<b>Credit History</b>	Consider and verify	Included in underwriting DTI	As applicable, per GSE or agency requirements	No specific requirement	No specific requirement	No specific requirement

# General Comparison of Ability-to-Repay Requirements with Qualified Mortgages<sup>1</sup>

1 This chart compares the general ATR requirements with the requirements for originating QM loans. Additional requirements may apply, particularly for small creditor and balloon-payment QM loans. This chart is not a substitute for the rule. Only the rule and its Official Interpretations can provide complete and definitive information regarding its requirements. The complete rule, including the Official Interpretations and small entity compliance guide, is available at <http://www.consumerfinance.gov/regulations/ability-to-repay-and-qualified-mortgage-standards-under-the-truth-in-lending-act-regulation-z/>.

2 “Included in underwriting monthly payment” means that the rule does not require the creditor to separately consider and verify this factor. However, a creditor must consider this factor when underwriting the consumer’s monthly payment under the rule.

3 “Included in underwriting DTI” means that the rule does not require the creditor to separately consider and verify these factors. However, a creditor considers and verifies these factors when calculating the consumer’s debt-to-income ratio.
