# Take action to build the Global You!

### Back to School Is Here! Are You Thinking Globally?

#### Dear Students

Have you ever dreamed of having a life-changing experience in a foreign country? Or connecting with new and exciting cultures online through a virtual immersion program? These might seem like distant goals, but with planning, research and momentum, you can make them happen! As the school workload increases, and tests and assignments are scheduled, make sure to stay focused on your global goals. If you're aiming to complete an international program this year, now is the time to research deadlines and take advantage of the many support systems available on campus. Good luck!

#### So, what can you do right now?

- **Start networking!** No matter your field of interest, reach out to international professionals working in the industry. Ask if you could have a meeting and consider asking them to mentor you.
- **Investigate your global options.** Check out what international programs your school offers. Highlight the ones that interest you and make an appointment to meet an advisor.
- **Connect with international students in and out of the classroom.** Get to know your school colleagues! Invite them out socially and include them in class projects.

#### Ready to learn?

Get serious about global career skills! These featured Quick Guides will help you hone in on learning objectives and international opportunities:

- **10 Global Competencies** ([English](#), [French](#))
- **The Go-Abroad Application Process** ([English](#), [French](#))
