### **Rule 4: Ground Rules**

1. Participants will pick the outcomes of NFL matchups for Weeks 1 through Week 14.
2. All picks will be against the spread meaning that if you choose the team that is favored, they must win by more than the spread number in order for you to receive credit for a correct pick. If you choose the underdog team, they must lose by less than the spread number (or win outright) for you to receive credit for the correct pick.
  - a. Spread numbers will be set for all games by Tuesday at noon each week. Once set, the numbers will not change. The Sport Programs Office will set the spread for each matchup.
3. One point will be awarded for each correct pick. Zero points will be awarded for incorrect or blank picks.
  - a. Since participants may only select the winner of each matchup, should a game result in a tie, zero points will also be awarded for everyone.
4. Bonus points will be added for the following:
  - a. *The top scorer each week will be awarded an additional 10 bonus points.*
  - b. *MEGA BONUS: If a participant picks every game correctly in a given week, they will be awarded an additional 50 points.*
5. Each pick must be submitted on IMLeagues prior to that game's scheduled start time. For example: If the scheduled kickoff time between the Chiefs and Vikings is 1:00 p.m. on Sunday, then participants have until 1:00 p.m. on Sunday to select and save the winner in IMLeagues.
6. At the end of the 14 weeks, the participant with the most overall correct picks shall be declared the winner!
7. In the event of a tie after Week 14, the Thursday Night game in Week 15 will be used to break the tie. In addition to picking the winner, each tied member would need to submit to the Sport Programs Administrator their prediction of the total points scored in that game.
