GENERAL MILLS, INC. AND SUBSIDIARIES  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

(1) Background

The accompanying Consolidated Financial Statements of General Mills, Inc. (we, us, our, General Mills, or the Company) have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the rules and regulations for reporting on Form 10-Q. Accordingly, they do not include certain information and disclosures required for comprehensive financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and are of a normal recurring nature, including the elimination of all intercompany transactions and any noncontrolling and redeemable interests' share of those transactions. Operating results for the quarter ended August 30, 2015 are not necessarily indicative of the results that may be expected for the fiscal year ending May 29, 2016.

These statements should be read in conjunction with the Consolidated Financial Statements and footnotes included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2015. The accounting policies used in preparing these Consolidated Financial Statements are the same as those described in Note 2 to the Consolidated Financial Statements in that Form 10-K.

(2) Acquisition

On October 21, 2014, we acquired Annie's, Inc. (Annie's), a publicly traded food company headquartered in Berkeley, California, for an aggregate purchase price of \$821.2 million, which we funded by issuing debt. We consolidated Annie's into our Consolidated Balance Sheets and recorded goodwill of \$589.8 million, an indefinite lived intangible asset for the *Annie's* brand of \$244.5 million and a finite lived customer relationship asset of \$23.9 million. The pro forma effects of this acquisition were not material.

(3) Restructuring Initiatives

We are currently pursuing several multi-year restructuring initiatives designed to increase our efficiency and focus our business behind our key growth strategies. Charges related to these activities were as follows:

In Millions	Quarter Ended Aug. 30, 2015					Quarter Ended Aug. 24, 2014		
	Severance	Asset Write- offs	Accelerated Depreciation	Other	Total	Severance	Asset Write- offs	Total
Project Compass	\$ 44.9	\$ —	\$ —	\$ 6.6	\$51.5	\$ —	\$ —	\$ —
Project Century	2.3	2.4	21.4	4.1	30.2	—	—	—
Project Catalyst	0.2	—	—	—	0.2	—	—	—
Combination of certain operational facilities	—	—	—	—	—	13.1	0.9	14.0
<b>Total</b>	<b>\$ 47.4</b>	<b>\$ 2.4</b>	<b>\$ 21.4</b>	<b>\$ 10.7</b>	<b>\$81.9</b>	<b>\$ 13.1</b>	<b>\$ 0.9</b>	<b>\$14.0</b>

In the first quarter of fiscal 2016, we approved Project Compass, a restructuring plan designed to enable our International segment to accelerate long-term growth through increased organizational effectiveness and reduced administrative expense. In connection with this project, we expect to eliminate approximately 675 to 725 positions. We expect to incur approximately \$59 million of net expenses relating to this action of which approximately \$56 million will be cash. We recorded \$51.5 million of restructuring charges in the first quarter of fiscal 2016 relating to this action. We expect this action to be completed by the end of fiscal 2017.

Project Century (Century) is a review of our North American manufacturing and distribution network to streamline operations and identify potential capacity reductions. In the first quarter of fiscal 2016, we recorded \$25.3 million of restructuring charges related to Century actions previously announced.

As part of Century, in the first quarter of fiscal 2016, we notified the union member employees and union representatives at our West Chicago, Illinois facility of our tentative decision, pending negotiations and consultation with the union, to close this plant to eliminate excess cereal and dry dinner capacity in our U.S. Retail supply chain. If implemented, this action would affect approximately 500 positions, and we expect to incur approximately \$120 million of net expenses relating to this action, of which approximately \$52 million will be cash. We expect this action to be completed by the end of fiscal 2019. We did not record any charges related to this action in the first quarter of fiscal 2016.

Also as part of Century, in the first quarter of fiscal 2016, we notified the employees at our snacks manufacturing facility in Joplin, Missouri of our decision to close this plant in our U.S. Retail supply chain. This action will affect approximately 120 positions, and we expect to incur approximately \$12 million of net expenses relating to this action, of which approximately \$5 million will be cash. We recorded \$4.9 million of restructuring charges in the first quarter of fiscal 2016 relating to this action. We expect this action to be completed by the end of fiscal 2018.

During the second quarter of fiscal 2015, we approved Project Catalyst, a restructuring plan to increase organizational effectiveness and reduce overhead expense. In connection with this project, we expect to eliminate approximately 800 positions primarily in the United States. We expect to incur approximately \$148 million of net expenses relating to these actions of which approximately \$118 million will be cash. We recorded \$0.2 million of restructuring charges in the first quarter of fiscal 2016 relating to this action. These actions were largely completed in fiscal 2015.

During the first quarter of fiscal 2015, we approved a plan to combine certain Yoplait and General Mills operational facilities within our International segment to increase efficiencies and reduce costs. This action will affect approximately 240 positions. We expect to incur approximately \$15 million of net expenses relating to this action of which approximately \$14 million will be cash. We recorded \$14.0 million of restructuring charges in the first quarter of fiscal 2015 relating to this action. We expect this action to be completed in fiscal 2016.

During the three-month period ended August 30, 2015, we paid \$34.3 million in cash related to restructuring initiatives.

In addition to restructuring charges, we expect to incur approximately \$71 million of additional project-related costs, which will be recorded in cost of sales, all of which will be cash. We recorded \$13.1 million in cost of sales for project-related costs in the first quarter of fiscal 2016.

Restructuring charges and project-related costs are classified in our Consolidated Statements of Earnings as follows:

<b>In Millions</b>	<b>Quarter Ended</b>	
	<b>Aug. 30, 2015</b>	<b>Aug. 24, 2014</b>
Cost of sales	\$ 21.8	\$ —
Restructuring, impairment, and other exit costs	60.1	14.0
<b>Total restructuring charges</b>	<b>81.9</b>	<b>14.0</b>
<b>Project-related costs classified in cost of sales</b>	<b>\$ 13.1</b>	<b>\$ —</b>

The roll forward of our restructuring and other exit cost reserves, included in other current liabilities, is as follows:

<b>In Millions</b>	<b>Severance</b>	<b>Contract Termination</b>	<b>Other Exit Costs</b>	<b>Total</b>
Reserve balance as of May 31, 2015	\$ 118.6	\$ 0.6	\$ 1.6	\$120.8
Fiscal 2016 charges, including foreign currency translation	46.9	—	3.2	50.1
Utilized in fiscal 2016	(27.0)	(0.1)	(0.5)	(27.6)
<b>Reserve balance as of Aug. 30, 2015</b>	<b>\$ 138.5</b>	<b>\$ 0.5</b>	<b>\$ 4.3</b>	<b>\$143.3</b>

The charges recognized in the roll forward of our reserves for restructuring and other exit costs do not include items charged directly to expense (e.g., asset impairment charges, the gain or loss on the sale of restructured assets, and the write-off of spare parts) and other periodic exit costs recognized as incurred, as those items are not reflected in our restructuring and other exit cost reserves on our Consolidated Balance Sheets.

#### (4) Goodwill and Other Intangible Assets

The components of goodwill and other intangible assets are as follows:

<b>In Millions</b>	<b>Aug. 30, 2015</b>	<b>May 31, 2015</b>
Goodwill	\$ 8,857.7	\$ 8,874.9
Other intangible assets:		
Intangible assets not subject to amortization:		
Brands and other indefinite-lived intangibles	4,242.0	4,262.1
Intangible assets subject to amortization:		
Franchise agreements, customer relationships, and other finite-lived intangibles	548.9	544.0
Less accumulated amortization	(135.9)	(129.1)
Intangible assets subject to amortization, net	413.0	414.9
Other intangible assets	4,655.0	4,677.0
<b>Total</b>	<b>\$13,512.7</b>	<b>\$13,551.9</b>

Based on the carrying value of finite-lived intangible assets as of August 30, 2015, annual amortization expense for each of the next five fiscal years is estimated to be approximately \$28 million.

