FOSSIL ANNOUNCES Q WANDER SMARTWATCH

Enhanced Design

Q Wander has a beautiful soft curving, multi-finish case with artfully sculpted wire lugs. The device has limitless options for personalization including interchangeable straps in leather, silicone and stainless steel, and thousands of customizable options per dial choice, including the dial's color, numbering, hand style and color, and sub-eyes.

Function Meets Fashion

With a perfect balance of function and fashion, Q Wander packs the power you need to efficiently accomplish all your daily tasks in a smaller, sleeker package. This smartwatch will help you stay on track with timely traffic and flight updates, allowing you to get the information you want, when you need it. Q Wander stylishly tracks walking, jogging and running so you can see your progress over the course of seven days.

Dependable Performance

Q Wander features an always-on display and a haptic sensor that vibrates when you receive a notification, so you'll always be aware of information like time, calls, text messages, emails and app alerts. When paired with an Android smartphone or iPhone, you can also easily view text messages and emails on your smartwatch. Android smartphone users can also respond to these messages from the smartwatch by tapping the touchscreen or by using voice commands.

New, Updated Charging Units

With no exposed pins or connectors, charging the Q Wander is a breeze. The back of the smartwatch easily connects to the magnetic charging unit.
