

About the job

 Internship Opportunity: Multilingual AI Agents for the World Cup

Company: LifesizeAgent.ai – bringing AI Brand Ambassadors to life in malls, retail, hospitality, and global events.

We're on a mission to give every city and venue its own lifesize AI Agent – capable of welcoming visitors in their native language. With the World Cup coming to North America, we're starting with French, Spanish, and German, and building a framework that can expand into Asian and Slavic languages in the future.

If you're a university student in the U.S. with [computer science skills](#) and fluency in one of these languages, this is your chance to work on AI that people don't just use – they meet.

Responsibilities

- Extend our [multilingual](#) AI Brand Ambassador platform to support French, [Spanish](#), and German natively.
- Build a modular framework that allows additional languages to be added in future iterations.
- Collaborate with AI and computer vision engineers to integrate language support into real-time, edge-based AI Agents.
- Test, refine, and optimize AI Agent interactions to ensure natural, culturally appropriate greetings and conversations.
- Present progress in weekly standups, contributing ideas for scaling lifesize digital human technology.

Qualifications

- Must be currently enrolled in a [U.S. university](#) (CS, AI, Data Science, or related fields).
- Fluency in at least one of these languages: French, [Spanish](#), or German.
-  Do not apply if you do not speak one of these languages.
- Programming experience ([Python](#), JavaScript, or similar).
- Familiarity with LLMs, TTS (text-to-speech), or NLP frameworks is a plus.
- Strong problem-solving and [communication skills](#).
- Excited about building AI Agents for real-world impact at scale.

Internship Details

- [Part-time](#), Fall internship (through Thanksgiving)
- ~20 hours/week, hybrid with remote options
- Compensation: Paid in equity (convertible to cash at a future event)
- Based in Dallas-Fort Worth (preference), but open to U.S. students nationwide

 This is your opportunity to help create the official greeters of the future – AI Brand Ambassadors who welcome the world in their own language.
