Lena Liu

about the artist:

Floral artist Lena Liu expresses her love for nature through her paintbrush. With her broad background in traditional Chinese art and her exposure to Western culture, she created a unique style of her own by combining modern painting techniques with traditional brush work. In her work there is an unusual quality of peace and tranquility. Matthews Aurora™ is proud to offer these Lena Liu designs exclusively.

.....

"I strive to create a sense of romance, poetry and music in my painting. Emotion, love and nature will never change, and I try to capture that in my art. I let what touches my heart pass through my fingers. I hope you and I can keep sharing this love of nature's beauty and continue to delight in the splendor of the world that surrounds us."
