Advice from an expert

When we experience the death of someone we love, a funeral or memorial service fills several important needs.

- A service pays special tribute to your loved one's life, helping us acknowledge the death and remember the life during this naturally difficult time.
- It helps you face the reality of death, a first step toward taking grief from the inside and allowing us to express it on the outside through mourning.
- Friends and family may express the love and respect they feel. Often, just seeing how much others care can help a family adjust to their loss.
- Funerals and services are a means of expressing our beliefs, thoughts and feelings. It helps us acknowledge that someone we love has died and allows us to say goodbye.

Created from sustainably-sourced earthenware, the Breda collection features a simplistic design with earth-tone finishes. All of the finishes and earthenware construction are water soluble and biodegradable. Because of the rigid design, this collection is polyvalent—meaning it is suitable to be kept at home for a time and used in ceremonial scattering later via water scattering or earth burial.
