

## **2018 Board Director Application Policy**

The Applied Client Network Board Director election process is conducted by the Governance Committee according to the association bylaws. This document is intended to provide general information regarding the process. Please note – this process may be updated to better meet the needs of the association, as dictated by the Board of Directors and/or the Governance Committee.

- The Governance Committee conducts a needs assessment with the current Board and/or the Executive Committee.
- The application and any other leadership characteristic assessment tools are adjusted if needed, based on the current Board needs.
- An open call for applicants is placed to the membership, usually in late spring/early summer. Applicants are advised of the current Board needs and provided a copy of the application to be completed. Please note: only Licensed User members are eligible to serve on the Board of Directors.
- At the close of the application submission period, the Governance Committee reviews all applications and based on the characteristics highlighted in the previously defined needs assessment, determines the candidates advancing to the short list.
- The applicants moving on then complete a personality assessment and a telephone interview with representatives of the association selected by the Governance Committee. Applicants not selected to advance to the leadership characteristic assessment and interview will be notified via email by the Governance Committee Chair or Staff Liaison.
- The Governance Committee reviews the leadership characteristic assessment and reports from the interview teams then decides upon the candidate(s) to be slated for election by the Board of Directors.
- The final slate of candidates is presented to the Board of Directors for voting.
- Candidates are informed of election results, and members are notified of the selection of incoming board members.
