
We're singing it forever  
No one like our God  
We're singing it forever

There's no one like our God  
We're singing it forever  
No one like our God  
We're singing it forever
