

PRESS RELEASE

Safran Identity & Security showcases solutions for trusted connectivity and digital identities at GSMA MWC

Barcelona, February 23 2017

Safran Identity & Security invites its visitors to the world's largest event for the mobile industry, the GSMA Mobile World Congress, to experience how trusted digital identities make life safer and easier in an increasingly connected world.

Given the strong and rapid increase in the number of connected objects (nearly 21 billion devices by 2020, according to Gartner), one highlight will be the launch of "IoThrive," the first end-to-end range of embedded security solutions for the Internet of Things.

Furthermore, visitors will see at the stand:

- Biometrics for devices: face, fingerprint and iris SDKs to enable registration, identification and authentication on mobile devices
- Innovative payment form factors: match on card solutions with fingerprint and facial biometrics
- Flexible Connectivity and IoT: secure embedded solutions for cellular and non-cellular networks including eSIM, eSE and remote SIM provisioning
- Mobile Identity: strong digital identity solutions (including Mobile Connect) for banks and telecom operators

Visit Safran Identity & Security at the Mobile World Congress (February 27 – March 2, 2017 / Hall 6 / Stand G 30). More info: safran-identity-security.com/mwc/

Safran is a leading international high-technology group with three core businesses: Aerospace (propulsion and equipment), Defence and Security. Operating worldwide, the Group has 70,000 employees and generated sales of 17.4 billion euros in 2015. Safran is listed on Euronext Paris and is part of the CAC40 index, as well as the Euro Stoxx 50 European index.

Safran Identity & Security is a global leader in identity and security solutions, deploying systems in more than 100 countries. Backed by more than 40 years of experience in biometrics, the company develops innovative technologies for the public and private sectors, including identity management, secure transactions and public security solutions.
