## *Our Mission*

*Shoffstall Funeral Home, Inc. will provide funeral services to meet the needs of the families we serve. Each family will be held with the highest regard to ensure that in remembering their family members, this sorrowful time will provide pleasant memories. We will uphold the highest standards of ethics, discretion, professionalism, and trustworthiness. By providing caring, personal service, we will help create memorable events that will reflect on the individuals that we honor and begin the facilitation of the burden of grief for their family members. Through our service we will enhance our current friendships and create new ones that will last through a lifetime.*

## *Our Commitment To You*

*We provide a wide range of services and merchandise to meet each family's values, traditions and wishes. Because our firm is locally owned and operated, we are better able to respond to each family's needs and preferences. We will always listen to your wishes and desires and always value your trust.*

*Among the many services we offer are services at our facilities or a location of your choosing, graveside services with burial in a local or out of town cemetery.*

*We also provide many options for those who choose cremation. You may choose viewing, visitation and traditional services followed by cremation, cremation with a memorial gathering held at our facilities or location of your choosing, also you may have a private viewing followed by cremation.*

*We provide assistance with pre-planning services for the future. You may choose either to prepay for services you desire to today's cost or simply place your wishes on file with us. We offer a variety of aftercare information regarding support groups, books and other materials. We also offer monuments and will assist you in creating a fitting memorial.*

## *Payment Policy*

*Payment is due in full on or before the day of the funeral with traditional services, or at the time of arrangements in cases of direct burial, cremation and any other non-traditional type of service.*

*We accept cash, checks, insurance assignments, prepaid pre-arrangement accounts from another funeral home, MasterCard, Visa or Discover.*

*If for some reason you are unable to meet this requirement for payment, there will be an unanticipated late fee of 21% per year or 1.75% per month after 30 days.*

*We do not handle Estates.... Because our contract is with you, and as the person (s) arranging for this funeral, you have accepted several obligations for burial expenses, not an attorney. Our experience has been that an estate will generate more fees for the family with regard for paying the funeral bill and you would be further ahead by going to a bank and borrowing the money on a short-term note. The estate would then pay this note and the interest would be considerably less than the late fees assessed by the non-payment of the funeral bill.*

*Because we are a funeral home and not a bank or financial lending institution, we are unable to lend money or do financing in accordance with the laws governing financial institutions. As a small family owned funeral home, we strive to keep our costs down while providing the finest services and merchandise available to our families.*

*Financing is available through a third party financial institution. We are able to assist in the application process if this is an option you wish to choose.*

*We offer a minimum \$350 discount on all traditional services when paid by the day of services and \$350 discount on non-traditional services when paid at the time of arrangements. Payments made with credit cards will incur a 3.5% fee on merchandise and cash advanced items.*

*This policy is effective November 1, 2024 and is subject to change without prior notice.*

## *What You Should Know About Funeral Planning*

*You should always feel comfortable with the funeral service provider you select. The funeral home should provide you with the answers to the questions you may have regarding any and all aspects of funeral service.*

*All funeral service providers must give you a copy of their General Price List for you to keep. This is a federal law that is strictly enforced by the Federal Trade Commission. Each funeral provider must also show you a copy of a Casket Price List, an outer Burial Container Price List and an urn Price List before showing and explaining any merchandise. Ask for these from your funeral provider.*

*When inquiring about prices ask about the “entire funeral service,” from the time the deceased is transferred from the place of death, all the way to the funeral luncheon. Any reputable funeral service provider should be able to give you an entire scope of the funeral services you wish to provide for your loved ones. Many families are not receiving full services if they only request a General Price List. We encourage you to explore all of your options before finally choosing the services you request.*

*The staff of Shoffstall Funeral Home encourages you to take the time to review this information and discuss it freely with your family. The benefit of researching your options ensures that the personal wishes of your loved one will not be overlooked. Thank you for taking time to carefully understand what options are available to you.*

## *General Price List*

*The goods and services shown below are those we can provide to the families we serve. You may choose only the items you desire. However, any funeral arrangements you select will include charges for our basic services, facilities and overhead. If legal or other requirements mean you must buy any items you did not specifically ask for, we will explain the reason in writing on the statement we provide describing the funeral goods and services you selected.*

*Please note that there may be addition fees for items such as cemetery fees, crematory fees, flowers, newspaper notices, certified copies of death certificates, honorariums, and/or other third party purchases. These items are considered cash advance items and all prices reflect the direct cost from the provider.*

In most of the country, no state or local law requires the purchase of a vault or outside burial container. However, many cemeteries ask or require the use of an outer burial container so that the grave will not sink in or give way when using their equipment to service other graves. Either a burial vault or grave liner will satisfy their requirements.