The changes in the carrying amount of goodwill during fiscal 2016 were as follows:

<b>In Millions</b>	<b>U.S. Retail</b>	<b>International</b>	<b>Convenience Stores and Foodservice</b>	<b>Joint Ventures</b>	<b>Total</b>
Balance as of May 31, 2015	\$ 6,419.0	\$ 1,133.3	\$ 921.1	\$ 401.5	\$8,874.9
Other activity, primarily foreign currency translation	—	(24.5)	—	7.2	(17.2)
<b>Balance as of Aug. 30, 2015</b>	<b>\$ 6,419.0</b>	<b>\$ 1,108.8</b>	<b>\$ 921.1</b>	<b>\$ 408.7</b>	<b>\$8,857.7</b>

During the second quarter of fiscal 2015, we reorganized certain reporting units within our U.S. Retail operating segment. Our chief operating decision maker continues to assess performance and make decisions about resources to be allocated to our segments at the U.S. Retail, International, and Convenience Stores and Foodservice operating segment level.

We performed our fiscal 2015 impairment assessment as of the first day of the third quarter of fiscal 2015, and determined there was no impairment of goodwill for any of our reporting units as their related fair values were substantially in excess of their carrying values.

The changes in the carrying amount of other intangible assets during fiscal 2016 were as follows:

<b>In Millions</b>	<b>U.S. Retail</b>	<b>International</b>	<b>Joint Ventures</b>	<b>Total</b>
Balance as of May 31, 2015	\$3,311.9	\$ 1,301.5	\$ 63.6	\$4,677.0
Other activity, primarily foreign currency translation	(0.9)	(21.3)	0.2	(22.0)
<b>Balance as of Aug. 30, 2015</b>	<b>\$3,311.0</b>	<b>\$ 1,280.2</b>	<b>\$ 63.8</b>	<b>\$4,655.0</b>

We performed our fiscal 2015 impairment assessment as of the first day of the third quarter of fiscal 2015. As of our assessment date, there was no impairment of any of our indefinite-lived intangible assets as their related fair values were substantially in excess of the carrying values, except for the *Mountain High* and *Uncle Toby's* brands. The excess fair value above the carrying value of these brand assets is as follows:

<b>In Millions</b>	<b>Book Value</b>	<b>Excess Fair Value Above Carrying Value</b>
<i>Mountain High</i>	\$ 35.4	3%
<i>Uncle Toby's</i>	\$ 57.7	7%

We will continue to monitor these businesses for potential impairment.

At the end of the fourth quarter of fiscal 2015, we made a strategic decision to redirect certain resources supporting our Green Giant business in our U.S. Retail segment to other businesses within the segment. Therefore, future sales and profitability projections in our long-range plan for this business declined. As a result of this triggering event, we performed an interim impairment assessment of the *Green Giant* brand intangible asset as of May 31, 2015, and determined that the fair value of the brand asset no longer exceeded the carrying value of the asset. We recorded a \$260 million impairment charge in restructuring, impairment, and other exit costs during the fourth quarter of fiscal 2015 related to this asset.

#### (5) Inventories

The components of inventories were as follows:

<b>In Millions</b>	<b>Aug. 30, 2015</b>	<b>May 31, 2015</b>
Raw materials and packaging	\$ 416.7	\$ 390.8
Finished goods	1,518.0	1,268.6
Grain	97.5	95.7
Excess of FIFO over LIFO cost	(236.4)	(214.2)
<b>Total</b>	<b>\$1,795.8</b>	<b>\$1,540.9</b>

## (6) Risk Management Activities

Many commodities we use in the production and distribution of our products are exposed to market price risks. We utilize derivatives to manage price risk for our principal ingredients and energy costs, including grains (oats, wheat, and corn), oils (principally soybean), non-fat dry milk, natural gas, and diesel fuel. Our primary objective when entering into these derivative contracts is to achieve certainty with regard to the future price of commodities purchased for use in our supply chain. We manage our exposures through a combination of purchase orders, long-term contracts with suppliers, exchange-traded futures and options, and over-the-counter options and swaps. We offset our exposures based on current and projected market conditions and generally seek to acquire the inputs at as close to our planned cost as possible.

We use derivatives to manage our exposure to changes in commodity prices. We do not perform the assessments required to achieve hedge accounting for commodity derivative positions. Accordingly, the changes in the values of these derivatives are recorded currently in cost of sales in our Consolidated Statements of Earnings.

Although we do not meet the criteria for cash flow hedge accounting, we believe that these instruments are effective in achieving our objective of providing certainty in the future price of commodities purchased for use in our supply chain. Accordingly, for purposes of measuring segment operating performance certain gains and losses are reported in unallocated corporate items outside of segment operating results until such time that the exposure we are managing affects earnings. At that time we reclassify the gain or loss from unallocated corporate items to segment operating profit, allowing our operating segments to realize the economic effects of the derivative without experiencing the resulting mark-to-market volatility, which remains in unallocated corporate items.

Unallocated corporate items for the quarter ended August 30, 2015 and August 24, 2014, included:

<b>In Millions</b>	<b>Quarter Ended</b>	
	<b>Aug. 30, 2015</b>	<b>Aug. 24, 2014</b>
Net loss on certain mark-to-market valuation of commodity positions	\$ (22.3)	\$ (41.4)
Net loss (gain) on commodity positions reclassified from unallocated corporate items to segment operating profit	26.9	(4.8)
Net mark-to-market revaluation of certain grain inventories	(1.9)	(3.0)
Net mark-to-market valuation of certain commodity positions recognized in unallocated corporate items	\$ 2.7	\$ (49.2)

As of August 30, 2015, the net notional value of commodity derivatives was \$224.6 million, of which \$176.1 million related to energy inputs and \$48.5 million related to agricultural inputs. These contracts relate to inputs that generally will be utilized within the next 12 months.

The fair values of the derivative positions used in our risk management activities and other assets recorded at fair value were not material as of August 30, 2015 and were Level 1 or Level 2 assets and liabilities in the fair value hierarchy. We did not significantly change our valuation techniques from prior periods.

We offer certain suppliers access to a third party service that allows them to view our scheduled payments online. The third party service also allows suppliers to finance advances on our scheduled payments at the sole discretion of the supplier and the third party. We have no economic interest in these financing arrangements and no direct relationship with the suppliers, the third party, or any financial institutions concerning this service. All of our accounts payable remain as obligations to our suppliers as stated in our supplier agreements. As of August 30, 2015, \$492.5 million of our total accounts payable is payable to suppliers who utilize this third party service.

## (7) Debt

The components of notes payable were as follows:

<b>In Millions</b>	<b>Aug. 30, 2015</b>	<b>May 31, 2015</b>
U.S. commercial paper	\$ 524.0	\$ 432.0
Financial institutions	299.7	183.8
<b>Total</b>	<b>\$ 823.7</b>	<b>\$ 615.8</b>

To ensure availability of funds, we maintain bank credit lines sufficient to cover our outstanding notes payable. Commercial paper is a continuing source of short-term financing. We have commercial paper programs available to us in the United States and Europe. We also have committed, uncommitted, and asset-backed credit lines that support our foreign operations.

The following table details the fee-paid committed and uncommitted credit lines we had available as of August 30, 2015:

<b>In Billions</b>	<b>Facility Amount</b>	<b>Borrowed Amount</b>
Credit facility expiring:		
April 2017	\$ 1.7	\$ —
May 2019	1.0	—
June 2019	0.2	0.1
Total committed credit facilities	2.9	0.1
Uncommitted credit facilities	0.5	0.2
<b>Total committed and uncommitted credit facilities</b>	<b>\$ 3.4</b>	<b>\$ 0.3</b>

In June 2014, our subsidiary Yoplait SAS entered into a €200.0 million fee-paid committed credit facility that is scheduled to expire in June 2019.

