

Randy Nunez

Eng 210

## My Author Bio (Updated)

Hi, my Name is Randy Nunez. I'm 18 and currently a Undecided Freshman at CCNY. During my senior year of highschool, I had no Idea what major to choose and I didn't really know what I wanted to do in the future. Architecture/Interior design, Psychology, Computer Science, I was thinking about every option and path. I'm still slightly unsure but for now I have decided that I want to do Mechanical Engineering. I work as a janitor at an apartment complex and STILL looking for a different job but NO ONE wants to hire me!

My hobbies are playing video games (Oblivion Remastered, Roblox, Marvel Rivals, etc.), Listening to music all the time, sometimes I watch anime, playing sports (Volleyball, Badminton, and Handball, I still suck), Hiking, Photography/ Videography, Repairing small electronics (controllers pretty much). There are alot of things I could say for achievements I've made such as, completing my first semester at CCNY, Graduating High School, Being able to pay a part of my tuition and not leaving it all to my parents, Making so many friends at CCNY (some thanks to you!) Reaching Level 50 in Fallout New Vegas, and the main one, having a good schedule for spring term and doing well in math class (last semester, all my classes were after 3 pm, except math at **8 AM**). Ever since the beginning of this semester, things have been great compared to my last one (wont stop saying it, last semester = Hell). But yeah all my classes this time are really fun and I like them (except anthropology, it's super lame). Some of my favorite assignments so far are this one, My telling and Story, and I'm looking for a website assignment. Not sure how I'm gonna design it but I think it's a cool idea. I had a similar assignment last semester for English class but I was lazy and didn't make it too unique or cool, which I regret a little.

I was born in Brooklyn and Raised In Sunset Park. I speak both English and Spanish at home since most of my family was born in the Dominican Republic. Every now and then I try to help my mom, girlfriend and others to learn spanish and english. My experience with English and Spanish comes from communication, school, entertainment, traveling, reading and writing. This class will be my second English course and my favorite so far. I continue to look forward to knowing more about you and everyone else. Still Hate Math.
