Promising Outlook for the New, Stronger Verso

Acquisition Summary

The Combined Verso Has a Strong Foundation to Withstand Industry Headwinds

- ✓ **#1 Coated Paper Manufacturer in North America and #4 Globally**
 - Scale will improve cost-savings and provide customer service advantages
 - Strong relationships with existing customer base will be reinforced through the combination
- ✓ **Cost Leader in the North American Coated Paper Industry**
 - Despite an already low cost structure relative to peers, Verso will improve its cost position through synergy realization
 - Operates many of the lowest cost mills in both CFS and CGW
- ✓ **Generate Strong Free Cash Flow for Debt Repayment**
 - Modest capital requirements and favorable tax position provide consistent cash flow
 - Cost structure synergies and consistent generation of top quartile FCF metric
- ✓ **Experienced Management Team**
 - Strong management team with extensive paper industry experience across its top managers

Acquisition Consistent with Verso Foundation Document Strategies

Enhance core business by improving margins

- Adds quality assets and brand strength in core businesses

Outlook for 2015

- Progressing well on integration and synergy achievement
- Completion of the transition of the Rumford and Biron mills to Catalyst
- Price increases announced in January ranging from \$20-\$40 per ton on CFS, CGW and SC
- Volumes are expected to be flat year-over-year
- Inventories managed to optimal levels
- Expectation is for moderate inflation compared to 2014 with inflation in wood and energy partially offset by deflation in raw materials
- Capital spending to be in the range of \$80-100MM
- Synergy achievement expected to be \$70-90MM in 2015; with \$175MM achieved within 18 months
- Delay in the closing of the NewPage acquisition creates slower near term cash flow generation however, expect significant momentum as we end 2015 and enter 2016
