

Participation in Intramural Sports at Colorado State University requires current students, faculty, staff, and affiliates to purchase a \$10 individual Intramural Sports Membership; *IM Memberships are free during the summer term, however all participants are still required to register for the membership [online](#) in order to update their eligibility.*

Purpose: The Intramural Sports Membership streamlines the event registration process, facilitates sign-ups entirely online, automatically checks participant eligibility, and alleviates team captains from paying large sums of money up front to participate in multiple events throughout any given semester.

IM Membership System: In order for participants to register for Intramural events or join the online team roster, all done at imleagues.com/colostate, they will be required to purchase an “IM Membership”, which cost \$10 per semester. IM Memberships will allow unlimited access to *almost** all Intramural events in a given semester, no burdening team captains with hefty registration fees at the beginning of the season. Rather, play almost whatever you want all semester for only \$10. IM Memberships are purchased in person at the front desk of the Student Recreation Center or online through Campus Recreation’s [Online Purchases](#) portal, thus eliminating the need for in-person registration.

**Intramural Golf Scrambles have an additional \$50 team fee*
