Forward Looking Statements

Statements in this presentation that are not strictly historical, including any statements regarding the Company's anticipated financial performance for the second quarter and full year 2018 and any other statements regarding events or developments that we anticipate will or may occur in the future are "forward-looking" statements within the meaning of the federal securities laws. There are a number of important factors that could cause actual results, developments and business decisions to differ materially from those suggested or indicated by such forward-looking statements and you should not place undue reliance on any such forward-looking statements. These factors include, among other things deterioration of or instability in the economy, the markets we serve and the financial markets, contractions or growth rates and cyclicalities of markets we serve, competition, our ability to develop and successfully market new products and technologies and expand into new markets, the potential for improper conduct by our employees, agents or business partners, our compliance with applicable laws and regulations (including regulations relating to medical devices and the health care industry), our ability to effectively address cost reductions and other changes in the health care industry, our ability to successfully identify and consummate appropriate acquisitions and strategic investments and successfully complete divestitures and other dispositions, our ability to integrate the businesses we acquire and achieve the anticipated benefits of such acquisitions, contingent liabilities relating to acquisitions, investments and divestitures (including tax-related and other contingent liabilities relating to the distributions of each of Fortive Corporation and our communications business), security breaches or other disruptions of our information technology systems or violations of data privacy laws, the impact of our restructuring activities on our ability to grow, risks relating to potential impairment of goodwill and other intangible assets, currency exchange rates, tax audits and changes in our tax rate and income tax liabilities, changes in tax laws applicable to multinational companies, litigation and other contingent liabilities including intellectual property and environmental, health and safety matters, the rights of the United States government to use, disclose and license certain intellectual property we license if we fail to commercialize it, risks relating to product, service or software defects, product liability and recalls, risks relating to product manufacturing, the impact of our debt obligations on our operations and liquidity, our relationships with and the performance of our channel partners, uncertainties relating to collaboration arrangements with third parties, commodity costs and surcharges, our ability to adjust purchases and manufacturing capacity to reflect market conditions, reliance on sole sources of supply, the impact of deregulation on demand for our products and services, labor matters, international economic, political, legal, compliance and business factors (including the impact of the UK's decision to leave the EU and changes in US policy stemming from the current administration, such as changes in US trade policies and the reaction of other countries thereto), disruptions relating to man-made and natural disasters, and pension plan costs. Additional information regarding the factors that may cause actual results to differ materially from these forward-looking statements is available in our SEC filings, including our 2017 Annual Report on Form 10-K and Quarterly Report on Form 10-Q for the first quarter of 2018. These forward-looking statements speak only as of the date of this presentation and except to the extent required by applicable law, the Company does not assume any obligation to update or revise any forward-looking statement, whether as a result of new information, future events and developments or otherwise.

With respect to the non-GAAP financial measures of adjusted diluted net earnings per share, core revenue growth, year-over-year core operating margin changes and free cash flow referenced in the following presentation, definitions and the accompanying information required by SEC Regulation G can be found in the "Investors" section of Danaher's web site under the heading "Financial Reports" and subheading "Quarterly Earnings," and can also be found at the end of this presentation. In addition, in addressing various financial metrics the presentation describes certain of the more significant factors that impacted year-over-year performance. For additional factors that impacted year-over-year performance, please refer to our earnings release, Quarterly Report on Form 10-Q for the first quarter of 2018 and the other related presentation materials supplementing today's call, all of which are available in the "Investors" section of Danaher's web site under the heading "Financial Reports" and subheading "Quarterly Earnings". In this presentation, all figures relate to Danaher's continuing operations and revenue amounts are in millions.

Adjusted Diluted Net Earnings Per Share from Continuing Operations (Non-GAAP)	\$ 0.99	\$ 0.85

Revenue Performance

	<u>Three-Month Period Ended March 30, 2018 vs.</u>
	<u>Comparable 2017 Period</u>
Total Revenue Growth from Continuing Operations (GAAP)	11.5%
Less the impact of:	
Acquisitions	(1.0%)
Currency exchange rates	(5.0%)
Core Revenue Growth from Continuing Operations (Non-GAAP) ²	5.5%

² We use the term “core revenue” to refer to GAAP revenue from continuing operations excluding (1) sales from acquired businesses recorded prior to the first anniversary of the acquisition less the amount of sales attributable to divested businesses or product lines not considered discontinued operations (“acquisition sales”) and (2) the impact of currency translation. The portion of GAAP revenue from continuing operations attributable to currency translation is calculated as the difference between (a) the period-to-period change in revenue (excluding acquisition sales) and (b) the period-to-period change in revenue (excluding acquisition sales) after applying current period foreign exchange rates to the prior year period. We use the term “core revenue growth” to refer to the measure of comparing current period core revenue with the corresponding period of the prior year.