The credit facilities contain covenants, including a requirement to maintain a fixed charge coverage ratio of at least 2.5 times. We were in compliance with all credit facility covenants as of August 30, 2015.

### ***Long-Term Debt***

The fair values and carrying amounts of long-term debt, including the current portion, were \$8,858.5 million and \$8,610.0 million, respectively, as of August 30, 2015. The fair value of long-term debt was estimated using market quotations and discounted cash flows based on our current incremental borrowing rates for similar types of instruments. Long-term debt is a Level 2 liability in the fair value hierarchy.

In April 2015, we issued €500.0 million principal amount of 1.0 percent fixed-rate notes due April 27, 2023 and €400.0 million principal amount of 1.5 percent fixed-rate notes due April 27, 2027. Interest on the notes is payable annually in arrears. The notes due April 27, 2023 may be redeemed in whole, or in part, at our option at any time prior to January 27, 2023 for a specified make whole amount and any time on or after that date at par. The notes due April 27, 2027 may be redeemed in whole, or in part, at our option at any time prior to January 27, 2027 for a specified make whole amount and any time on or after that date at par. These notes are senior unsecured obligations that include a change of control repurchase provision. The net proceeds were used for general corporate purposes and to reduce our commercial paper borrowings.

In March 2015, we repaid \$750.0 million of 5.2 percent notes.

In October 2014, we issued \$500.0 million aggregate principal amount of 1.4 percent fixed-rate notes due October 20, 2017 and \$500.0 million aggregate principal amount of 2.2 percent fixed-rate notes due October 21, 2019. Interest on the notes is payable semi-annually in arrears. The notes may be redeemed in whole, or in part, at our option at any time at the applicable redemption price. The notes are senior unsecured obligations that include a change of control repurchase provision. The net proceeds were used to fund our acquisition of Annie's and for general corporate purposes.

In June 2014, we issued €200.0 million principal amount of 2.2 percent fixed-rate senior unsecured notes due June 24, 2021 in a private placement offering. Interest on the notes is payable semi-annually in arrears. The notes may be redeemed in whole, or in part, at our option at any time for a specific make-whole amount and include a change of control repurchase provision. The net proceeds were used to refinance existing debt.

In June 2014, we repaid €290.0 million of floating-rate notes.

Certain of our long-term debt agreements contain restrictive covenants. As of August 30, 2015, we were in compliance with all of these covenants.

#### (8) Redeemable and Noncontrolling Interests

We have a 51 percent controlling interest in Yoplait SAS and a 50 percent interest in Yoplait Marques SNC and Liberté Marques Sàrl. Sodiaal International (Sodiaal) holds the remaining interests in each of the entities. On the acquisition date, we recorded the \$904.4 million fair value of Sodiaal's 49 percent euro-denominated interest in Yoplait SAS as a redeemable interest on our Consolidated Balance Sheets. Sodiaal has the ability to put a limited portion of its redeemable interest to us at fair value once per year through a maximum term expiring December 2020. We adjust the value of the redeemable interest through additional paid-in capital on our Consolidated Balance Sheets quarterly to the redeemable interest's redemption value, which approximates its fair value. Yoplait SAS pays dividends annually if it meets certain financial metrics set forth in its shareholders' agreement. As of August 30, 2015, the redemption value of the euro-denominated redeemable interest was \$786.6 million.

A subsidiary of Yoplait SAS has entered into an exclusive milk supply agreement for its European operations with Sodiaal through July 1, 2021. Net purchases totaled \$71.5 million for the quarter ended August 30, 2015 and \$74.2 million for the quarter ended August 24, 2014.

On the acquisition dates, we recorded the \$281.4 million fair value of Sodiaal's 50 percent euro-denominated interest in Yoplait Marques SNC and 50 percent Canadian dollar-denominated interest in Liberté Marques Sàrl as noncontrolling interests on our Consolidated Balance Sheets. Yoplait Marques SNC earns a royalty stream through a licensing agreement with Yoplait SAS for the rights to *Yoplait* and related trademarks. Liberté Marques Sàrl earns a royalty stream through licensing agreements with certain Yoplait group companies for the rights to *Liberté* and related trademarks. These entities pay dividends annually based on their available cash as of their fiscal year end.

The third-party holder of the Class A Interests in our General Mills Cereals, LLC (GMC) consolidated subsidiary receives quarterly preferred distributions from available net income based on the application of a floating preferred return rate to the holder's capital account balance established in the most recent mark-to-market valuation (currently \$251.5 million). The preferred return rate is adjusted every three years through a negotiated agreement with the Class A Interest holder or through a remarketing auction. On June 1, 2015, the floating preferred return rate on GMC's Class A Interests was reset to the sum of three-month LIBOR plus 125 basis points.

Our noncontrolling interests contain restrictive covenants. As of August 30, 2015, we were in compliance with all of these covenants.

#### (10) Stock Plans

We have various stock-based compensation programs under which awards, including stock options, restricted stock, restricted stock units, and performance awards, may be granted to employees and non-employee directors. These programs and related accounting are described in Note 11 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2015.

Compensation expense related to stock-based payments recognized in the Consolidated Statements of Earnings was as follows:

<b>In Millions</b>	<b>Quarter Ended</b>	
	<b>Aug. 30, 2015</b>	<b>Aug. 24, 2014</b>
Compensation expense related to stock-based payments	\$ 32.9	\$ 45.6

Compensation expense related to stock-based payments recognized in the Consolidated Statements of Earnings includes amounts recognized in restructuring, impairment, and other exit costs.

As of August 30, 2015, unrecognized compensation expense related to non-vested stock options, restricted stock units, and performance award units was \$141.5 million. This expense will be recognized over 24 months, on average.

Net cash proceeds from the exercise of stock options less shares used for withholding taxes and the intrinsic value of options exercised were as follows:

<b>In Millions</b>	<b>Quarter Ended</b>	
	<b>Aug. 30, 2015</b>	<b>Aug. 24, 2014</b>
Net cash proceeds	\$ 47.7	\$ 17.5
Intrinsic value of options exercised	\$ 82.2	\$ 18.3

We estimate the fair value of each stock option on the grant date using a Black-Scholes option-pricing model. Black-Scholes option-pricing models require us to make predictive assumptions regarding future stock price volatility, employee exercise behavior, and dividend yield. We estimate our future stock price volatility using the historical volatility over the expected term of the option, excluding time periods of volatility we believe a marketplace participant would exclude in estimating our stock price volatility. We also have considered, but did not use, implied volatility in our estimate, because trading activity in options on our stock, especially those with tenors of greater than 6 months, is insufficient to provide a reliable measure of expected volatility. Our method of selecting the other valuation assumptions is explained in Note 11 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2015.

The estimated fair values of stock options granted and the assumptions used for the Black-Scholes option-pricing model were as follows:

	<b>Quarter Ended</b>	
	<b>Aug. 30, 2015</b>	<b>Aug. 24, 2014</b>
Estimated fair values of stock options granted	\$ 7.24	\$ 7.22

### (12) Share Repurchases

During the first quarter of fiscal 2016, we repurchased 2.7 million shares of common stock for an aggregate purchase price of \$152.1 million. During the first quarter of fiscal 2015, we repurchased 8.8 million shares of common stock with an aggregate purchase price of \$462.5 million which includes 0.4 million shares that did not settle until the second quarter of fiscal 2015 with an aggregate price of \$23.7 million.

### (13) Statements of Cash Flows

During the quarter ended August 30, 2015, we made net cash interest payments of \$123.4 million, compared to \$119.0 million in the same period last year. Also, in the quarter ended August 30, 2015, we made net income tax payments of \$9.7 million, compared to \$60.5 million in the same period last year.

### (15) Business Segment Information

We operate in the consumer foods industry. We have three operating segments by type of customer and geographic region as follows: U.S. Retail; International; and Convenience Stores and Foodservice.

