

Dear Hiring Manager,

I am applying to show that I am very interested in the Retail Warehouse Worker job at the Best Buy. I also have hands-on customer service, logistics and practical and detail oriented work experience that I think would be well suited to the requirements for a fast-paced warehouse. I take great pride in my work ethic and reliability. I believe my determination would make me an effective employee in your operations team.

The current employment I hold as a Home Health Aide Caregiver has helped me to develop excellent skills in paying attention, time management, and communication. Being organized, caring, and consistent is what I have learnt in this position, which fits well into this environment of a warehouse. Before that, I worked as a Delivery Driver in Uber Eats where I had to follow routes, deadlines, and customers at the conditions of high activity.

Other than the working experience, I am also pursuing my education in The City College of New York (CCNY), and I am pursuing a Bachelor of Degree in Business Management. Another school I attended was Flatiron School. I completed a 4 month Cybersecurity program that taught me the value of precision, problem solving and accountability. As an English and Spanish speaker, I am proud to cooperate with various teams and customers efficiently and be much devoted to professionalism. I am also eager to bring my reliability, adaptability and positivity to the employees at the warehouse of the Best Buy.

Sincerely,
Joshua Mercado
