8"

Shipping Method

UPS

Quantity Per Carton

1

The Zenith LED Pendant Light by Arnsberg offers two layers of rich metallic finish for a bold aesthetic that eclipses the competition. A bright LED source shines upward, illuminating the wide canopy disc to emphasize its textural look while providing soft, indirect lighting for the room as a whole. Its unique combination of simple shapes with intense visual detail creates a motif like a planet in concert with its moon, making this pendant an astronomical success in any setting.