Beginning with the second quarter of fiscal 2015, we realigned certain operating units within our U.S. Retail operating segment. We also changed the name of our Yoplait operating unit to Yogurt and our Big G operating unit to Cereal. Frozen Foods transitioned into Meals and Baking Products. Small Planet Foods transitioned into Snacks, Cereal, and Meals. The Yogurt operating unit was unchanged. We revised the amounts previously reported in the net sales percentage change by operating unit within our U.S. Retail segment to conform to the new operating unit structure. These realignments had no effect on previously reported consolidated net sales, operating segments' net sales, operating profit, segment operating profit, net earnings attributable to General Mills, or EPS. In addition, results from the acquired Annie's business are included in the Meals and Snacks operating units. Our chief operating decision maker continues to assess performance and make decisions about resources to be allocated to our segments at the U.S. Retail, International, and Convenience Stores and Foodservice operating segment level.

Our U.S. Retail segment reflects business with a wide variety of grocery stores, mass merchandisers, membership stores, natural food chains, and drug, dollar and discount chains operating throughout the United States. Our product categories in this business segment are ready-to-eat cereals, refrigerated yogurt, soup, meal kits, shelf stable and frozen vegetables, refrigerated and frozen dough products, dessert and baking mixes, frozen pizza and pizza snacks, grain, fruit and savory snacks, and a wide variety of organic products including meal kits, granola bars, and cereal.

Our International segment consists of retail and foodservice businesses outside of the United States. Our product categories include ready-to-eat cereals, shelf stable and frozen vegetables, meal kits, refrigerated and frozen dough products, dessert and baking mixes, frozen pizza snacks, refrigerated yogurt, grain and fruit snacks, and super-premium ice cream and frozen desserts. We also sell super-premium ice cream and frozen desserts directly to consumers through owned retail shops. Our International segment also includes products manufactured in the United States for export, mainly to Caribbean and Latin American markets, as well as products we manufacture for sale to our international joint ventures. Revenues from export activities and franchise fees are reported in the region or country where the end customer is located.

In our Convenience Stores and Foodservice segment our major product categories are ready-to-eat cereals, snacks, refrigerated yogurt, frozen breakfast, unbaked and fully baked frozen dough products, baking mixes, and flour. Many products we sell are branded to the consumer and nearly all are branded to our customers. We sell to distributors and operators in many customer channels including foodservice, convenience stores, vending, and supermarket bakeries. Substantially all of this segment's operations are located in the United States.

Operating profit for these segments excludes unallocated corporate items and restructuring, impairment, and other exit costs. Unallocated corporate items include corporate overhead expenses, variances to planned domestic employee benefits and incentives, contributions to the General Mills Foundation, asset and liability remeasurement impact of hyperinflationary economies, restructuring initiative project-related costs, and other items that are not part of our measurement of segment operating performance. These include gains and losses arising from the revaluation of certain grain inventories and gains and losses from mark-to-market valuation of certain commodity positions until passed back to our operating segments. These items affecting operating profit are centrally managed at the corporate level and are excluded from the measure of segment profitability reviewed by executive management. Under our supply chain organization, our manufacturing, warehouse, and distribution activities are substantially integrated across our operations in order to maximize efficiency and productivity. As a result, fixed assets and depreciation and amortization expenses are neither maintained nor available by operating segment.

Our operating segment results were as follows:

<b>In Millions</b>	<b>Quarter Ended</b>	
	<b>Aug. 30, 2015</b>	<b>Aug. 24, 2014</b>
Net sales:		
U.S. Retail	\$ 2,531.2	\$ 2,444.3

Convenience Stores and Foodservice	477.7	473.0
<b>Total</b>	<b>\$ 4,207.9</b>	<b>\$ 4,268.4</b>
Operating profit:		
U.S. Retail	\$ 629.7	\$ 457.2
International	117.0	146.0
Convenience Stores and Foodservice	79.8	87.3
<b>Total segment operating profit</b>	<b>826.5</b>	<b>690.5</b>
Unallocated corporate items	83.1	119.0
Restructuring, impairment, and other exit costs	60.1	14.0
<b>Operating profit</b>	<b>\$ 683.3</b>	<b>\$ 557.5</b>

#### (16) New Accounting Pronouncements

In the first quarter of fiscal 2016, we elected to adopt new accounting requirements for classification of debt issuance costs presented in the balance sheet as a direct reduction from the carrying amount of the debt liability. This presentation change has been implemented retroactively. The adoption of this guidance did not have a material impact on our results of operations or financial position.

(17) Subsequent Events

After the end of the first quarter of fiscal 2016, we reached a definitive agreement to sell our Green Giant business in our U.S. Retail segment and a portion of the business in our International segment for \$765 million in cash, subject to an inventory adjustment at closing. We expect this transaction to close, subject to regulatory approval, in fiscal 2016. We expect to record a gain on the sale of this business during the quarter in which the transaction closes. The assets we expect to sell are currently reported in our Consolidated Balance Sheet as follows:

<b>In Millions</b>	<b>Aug. 30, 2015</b>
Inventories	\$ 223.4
Land, buildings, and equipment	27.0
Goodwill	252.1
Other intangible assets	121.5
<b>Total assets held for sale</b>	<b>\$ 624.0</b>

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

INTRODUCTION

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) should be read in conjunction with the MD&A included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2015 for important background regarding, among other things, our key business drivers. Significant trademarks and service marks used in our business are set forth in *italics* herein. Certain terms used throughout this report are defined in the "Glossary" section below.

CONSOLIDATED RESULTS OF OPERATIONS

First Quarter Results

For the first quarter of fiscal 2016, net sales declined 1 percent to \$4,208 million and increased 4 percent on a constant-currency basis compared to the same period last year. Total segment operating profit was \$826 million, 20 percent higher than the first quarter of fiscal 2015 and 23 percent higher on a constant-currency basis. Net earnings attributable to General Mills were \$427 million in the first quarter of fiscal 2016, up 24 percent from \$345 million last year, and we reported diluted earnings per share (EPS) of \$0.69 in the first quarter of fiscal 2016, up 25 percent from \$0.55 last year. These results include restructuring charges, project-related costs, and the mark-to-market valuation of certain commodity positions and grain inventories. Diluted EPS excluding these items affecting comparability totaled \$0.79 in the first quarter of fiscal 2016, up 30 percent from \$0.61 in the same period last year. Diluted EPS excluding certain items affecting comparability on a constant-currency basis increased 36 percent compared to the first quarter of fiscal 2015 (see the "Non-GAAP Measures" section below for our use of these measures not defined by GAAP).

**Net sales** declined 1 percent to \$4,208 million for the first quarter of fiscal 2016 compared to \$4,268 million in the same period last year. Components of net sales growth are shown in the following table:

<b>First Quarter of Fiscal 2016 vs. First Quarter of Fiscal 2015</b>	<b>U.S. Retail</b>	<b>International</b>	<b>Convenience Stores and Foodservice</b>	<b>Combined Segments</b>
Contributions from volume growth (a)	1pt	4pts	1pt	2pts
Net price realization and mix	3pts	1pt	Flat	2pts
Foreign currency exchange	NA	(16)pts	NM	(5)pts
Net sales growth	4pts	(11)pts	1pt	(1)pt

(a) Measured in tons based on the stated weight of our product shipments.

The acquisition of Annie's, Inc. (Annie's) added 2 percentage points of net sales growth, reflecting 1 percentage point of growth from volume and 1 percentage point of favorable net price realization and mix.

**Cost of sales** decreased \$176 million from the first quarter of fiscal 2015 to \$2,653 million. The decrease included a \$208 million decrease attributable to product mix. We recorded a \$3 million net decrease in cost of sales related to the mark-to-market valuation of certain commodity positions and grain inventories in the first quarter of fiscal 2016 compared to a net increase of \$49 million in the first quarter of fiscal 2015. These decreases were partially offset by a \$49 million increase in cost of sales attributable to higher volume in the first quarter of fiscal 2016. We also recorded \$22 million of restructuring charges in cost of sales in the first quarter of fiscal 2016.

