

**RUGGED RUBBERIZED GRIP, FIXED REAR SIGHT, REPLACEABLE FRONT SIGHT, STAINLESS STEEL, 357
MAG, 3", 6-RDS**

The legendary Rossi revolver returns with a bang in 2023. The RP63 features Rossi's prized double action trigger, and an unbelievably crisp single action trigger pull. The RP63 is optimized for concealed carry, thanks to its three-inch barrel and fixed sights. The front sight is ramped for a snag free draw.

Like all of the new Rossi revolvers, the ring pin is mounted directly to the hammer giving the gun maximum reliability with all types of primers.

The RP63 has 6 shots of .357 Magnum on tap in its steel cylinder. The full underlug barrel adds additional weight which helps manage magnum recoil. Further aiding recoil control and benefiting concealment is the round butt grip frames. There are already a considerable number of accessories available for the RP63, as it fits common holsters and speed loaders for similar sized medium frame revolvers.

But the Rossi RP63 isn't just about performance. It's about building a serious concealed carry and personal protection revolver for the real world. The steel frame, three-inch barrel, and amazing trigger all combine to make this a revolver you won't just love to carry –you'll love to shoot it.
