

AGUILA AMMUNITION

6.5 CREEDMOOR

HIGH SPEED, LOW DRAG. Lighter than a typical .308, the superior ballistic coefficient of the 6.5 allows this round to remain supersonic farther downrange meaning that trans-sonic destabilization is delayed and accuracy is a given.

FULL METAL JACKET BOAT TAIL
140 GRAIN
1E650110

SPECIFICATIONS

BULLET TYPE	FIREARM	APPLICATION	PACKAGING
FULL METAL JACKET BOAT TAIL	RIFLE	TARGET/RANGE	500 PER CASE 20 PER BOX

BALLISTICS

DISTANCE (YARDS)	VELOCITY (FPS)	ENERGY (FT/LB)
MUZZLE	2600	2101
100 YARDS	2426	1829