We expect to incur approximately \$71 million of restructuring initiative project-related cash costs and recorded \$13 million of these costs in cost of sales in the first quarter of fiscal 2016 (Please refer to Note 3 to the Consolidated Financial Statements in Part I, Item 1 of this report).

**Selling, general, and administrative (SG&A) expenses** decreased \$56 million to \$811 million in the first quarter of fiscal 2016 compared to the same period in fiscal 2015. The decrease in SG&A expenses primarily reflects savings from Project Catalyst and our other cost management initiatives, and a 5 percentage point decrease in media

and advertising expense. SG&A expenses as a percent of net sales in the first quarter of fiscal 2016 decreased 100 basis points compared with the first quarter of fiscal 2015.

**Restructuring, impairment, and other exit costs** totaled \$60 million in the first quarter of fiscal 2016 compared to \$14 million in the same period last year.

Total charges associated with our restructuring initiatives recognized in the first quarter of fiscal 2016 consisted of the following:

In Millions	As Reported				Estimated				Savings (b)

(a) Includes \$21.8 million of restructuring charges recorded in cost of sales during fiscal 2016.

(b) Cumulative annual savings estimated by fiscal 2017. Includes savings from SG&A cost reduction projects.

For further information on these restructuring actions, please refer to Note 3 to the Consolidated Financial Statements in Part 1, Item 1 of this report.

**Interest, net** for the first quarter of fiscal 2016 totaled \$75 million, a \$3 million decrease from the same period of fiscal 2015. The average interest rate decreased 47 basis points, including the effect of the mix of debt, generating a \$10 million decrease in net interest. Average interest bearing instruments increased \$742 million, generating a \$7 million increase in net interest.

The **effective tax rate** for the first quarter of fiscal 2016 was 32.7 percent compared to 31.8 percent for the first quarter of fiscal 2015. The 0.9 percentage point increase was primarily due to changes in the mix of earnings by country, including the impact of restructuring charges.

**After-tax earnings from joint ventures** of \$26 million essentially matched year-ago levels, as unfavorable foreign currency exchange was offset by favorable input costs and a decrease in SG&A expenses for Cereal Partners Worldwide (CPW), and favorable net price realization and mix for Häagen-Dazs Japan, Inc. (HDJ). On a constant-currency basis, after-tax earnings from joint ventures grew 16% (see the “Non-GAAP Measures” section below for our use of this measure not defined by GAAP). The change in net sales for each joint venture is set forth in the following table:

	Quarter Ended Aug. 30, 2015		
	Percentage Change in Joint Venture Net Sales as Reported	Impact of Foreign Currency Exchange	Percentage Change in Joint Venture Net Sales on Constant-Currency Basis
CPW	(19)%	(17)pts	(2)%
HDJ	(10)	(19)	9 %
Joint Ventures	(17)%	(17)pts	Flat

The components of our joint ventures' net sales growth are shown in the following table:

(a) Measured in tons based on the stated weight of our product shipments.

**Average diluted shares outstanding** decreased by 14 million in the first quarter of fiscal 2016 from the same period a year ago due to the impact of share repurchases, partially offset by option exercises.

#### SEGMENT OPERATING RESULTS

Our businesses are organized into three operating segments: U.S. Retail; International; and Convenience Stores and Foodservice.

#### U.S. Retail Segment Results

Beginning with the second quarter of fiscal 2015, we realigned certain operating units within our U.S. Retail operating segment. We also changed the name of our Yoplait operating unit to Yogurt and our Big G operating unit to Cereal. Frozen Foods transitioned into Meals and Baking Products. Small Planet Foods transitioned into Snacks, Cereal, and Meals. The Yogurt operating unit was unchanged. We revised the amounts previously reported in the net sales percentage change by operating unit within our U.S. Retail segment to conform to the new operating unit structure. These realignments had no effect on previously reported consolidated net sales, operating segments' net sales, operating profit, segment operating profit, net earnings attributable to General Mills, or earnings per share. In addition, results from the Annie's business are included in the Meals and Snacks operating units.

Net sales for the U.S. Retail segment were \$2,531 million for the quarter ended August 30, 2015, 4 percent higher than \$2,444 million in the same period last year. The components of U.S. Retail net sales growth are shown in the following table:

	<b>Quarter Ended Aug. 30, 2015</b>
Contributions from volume growth (a)	1pt
Net price realization and mix	3pts
Net sales growth	4pts

(a) Measured in tons based on the stated weight of our product shipments.

The acquisition of Annie's added 3 percentage points of net sales growth, reflecting 2 percentage points of growth from volume and 1 percentage point of favorable net price realization and mix, in the first quarter of fiscal 2016.

U.S. Retail net sales percentage change by operating unit are shown in the following table:

	<b>Quarter Ended</b> <b>Aug. 30, 2015</b>
Cereal	6 %
Meals	6
Yogurt	4
Snacks	2
Baking Products	Flat
Total	4 %

Segment operating profit increased 38 percent to \$630 million in the first quarter of fiscal 2016 compared to \$457 million in the same period last year. The increase was primarily driven by high levels of promotional expense in the first quarter of fiscal 2015, a decrease in SG&A expenses, and lower supply chain costs.

#### International Segment Results

Net sales for the International segment were \$1,199 million for the quarter ended August 30, 2015, 11 percent lower than \$1,351 million in the same period last year. The components of International net sales growth are shown in the following table:

	<b>Quarter Ended</b> <b>Aug. 30, 2015</b>
Contributions from volume growth (a)	4pts
Net price realization and mix	1pt
Foreign currency exchange	(16)pts
Net sales growth	(11)pts

(a) Measured in tons based on the stated weight of our product shipments

International segment net sales percentage change by region are shown in the following tables:

	<b>Percentage</b> <b>Change in Net</b> <b>Sales as Reported</b> <b>Quarter Ended</b> <b>Aug. 30, 2015</b>	<b>Percentage</b> <b>Change in Net</b> <b>Sales on Constant</b> <b>Currency Basis (a)</b> <b>Quarter Ended</b> <b>Aug. 30, 2015</b>

Canada	(11)	5
Asia/Pacific	Flat	3
Latin America	(26)	3
Total	(11)%	5 %

(a) See the “Non-GAAP Measures” section below for our use of this measure.

Segment operating profit decreased 20 percent to \$117 million in the first quarter of fiscal 2016 compared to \$146 million in the same period of fiscal 2015, primarily driven by unfavorable foreign currency exchange and an increase in SG&A expenses, partially offset by favorable net price realization. International segment operating profit decreased 3 percent on a constant-currency basis in the first quarter of fiscal 2016 compared to the first quarter of fiscal 2015 (see the “Non-GAAP Measures” section below for our use of this measure).

## Convenience Stores and Foodservice Segment Results

Net sales for the Convenience Stores and Foodservice segment were \$478 million for the quarter ended August 30, 2015, 1 percent higher than \$473 million in the same period last year. The components of Convenience Stores and Foodservice net sales growth are shown in the following table:

	<b><u>Quarter Ended</u></b> <b><u>Aug. 30, 2015</u></b>
Contributions from volume growth (a)	1pt
Net price realization and mix	Flat
Net sales growth	1pt

(a) Measured in tons based on the stated weight of our product shipments.

Segment operating profit decreased 9 percent to \$80 million in the first quarter of fiscal 2016 compared to \$87 million in the same period of fiscal 2015, primarily driven by higher input costs, partially offset by an increase in volume.