Non-GAAP Reconciliations

^A Amortization of acquisition-related intangible assets in the following historical and forecasted periods (\$ in millions) (only the pretax amounts set forth below are reflected in the amortization line item above):

	<u>Forecasted</u>			
	<u>Three-Month Period Ended</u>		<u>Three-Month Period Ending</u>	
	<u>March 30, 2018</u>	<u>March 31, 2017</u>	<u>June 29, 2018</u>	<u>December 31, 2018</u>
Pretax	\$ 172.3	\$ 166.1	\$ 171.7	\$ 687.6
After-tax	137.0	132.0	136.5	546.6

^B This line item reflects the aggregate tax effect of all nontax adjustments reflected in the preceding line items of the table. In addition, the footnote above indicates the after-tax amount of each individual adjustment item. Danaher estimates the tax effect of each adjustment item by applying Danaher's overall estimated effective tax rate to the pretax amount, unless the nature of the item and/or the tax jurisdiction in which the item has been recorded requires application of a specific tax rate tax treatment, in which case the tax effect of such item is estimated by applying such specific tax rate or tax treatment.

^C Represents discrete income tax gains, primarily related to equity compensation-related excess tax benefits. On January 1, 2017, Danaher adopted the updated accounting guidance required by ASU 2016-09, *Compensation—Stock Compensation*, which requires income statement recognition of all excess tax benefits and deficiencies related to equity compensation. We exclude from Adjusted Diluted Net EPS any excess tax benefits that exceed the levels we believe are representative of historical experience. In the first quarter of 2017, we anticipated \$10 million of equity compensation-related excess tax benefits and realized \$26 million of excess tax benefits, and therefore we have excluded \$16 million of these benefits in the calculation of Adjusted Diluted Net EPS. In the first quarter of 2018, we anticipated \$10 million of equity compensation-related excess tax benefits and realized \$17 million of excess tax benefits. The benefit realized in excess of the amount estimated (\$7 million) was offset by discrete income tax changes during the period and as a result there was no adjustment required in the calculation of Adjusted Diluted Net EPS for the first quarter of 2018.

Statement Regarding Non-GAAP Measures

Each of the non-GAAP measures set forth above should be considered in addition to, and not as a replacement for or superior to, the comparable GAAP measure, and may not be comparable to similarly titled measures reported by other companies. Management believes that these measures provide useful information to investors by offering additional ways of viewing Danaher Corporation's ("Danaher" or the "Company") results that, when reconciled to the corresponding GAAP measure, help our investors to:

- with respect to Adjusted Diluted Net EPS, understand the long-term profitability trends of our business and compare our profitability to prior and future periods and to our peers;
- with respect to core revenue, identify underlying growth trends in our business and compare our revenue performance with prior and future periods and to our peers; and
- with respect to free cash flow and free cash flow-to-net income ratio (the "FCF Measures"), understand Danaher's ability to generate cash without external financings, strengthen its balance sheet, invest in its business and grow its business through acquisitions and other strategic opportunities (although a limitation of free cash flow is that it does not take into account the Company's debt service requirements and other non-discretionary expenditures, and as a result the entire free cash flow amount is not necessarily available for discretionary expenditures).

Management uses these non-GAAP measures to measure the Company's operating and financial performance, and uses non-GAAP measures similar to Adjusted Diluted Net EPS and the FCF Measures in the Company's executive compensation program.

The items excluded from the non-GAAP measures set forth above have been excluded for the following reasons:

- With respect to Adjusted Diluted Net EPS:
 - We exclude the amortization of acquisition-related intangible assets because the amount and timing of such charges are significantly impacted by the timing, size, number and nature of the acquisitions we consummate. While we have a history of significant acquisition activity we do not acquire businesses on a predictable cycle, and the amount of an acquisition's purchase price allocated to intangible assets and related amortization term are unique to each acquisition and can vary significantly from acquisition to acquisition. Exclusion of this amortization expense facilitates more consistent comparisons of operating results over time between our newly acquired and long-held businesses, and with both acquisitive and non-acquisitive peer companies. We believe however that it is important for investors to understand that such intangible assets contribute to revenue generation and that intangible asset amortization related to past acquisitions will recur in future periods until such intangible assets have been fully amortized.
 - With respect to the other items excluded from Adjusted Diluted Net EPS, we exclude these items because they are of a nature and/or size that occur with inconsistent frequency, occur for reasons that may be unrelated to Danaher's commercial performance during the period and/or we believe that such items may obscure underlying business trends and make comparisons of long-term performance difficult.
- With respect to core revenue, (1) we exclude the impact of currency translation because it is not under management's control, is subject to volatility and can obscure underlying business trends, and (2) we exclude the effect of acquisitions and divested product lines because the timing, size, number and nature of such transactions can vary significantly from period-to-period and between us and our peers, which we believe may obscure underlying business trends and make comparisons of long-term performance difficult.
- With respect to the FCF Measures, we exclude payments for additions to property, plant and equipment (net of the proceeds from capital disposals) to demonstrate the amount of operating cash flow for the period that remains after accounting for the Company's capital expenditure requirements.
