

## **DANAHER**

### **Global Tax Strategy**

#### **1.0 Introduction**

This document sets out Danaher's strategy and approach to conducting its tax affairs and dealing with tax risk. The intention is for this tax strategy document to satisfy any statutory responsibilities Danaher may have in certain territories to publish a tax strategy.

Danaher is a diverse team of people and Operating Companies ("OPCOs"), each with unique missions and challenges. Yet, we are united by Our Shared Purpose, Core Values, the Danaher Business System (DBS) and our team-oriented culture, which sets a high bar for professional growth, innovation and continuous improvement in the service of our stakeholders – our associates, customers and shareholders.

Building and sustaining a strong culture of integrity and compliance is critically important to building a premier global enterprise and provides a clear competitive advantage for Danaher. In recognition of its importance, Integrity and Compliance is identified in Danaher's Corporate Social Responsibility Report as one of the five key elements of corporate social responsibility that matter to our stakeholders.

Danaher's Tax department ("Corporate Tax") is dedicated to partnering with the OPCOs to ensure there is:

1. Alignment of the Tax Strategy with Danaher's Shared Purpose and Core Values;
2. Open communication, collaboration and agreement on our approach to tax governance and risk management, in line with Danaher's high integrity and compliance standards;
3. Clear understanding of the respective responsibilities with respect to tax; and
4. Full compliance with all relevant legal and regulatory obligations.

#### **2.0 Global Tax Strategy**

Danaher is committed to meeting the following objectives, to:

1. Ensure the tax strategy is consistent with Danaher's Shared Purpose and Core Values.
  - a. The best team wins: Provide opportunities for personal development and growth to fulfil the career aspirations of our associates.
  - b. Customers talk, we listen: Control and manage tax risks and the Group's reputation through appropriate policies and governance.
  - c. Kaizen is our way of life: Drive continuous improvement in our processes and controls to ensure tax returns and payments are delivered complete, accurate and timely.
  - d. Innovation defines our future: Pursue technology solutions for data collection and analysis to improve accuracy and efficiency.
  - e. We compete for shareholders: Manage the cash tax cost and effective tax rate of the Group, within the ambit of all applicable laws.

Advance consultation and/or approval will be sought for any business change with potential tax consequences, in accordance with the OPCO's Business Change Policy and the Group's Subsidiary Management Policy.

Diligent professional care and judgement will be employed to assess tax risks. Where there is uncertainty as to the application or interpretation of tax law, appropriate written advice evidencing the facts, risks and conclusions may be taken from third party advisers to support the decision-making process.

The OPCOS and Corporate Tax will employ various risk management processes and systems to provide assurance that the requirements of the Global Tax Strategy and related policies are being met. This will include compliance and risk monitoring systems and internal tax audit reviews of tax compliance activity across the Group.

#### **4. Relationships with tax authorities**

Danaher is committed to the principles of openness and transparency when dealing with tax authorities around the world. All dealings with the tax authorities and other relevant bodies will be conducted in a collaborative, courteous and timely manner. The aim is to strive for early agreement on disputed matters, and to achieve certainty wherever possible.

#### **5. Incentives and reliefs**

Danaher believes that it should pay the amounts of tax legally due in any territory. There may be circumstances where alternative approaches may result in differing tax outcomes. The Group will use its best judgement in determining the appropriate course of action, using available reliefs and incentives where possible to optimize the tax position.