## UNALLOCATED CORPORATE ITEMS

Unallocated corporate expense totaled \$83 million in the first quarter of fiscal 2016 compared to \$119 million in the same period in fiscal 2015. In the first quarter of fiscal 2016, we recorded a \$3 million net decrease in expense related to the mark-to-market valuation of certain commodity positions and grain inventories, compared to a \$49 million net increase in expense in the first quarter of fiscal 2015. In addition, we recorded \$22 million of restructuring charges and \$13 million of restructuring initiative project-related costs in the first quarter of fiscal 2016.

Venezuela is a highly inflationary economy and as such, we remeasure the value of the assets and liabilities of our Venezuelan subsidiary based on the exchange rate at which we expect to remit dividends in U.S. dollars. In February 2014, the Venezuelan government established a new foreign exchange market mechanism ("SICAD 2") and at that time indicated that it would be the market through which U.S. dollars would be obtained for the remittance of dividends. On February 12, 2015, the Venezuelan government replaced SICAD 2 with a new foreign exchange market mechanism (SIMADI). We expect to be able to access U.S. dollars through the SIMADI market. SIMADI has significantly higher foreign exchange rates than those available through the other foreign exchange mechanisms. In the first quarter of each of fiscal 2016 and fiscal 2015, we recorded an immaterial impact in unallocated corporate items resulting from the remeasurement of assets and liabilities of our Venezuelan subsidiary. Our Venezuela operations represent less than 1 percent of our consolidated assets, liabilities, net sales, and segment operating profit. As of August 30, 2015, we had \$0.4 million of non-U.S. dollar cash balances in Venezuela.

## LIQUIDITY

During the quarter ended August 30, 2015, our operations generated \$431 million of cash compared to \$329 million in the same period last year. The \$102 million increase is primarily due to higher earnings in the first quarter of fiscal 2016 compared to the first quarter of fiscal 2015.

Cash used by investing activities during the quarter ended August 30, 2015 was \$139 million, \$58 million less than the same period in fiscal 2015. We made \$33 million of net investments in affiliates, primarily CPW, in the first quarter of fiscal 2015. Investments of \$147 million in land, buildings, and equipment in the first quarter of fiscal 2016 essentially matched the same period a year ago.

Cash used by financing activities during the quarter ended August 30, 2015 was \$157 million compared to \$153 million in the same period last year. We had \$298 million less net debt issuances in the first quarter of fiscal 2016 than the same period a year ago. We paid \$152 million in cash to repurchase common stock and paid \$266 million

of dividends in the first quarter fiscal 2016 compared to \$439 million and \$254 million, respectively, in the same period last year.

As of August 30, 2015, we had \$417 million of cash and cash equivalents held in foreign jurisdictions which will be used to fund foreign operations and potential acquisitions. There is currently no need to repatriate these funds in order to meet domestic funding obligations or scheduled cash distributions. If we choose to repatriate earnings from foreign jurisdictions, we intend to do so only in a tax-neutral manner.

## CAPITAL RESOURCES

Our capital structure was as follows:

<b>In Millions</b>	<b>Aug. 30, 2015</b>	<b>May 31, 2015</b>
Notes payable	\$ 823.7	\$ 615.8
Current portion of long-term debt	<b>1,000.3</b>	1,000.4

Stockholders' equity	<b>4,949.1</b>	4,996.7
Total capital	<b>\$15,572.3</b>	\$15,363.1

To ensure availability of funds, we maintain bank credit lines sufficient to cover our outstanding notes payable. Commercial paper is a continuing source of short-term financing. We have commercial paper programs available to us in the United States and Europe. We also have committed, uncommitted, and asset-backed credit lines that support our foreign operations.

The following table details the fee-paid committed and uncommitted credit lines we had available as of August 30, 2015:

<b>In Billions</b>	<b>Facility Amount</b>	<b>Borrowed Amount</b>
Credit facility expiring:		
April 2017	\$ 1.7	\$ —
May 2019	1.0	—
June 2019	0.2	0.1
Total committed credit facilities	2.9	0.1
Uncommitted credit facilities	0.5	0.2
Total committed and uncommitted credit facilities	\$ 3.4	\$ 0.3

The third-party holder of the General Mills Cereals, LLC (GMC) Class A Interests receives quarterly preferred distributions from available net income based on the application of a floating preferred return rate, currently equal to the sum of three-month LIBOR plus 125 basis points, to the holder's capital account balance established in the most recent mark-to-market valuation (currently \$252 million). The preferred return rate is adjusted every three years through a negotiated agreement with the Class A Interest holder or through a remarketing auction.

The holder of the Class A Interests may initiate a liquidation of GMC under certain circumstances, including, without limitation, the bankruptcy of GMC or its subsidiaries, GMC's failure to deliver the preferred distributions on the Class A Interests, GMC's failure to comply with portfolio requirements, breaches of certain covenants, lowering of our senior debt rating below either Baa3 by Moody's or BBB- by Standard & Poor's, and a failed attempt to remarket the Class A Interests. In the event of a liquidation of GMC, each member of GMC will receive the amount of its then current capital account balance. We may avoid liquidation by exercising our option to purchase the Class A Interests.

We may exercise our option to purchase the Class A Interests for consideration equal to the then current capital account value, plus any unpaid preferred return and the prescribed make-whole amount. If we purchase these interests, any change in the unrelated third-party investor's capital account from its original value will be charged directly to retained earnings and will increase or decrease the net earnings used to calculate EPS in that period.

We have a 51 percent controlling interest in Yoplait SAS and a 50 percent interest in Yoplait Marques SNC and Liberté Marques Sàrl. Sodiaal International (Sodiaal) holds the remaining interests in each of these entities. We consolidate these entities into our consolidated financial statements. As of August 30, 2015, we recorded Sodiaal's 50 percent interests in Yoplait Marques SNC and Liberté Marques Sàrl as noncontrolling interests, and the fair value of its 49 percent interest in Yoplait SAS as a redeemable interest on our Consolidated Balance Sheets. These euro- and Canadian dollar-denominated interests are reported in U.S. dollars on our Consolidated Balance Sheets. Sodiaal has the ability to put a limited portion of its redeemable interest to us at fair value once per year through a maximum term expiring December 2020. As of August 30, 2015, the redemption value of the redeemable interest was \$787 million, which approximates its fair value.

Certain of our long-term debt agreements, our credit facilities, and our noncontrolling interests contain restrictive covenants. As of August 30, 2015, we were in compliance with all of these covenants.

We have \$1,000 million of long-term debt maturing in the next 12 months that is classified as current, including \$750 million of floating rate notes due in January 2016 and \$250 million of 0.875 percent notes due in January 2016. We believe that cash flows from operations, together with available short- and long-term debt financing, will be adequate to meet our liquidity and capital needs for at least the next 12 months.

#### OFF-BALANCE SHEET ARRANGEMENTS AND CONTRACTUAL OBLIGATIONS

There were no material changes outside the ordinary course of our business in our contractual obligations or off-balance sheet arrangements during the first quarter of fiscal 2016.

#### SIGNIFICANT ACCOUNTING ESTIMATES

Our significant accounting policies are described in Note 2 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2015. The accounting policies used in preparing our interim fiscal 2016 Consolidated Financial Statements are the same as those described in our Form 10-K.

Our significant accounting estimates are those that have meaningful impact on the reporting of our financial condition and results of operations. These estimates include our accounting for promotional expenditures, valuation of long-lived assets, intangible assets, redeemable interest, stock-based compensation, income taxes, and defined benefit pension, other postretirement benefit, and postemployment benefit plans. The assumptions and methodologies used in the determination of those estimates as of August 30, 2015 are the same as those described in our Annual Report on Form 10-K for the fiscal year ended May 31, 2015.

#### RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In August 2015, the Financial Accounting Standards Board (FASB) issued new accounting requirements for the recognition of revenue from contracts with customers. The requirements of the new standard are effective for annual reporting periods beginning after December 15, 2017, and interim periods within those annual periods, which for us is the first quarter of fiscal 2019. We do not expect this guidance to have a material impact on our results of operations or financial position.

