

Sudeep Gautam
Vice President and Chief Digital Officer
Pratt & Whitney

Sudeep Gautam is Pratt & Whitney's vice president and Chief Digital Officer, responsible for Pratt & Whitney's enterprise-wide digital technology team and strategy. In this role, Gautam implements digital strategies worldwide to leverage technology as a differentiating strength, providing enhanced performance within our operations and value to our customers.

Gautam brings over twenty-five years of business led technology strategy, P&L management, consulting and delivery experience to this role. Prior to September 2017, Gautam was vice president and general manager of the Global Digital Transformation business at Hewlett Packard Enterprise, Enterprise Services (HPE). In this role, he drove thought leadership and customer engagements worldwide to help clients along their transformation journey to becoming a digital enterprise.

Gautam has held executive positions at Hewlett-Packard Enterprise as vice president and general manager in the global mobility practice and at Infosys, as vice president and worldwide head of the mobility practice. In addition, he served as head of the Consumer Goods industry business unit for Cognizant where he played an integral part in the organization's growth story. At Cognizant, he also held other executive positions, building the Company's Texas operations and managing the largest P&L within the Retail & Hospitality business unit.

Gautam received a bachelor's degree in Computer Science & Engineering from Bangalore University, and holds a Master of Business Administration from the University of Texas. He is also a graduate of the Executive Management Program from the Wharton School of Business.

Pratt & Whitney is a world leader in the design, manufacture and service of aircraft engines and auxiliary power units. United Technologies Corp., based in Farmington, Connecticut, provides high-technology systems and services to the building and aerospace industries.
