2Q Fiscal Year 2017 Investor Relations Presentation

August 23, 2017

This presentation contains “forward-looking” statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the Private Securities Litigation Reform Act of 1995. These forward-looking statements include but are not limited to our management quotes and our financial outlook for the third quarter of 2017.

Our forward-looking statements are not historical facts but instead represent only our belief regarding expected results and events, many of which, by their nature, are inherently uncertain and outside of our control. Our actual results and other circumstances may differ, possibly materially, from the anticipated results and events indicated in these forward-looking statements. Announced results for the second quarter of 2017 are preliminary, unaudited and subject to audit adjustment. In addition, we may not meet our financial outlook for the third quarter of 2017 and may be unable to grow our business in the manner planned. We may also modify our strategy for growth. In addition, there are other risks and uncertainties that could cause our actual results to differ from what we currently anticipate, including those relating to the development of the e-commerce industry in China, our significant reliance on the Alibaba ecosystem, risks associated with our network partners and their employees and personnel, intense competition which could adversely affect our results of operations and market share, any service disruption of our sorting hubs or the outlets operated by our network partners or our technology system. For additional information on these and other important factors that could adversely affect our business, financial condition, results of operations, and prospects, please see our filings with the U.S. Securities and Exchange Commission.

All information provided in this presentation is as of the date of the presentation. We undertake no obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise, after the date of this release, except as required by law.

Notes

- Adjusted EBITDA is a non-GAAP financial measure, which is defined as net income before depreciation, amortization, interest expenses and income tax expenses, and further adjusted to exclude (i) shared-based compensation expense; and (ii) gain on deemed disposal of equity method investments.. See slide 15 for GAAP reconciliation.
- Adjusted net income is a non-GAAP financial measure, which is defined as net income before (i) share-based compensation expense and (ii) gain on deemed disposal of equity method investments. See slide 16 for GAAP reconciliation.

Cost and Gross Margin Improvement Driven by Economies of Scale and Operational Efficiency Enhancement

Cost of Revenues - Breakdown

Cost of Revenues per Parcel⁽¹⁾

Gross Profit and Margin

Key Observations

- **Line-haul transportation cost per parcel** decreased yoy mainly due to (i) economies of scale, (ii) increased use of self-owned, cost-efficient trucks, and (iii) increased truck utilization through optimized route planning and increased back-haul transportation.
- **Sorting hub cost per parcel** decreased yoy mainly due to economies of scale and efficiency improvement from increased use of automated equipment in sorting hubs
- **Cost of accessories sold per parcel** decreased yoy mainly due to operating leverage
- **Other costs per parcel** increased yoy mainly due to rising costs to serve enterprise customers
- **Gross margin** increased to 37.8% from 36.2% in the same period last year, mainly attributable to cost savings from parcel mix optimization and efficiency improvement in transportation and sorting

Note
 (1) Cost of revenues per parcel is calculated based on costs of revenues divided by the number of parcels handled in a given quarter.