In August 2015, the FASB issued new accounting requirements for the presentation of certain investments using the net asset value, providing a method to exclude such investments from categorization within the fair value hierarchy and separate disclosure. The requirements of the new standard are effective for annual reporting periods beginning after December 15, 2015, and interim periods within those annual periods, which for us is the first quarter of fiscal 2017. We do not expect this guidance to have a material impact on our results of operations or financial position.

In August 2015, the FASB issued new accounting requirements that permits reporting entities with a fiscal year-end that does not coincide with a month-end to measure defined benefit plan assets and obligations using the month-end that is closest to the entity's fiscal year-end. The requirements of the new standard are effective for annual reporting periods beginning after December 15, 2015, and interim periods within those annual periods, which for us is the first quarter of fiscal 2017. We do not expect this guidance to have a material impact on our results of operations or financial position.

In June 2014, the FASB issued new accounting requirements for share-based payment awards issued based upon specific performance targets. The requirements of the new standard are effective for annual reporting periods beginning after December 15, 2015, and interim periods within those annual periods, which for us is the first quarter of fiscal 2017. We do not expect this guidance to have a material impact on our results of operations or financial position.

### NON-GAAP MEASURES

We have included in this report measures of financial performance that are not defined by GAAP. We believe that these measures provide useful information to investors and include these measures in other communications to investors.

For each of these non-GAAP financial measures, we are providing below a reconciliation of the differences between the non-GAAP measure and the most directly comparable GAAP measure, an explanation of why our management or the Board of Directors believes the non-GAAP measure provides useful information to investors and any additional purposes for which our management or Board of Directors uses the non-GAAP measure. These non-GAAP measures should be viewed in addition to, and not in lieu of, the comparable GAAP measure.

#### ***Constant-Currency Net Sales Growth Rates***

This measure is used in reporting to our executive management and as a component of the Board of Directors' measurement of our performance for incentive compensation purposes. We believe that this measure provides useful information to investors because it provides transparency to underlying performance in our consolidated net sales by excluding the effect that foreign currency exchange rate fluctuations have on the year-to-year comparability given volatility in foreign currency exchange markets.

Net sales growth rate on a constant-currency basis is calculated as follows:

	<b>Quarter Ended Aug. 30, 2015</b>		
	<b>Percentage Change in Total Net Sales as Reported</b>	<b>Impact of Foreign Currency Exchange</b>	<b>Percentage Change in Total Net Sales on Constant- Currency Basis</b>
Total Net Sales	(1)%	(5)pts	4 %

#### ***Diluted EPS Excluding Certain Items Affecting Comparability and Related Constant-Currency Growth Rate***

This measure is used in reporting to our executive management and as a component of the Board of Directors' measurement of our performance for incentive compensation purposes. We believe that this measure provides useful information to investors because it is the profitability measure we use to evaluate earnings performance on a comparable year-over-year basis. The adjustments are either items resulting from infrequently occurring events or items that, in management's judgment, significantly affect the year-over-year assessment of operating results.

The reconciliation of our GAAP measure, diluted EPS, to diluted EPS excluding certain items affecting comparability and the related constant-currency growth rate follows:

<b>Per Share Data</b>	<b>Quarter Ended</b>		<b>Change</b>
	<b>Aug. 30, 2015</b>	<b>Aug. 24, 2014</b>	
Diluted earnings per share, as reported	\$ 0.69	\$ 0.55	25 %
Mark-to-market effects (a)	—	0.05	
Restructuring costs (b)	0.09	0.01	
Project-related costs (b)	0.01	—	
Diluted earnings per share, excluding certain items affecting comparability	\$ 0.79	\$ 0.61	30 %
Foreign currency exchange impact			(6)%
Diluted earnings per share growth, excluding certain items affecting comparability, on a constant-currency basis			36 %

(a) See Note 6 to the Consolidated Financial Statements in Part I, Item 1 of this report.

(b) See Note 3 to the Consolidated Financial Statements in Part I, Item 1 of this report.

#### ***Total Segment Operating Profit and Related Constant-Currency Growth Rate***

This measure is used in reporting to our executive management and as a component of the Board of Directors' measurement of our performance for incentive compensation purposes. We believe that this measure provides useful information to investors because it is the profitability measure we use to evaluate segment performance. A reconciliation of this measure to operating profit, the relevant GAAP measure, is included in Note 15 to the Consolidated Financial Statements in Part I, Item 1 of this report.

Total segment operating profit growth rate on a constant-currency basis is calculated as follows:

	<b>Quarter Ended Aug. 30, 2015</b>		
	<b>Percentage Change in Total Segment Operating Profit as Reported</b>	<b>Impact of Foreign Currency Exchange</b>	<b>Percentage Change in Total Segment Operating Profit on Constant-Currency Basis</b>
Total Segment Operating Profit	20 %	(3)pts	23 %

#### ***Constant-Currency After-tax Earnings from Joint Ventures Growth Rate***

We believe that this measure provides useful information to investors because it provides transparency to underlying performance of our joint ventures by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given volatility in foreign currency exchange markets.

	<b>Quarter Ended Aug. 30, 2015</b>		
	<b>Percentage Change in After-tax Earnings from Joint Ventures as Reported</b>	<b>Impact of Foreign Currency Exchange</b>	<b>Percentage Change in After-tax Earnings from Joint Ventures on Constant-Currency Basis</b>
Total Joint Ventures	(1)%	(17)pts	16 %

### *Net Sales Growth Rates for Our International Segment on Constant-Currency Basis*

We believe that this measure of our International segment and region net sales provides useful information to investors because it provides transparency to the underlying performance in markets outside the United States by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given volatility in foreign currency exchange markets.

Quarter Ended Aug. 30, 2015			
	Percentage Change in Net Sales as Reported	Impact of Foreign Currency Exchange	Percentage Change in Net Sales on Constant- Currency Basis
Europe	(10)%	(17)pts	7 %
Canada	(11)	(16)	5
Asia/Pacific	Flat	(3)	3
Latin America	(26)	(29)	3
Total International	(11)%	(16)pts	5 %

### *Constant-Currency International Segment Operating Profit Growth Rate*

We believe that this measure provides useful information to investors because it provides transparency to underlying performance of the International segment by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given volatility in foreign currency exchange markets.

Quarter Ended Aug. 30, 2015			
	Percentage Change in Segment Operating Profit as Reported	Impact of Foreign Currency Exchange	Percentage Change in Segment Operating Profit on Constant- Currency Basis
International Segment Operating Profit	(20)%	(17)pts	(3)%

### GLOSSARY

**Accelerated depreciation associated with restructured assets.** The increase in depreciation expense caused by updating the salvage value and shortening the useful life of depreciable fixed assets to coincide with the end of production under an approved restructuring plan, but only if impairment is not present.

**AOCI.** Accumulated other comprehensive income (loss).

**Constant currency.** Financial results translated to U.S. dollars using constant foreign currency exchange rates based on the rates in effect for the comparable prior-year period. To present this information, current period results for entities reporting in currencies other than United States dollars are translated into United States dollars at the average exchange rates in effect during the corresponding period of the prior fiscal year, rather than the actual average exchange rates in effect during the current fiscal year. Therefore, the foreign currency impact is equal to current year results in local currencies multiplied by the change in the average foreign currency exchange rate between the current fiscal period and the corresponding period of the prior fiscal year.

**Derivatives.** Financial instruments such as futures, swaps, options, and forward contracts that we use to manage our risk arising from changes in commodity prices, interest rates, foreign exchange rates, and stock prices.

**Euribor.** Euro Interbank Offered Rate.

**Fair value hierarchy.** For purposes of fair value measurement, we categorize assets and liabilities into one of three levels based on the assumptions (inputs) used in valuing the asset or liability. Level 1 provides the most reliable

measure of fair value, while Level 3 generally requires significant management judgment. The three levels are defined as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.

