

Setting Up Your User Profile

- To edit your user profile, click on the drop-down arrow and select **Configure this widget**.

- Add a heading, your display name, and some information about yourself.
- You can also upload a photograph by clicking on the icon of the cloud with an arrow; you will then be asked to select a photo from your computer.

- You can also add your Facebook and X account information or leave it blank if you don't want to share this information.
- Once you have completed all your changes, click **Save**.
