■ SERVICES ■

Basic Professional Services of Funeral Director and Staff.....\$1250.00

This is the basic charge to each family we serve for our professional expertise in assisting them. It includes, but is not limited to, a proportionate share of the taxes, licenses, utilities and business expenses necessary to serve the public in a professional manner. Also included in this charge is the consultation with the family, clerical, and administrative services, preparation and filing of necessary permits, consultation with clergy, cemetery, crematory, common carrier, planning the funeral, and placement of obituary notices. There will be an additional charge for the direction and supervision of each service requested or required. **This fee is for our basic services and overhead will be added to the total cost of the arrangement you select.** (This fee is already included in our charges for direct cremation, immediate burial and forwarding or receiving of remains) This is a non declinable service fee.

Embalming.....\$750.00

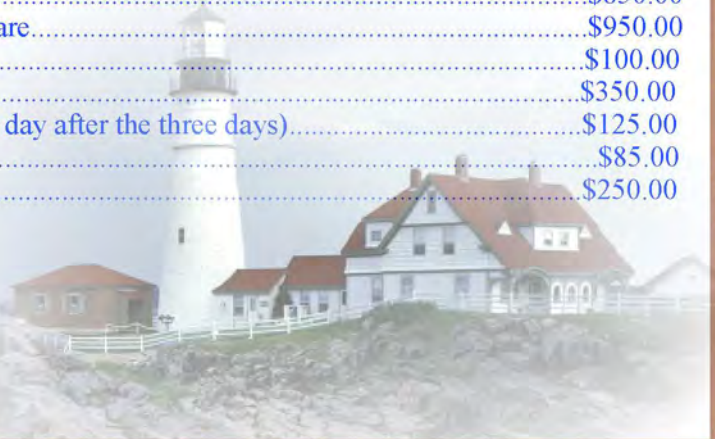

Embalming is a chemical process which provides temporary preservation of the body and eliminates certain health hazard. A person licensed by the state of Florida must complete this procedure.

Except in certain special cases, embalming is not required by law. Embalming may be necessary, however, if you select certain funeral arrangements, such as a funeral with a viewing. If you do not want embalming you usually have the right to choose an arrangement that does not require you to pay for it, such as direct cremation or immediate burial.

It is the policy of Watts Funeral Homes, Inc to require embalming where funerals are selected which require a public viewing. If we charge for embalming, we will explain on the Statement of Goods and Services Selected.

■ MERCHANDISE ■

Casket Selection Range.....Range From 2,995.00 - 4,995.00

We offer many different styles and prices of caskets, and alternative containers from which to select. Since many caskets that appear similar in appearance may differ greatly in quality and construction, we offer the following in order to assist you in making an informed decision.

Protective

These caskets are designed by the manufacturer to resist the entrance of air, water and other outside elements. These caskets may be constructed of varying gauges of steel, stainless steel, copper, or bronze.

There is no scientific or other evidence that any casket with a sealing device will preserve the human remains

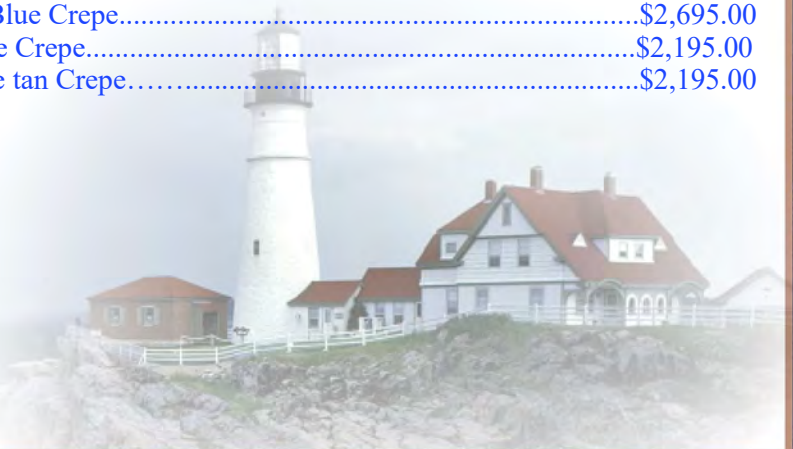

Non-Protective

These caskets are designed by the manufacturer not to resist the entrance of air, water and other outside elements. These caskets may be constructed of metal, hardwood or wood products covered with fabric

There is no scientific or other evidence that any casket with a sealing device will preserve the human remains

■ Death Care Planning ■

Death Care Planning. What a strange statement. Yet all of us will someday be faced with the realities of death care planning. Some of us will be planning for the death of a grandparent, a parent, an aunt, an uncle, a sibling, a spouse, a significant other, a dear friend, a child, or even ourselves. Many of us do not realize that we are the people others are going to depend upon to carry out their final wishes.

Select a funeral home that you are comfortable with. The funeral home should provide you with answers to the questions you may have regarding any and all aspects of funeral service.

All funeral service providers must give you a copy of their General Price List for you to keep. This is a federal law that is strictly enforced by the Federal Trade Commission. Each funeral provider must also show you a copy of a casket price list, an outer burial container price list and an urn price list before showing and explaining any merchandise. Ask for these lists from your funeral service provider.

When inquiring about prices, ask about the “entire funeral service” from the time the deceased is taken from the place of death, all the way to the funeral luncheon. Any reputable funeral service provider should be able to give you the entire scope of the funeral service you wish to provide your loved one. Many families are not receiving full service if they only request a General Price List. We encourage you to explore all of your options before finally choosing the services you request.

The staff of Watts Funeral Homes encourages you to take time to review this information, and discuss it freely with your family, your clergy and a qualified funeral director/cremation counselor. The benefit of researching your options ensures that the personal wishes of your loved one will not be overlooked. Thank you for taking the time to carefully understand what options are now in front of you.