Level 3: Unobservable inputs reflecting management's assumptions about the inputs used in pricing the asset or liability.

**Generally Accepted Accounting Principles (GAAP).** Guidelines, procedures, and practices that we are required to use in recording and reporting accounting information in our financial statements.

**Goodwill.** The difference between the purchase price of acquired companies plus the fair value of any noncontrolling and redeemable interests and the related fair values of net assets acquired.

**Hedge accounting.** Accounting for qualifying hedges that allows changes in a hedging instrument's fair value to offset corresponding changes in the hedged item in the same reporting period. Hedge accounting is permitted for certain hedging instruments and hedged items only if the hedging relationship is highly effective, and only prospectively from the date a hedging relationship is formally documented.

**Interest bearing instruments.** Notes payable, long-term debt, including current portion, cash and cash equivalents, and certain interest bearing investments classified within prepaid expenses and other current assets and other assets.

**LIBOR.** London Interbank Offered Rate.

**Mark-to-market.** The act of determining a value for financial instruments, commodity contracts, and related assets or liabilities based on the current market price for that item.

**Net mark-to-market valuation of certain commodity positions.** Realized and unrealized gains and losses on derivative contracts that will be allocated to segment operating profit when the exposure we are hedging affects earnings.

**Net price realization.** The impact of list and promoted price changes, net of trade and other price promotion costs.

**Noncontrolling interests.** Interests of subsidiaries held by third parties.

**Notional principal amount.** The principal amount on which fixed-rate or floating-rate interest payments are calculated.

**OCI.** Other Comprehensive Income.

**Project-related costs.** Costs incurred related to our restructuring initiatives not included in restructuring charges.

**Redeemable interest.** Interest of subsidiaries held by a third party that can be redeemed outside of our control and therefore cannot be classified as a noncontrolling interest in equity.

**Total debt.** Notes payable and long-term debt, including current portion.

**Translation adjustments.** The impact of the conversion of our foreign affiliates' financial statements to U.S. dollars for the purpose of consolidating our financial statements.

CAUTIONARY STATEMENT RELEVANT TO FORWARD-LOOKING INFORMATION FOR THE PURPOSE OF “SAFE HARBOR” PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This report contains or incorporates by reference forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that are based on our current expectations and assumptions. We also may make written or oral forward-looking statements, including statements contained in our filings with the Securities and Exchange Commission and in our reports to stockholders.

We wish to caution you not to place undue reliance on any such forward-looking statements.

In connection with the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995, we are identifying important factors that could affect our financial performance and could cause our actual results in future periods to differ materially from any current opinions or statements.

Our future results could be affected by a variety of factors, such as: competitive dynamics in the consumer foods industry and the markets for our products, including new product introductions, advertising activities, pricing actions, and promotional activities of our competitors; economic conditions, including changes in inflation rates, interest rates, tax rates, or the availability of capital; product development and innovation; consumer acceptance of new products and product improvements; consumer reaction to pricing actions and changes in promotion levels; acquisitions or dispositions of businesses or assets; changes in capital structure; changes in the legal and regulatory environment, including labeling and advertising regulations and litigation; impairments in the carrying value of goodwill, other intangible assets, or other long-lived assets, or changes in the useful lives of other intangible assets; changes in accounting standards and the impact of significant accounting estimates; product quality and safety issues, including recalls and product liability; changes in consumer demand for our products; effectiveness of advertising, marketing, and promotional programs; changes in consumer behavior, trends, and preferences, including weight loss trends; consumer perception of health-related issues, including obesity; consolidation in the retail environment; changes in purchasing and inventory levels of significant customers; fluctuations in the cost and availability of supply chain resources, including raw materials, packaging, and energy; disruptions or inefficiencies in the supply chain; effectiveness of restructuring and cost saving initiatives; volatility in the market value of derivatives used to manage price risk for certain commodities; benefit plan expenses due to changes in plan asset values and discount rates used to determine plan liabilities; failure or breach of our information technology systems; foreign economic conditions, including currency rate fluctuations; and political unrest in foreign markets and economic uncertainty due to terrorism or war.

You should also consider the risk factors that we identify in Item 1A of Part I of our Annual Report on Form 10-K for the fiscal year ended May 31, 2015, which could also affect our future results.

We undertake no obligation to publicly revise any forward-looking statements to reflect events or circumstances after the date of those statements or to reflect the occurrence of anticipated or unanticipated events.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The estimated maximum potential value-at-risk arising from a one-day loss in fair value for our interest rate and commodity market-risk-sensitive instruments outstanding as of August 30, 2015 was \$29 million and \$4 million, respectively. During the quarter ended August 30, 2015, the interest rate value-at-risk increased by \$4 million while the commodity value-at-risk was flat compared to this measure as of May 31, 2015. The value-at-risk for interest rate instruments increased due to higher volatility, while value-at-risk for commodity positions was flat due to higher volatility offsetting decreased notional amounts of commodity transactions. For additional information, see Item 7A of Part II of our Annual Report on Form 10-K for the fiscal year ended May 31, 2015.

Item 4. Controls and Procedures.

We, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based on our evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of August 30, 2015, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934 is (1) recorded, processed, summarized, and reported within the time periods specified in Securities and Exchange Commission rules and forms, and (2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) during the quarter ended August 30, 2015 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table sets forth information with respect to shares of our common stock that we purchased during the quarter ended August 30, 2015:

<b>Period</b>	<b>Total Number of Shares Purchased (a)</b>	<b>Average Price Paid Per Share</b>	<b>Total Number of Shares Purchased as Part of a Publicly Announced Program (b)</b>	<b>Maximum Number of Shares that may yet be Purchased Under the Program (b)</b>

## COMPUTATION OF RATIO OF EARNINGS TO FIXED CHARGES

In Millions, Except Ratios	Quarter Ended		Fiscal Year Ended				
	Aug. 30, 2015	Aug. 24, 2014	May 31, 2015	May 26, 2013	May 27, 2012	May 29, 2011	May 30, 2010
Earnings before income taxes and after-tax earnings from joint ventures	\$ 608.0	\$ 479.0	\$1,761.9	\$2,655.0	\$2,534.9	\$2,210.5	\$2,428.2
Distributed income of equity investees	19.1	24.5	72.6	90.5	115.7	68.0	72.7
Plus: Fixed charges (1)	95.7	101.0	403.5	389.8	400.1	431.8	414.2
Plus: Amortization of capitalized interest, net of interest capitalized	(1.1)	(0.6)	(3.0)	(0.8)	(0.4)	(5.5)	(3.7)
Earnings available to cover fixed charges	\$ 721.7	\$ 603.9	\$2,235.0	\$3,134.5	\$3,050.3	\$2,704.8	\$2,911.4
Ratio of earnings to fixed charges	7.54	5.98	5.54	8.04	7.62	6.26	7.03
(1) Fixed charges:							
Interest expense	\$ 78.5	\$ 83.4	\$ 335.5	\$ 323.4	\$ 333.8	\$ 370.7	\$ 360.9
Preferred distributions to noncontrolling interest holders	1.0	0.8	3.5	3.4	3.7	2.6	2.5
Rentals (1/3)	16.2	16.8	64.5	63.0	62.6	58.5	50.8
Total fixed charges	\$ 95.7	\$ 101.0	\$ 403.5	\$ 389.8	\$ 400.1	\$ 431.8	\$ 414.2

For purposes of computing the ratio of earnings to fixed charges, earnings represent earnings before income taxes and after-tax earnings of joint ventures, distributed income of equity investees, fixed charges, and amortization of capitalized interest, net of interest capitalized. Fixed charges represent gross interest expense (excluding interest on taxes) and subsidiary preferred distributions to the noncontrolling interest holder, plus one-third (the proportion deemed representative of the interest factor) of rent expense.
