

**FOR IMMEDIATE RELEASE**

## **Salamander & Sony - World-Class Integrated Cabinet Solutions**

(Bloomfield, CT) August 28, 2017 – Salamander Designs, Ltd., a leader in premium quality residential and commercial audio/video furniture solutions made in the USA has announced the Salamander Credenza, X/SNY245, tailored for the new Sony VPL-VZ1000ES Ultra-Short Throw projector (a 4K HDR home theater projector).

The Sony VPL-VZ1000ES projects extremely close to the wall, providing outstanding video quality. Maintaining room integrity is a big benefit of the Sony/ Salamander system: with no need for a suspended ceiling or clunky mid room installation, it's a truly elegant "Salamander Solution".

Available in three distinctive styles, the Salamander X/SNY245 Credenza requires minimal installation and alleviates the necessity of opening walls or ceilings to run cables. All supporting components (including a speaker system), may be enclosed in the credenza, providing a beautiful simple solution for any décor.

Salamander Designs, President, Sal Carrabba commented: "At Salamander we are experienced and adept at developing collaborative solutions and partnering with enterprises like Sony. The bundle of the Ultra Short throw Sony VPL-VZ1000ES projector and our Salamander cabinet is simply the latest example of the smart, forward thinking solutions our team offers."
