

# 2016 CFPB annual employee survey

Consumer Financial  
Protection Bureau

December 2016

# Introduction

## Interpretation of results

More than 87 percent of the CFPB employee population responded to the fifth annual employee survey conducted by the Consumer Financial Protection Bureau (CFPB) between August 1 and 31, 2016.

Bureau leaders use feedback from tools like the annual employee survey to develop strategies to better meet employee needs. Survey results are shared across the organization to encourage leaders to actively seek and respond to opportunities to improve the employee work experience. CFPB continues to develop as an organization and is actively leveraging employee feedback to inform organizational goals and activity.

The 2016 survey results reveal that the majority of employees identify strongly with the CFPB mission, among other strengths. Of 77 items included in the survey, 50 items were rated favorably (agree/satisfied or strongly agree/very satisfied) by 65% or more of respondent employees; these items are considered strengths. In the 2016 survey results, 3 items were identified as challenges with percent unfavorable (percent of respondents who disagree/strong disagree or are dissatisfied/very dissatisfied) results greater than 35%.

## How the survey was conducted

The survey was conducted online from from August 1-31, 2016.

## Survey items and response choices

See Tables 1 through 18 on the following pages for information on the number and percentage of survey respondents selecting each response scale choice. Tables are organized into content areas representing perceptions of the following:

- My work experience;
- My work unit;

- My agency;
- My supervisor;
- Leadership;
- Rewards and recognition: Work unit;
- Rewards and recognition: Agency;
- Diversity and inclusion; and
- Overall satisfaction.

In each content area, the number of respondents (frequencies) and percentage of respondents selecting each response scale choice are provided separately. Tables are presented so that the first table shows the frequency or number of respondents who selected each response scale choice. The first table, therefore, also shows the total number of respondents for each item<sup>1</sup>. The percentage of respondents for each item and response scale choice<sup>2</sup> is shown in the second table.

## Description of sample

All 1,567 full time equivalent agency employees on board as of July 10, 2016 were surveyed.

## Number of employees surveyed, number who responded, and representativeness of respondents

Of the 1,567 employees surveyed, 1,372 responded, for an 87.6% response rate. Respondents are representative of the population. All demographic variables meet or exceed 77% reporting among survey respondents. Survey respondents represent a large proportion of the total employee population for all comparison demographic items. Demographic information (percent representation) for survey respondents compared to CFPB population statistics is presented in Tables 19 through 22.

---

<sup>1</sup> Survey respondents were informed that “responses to this survey are voluntary and there is no penalty if you choose not to respond.”

<sup>2</sup> Some items included an option for survey respondents to select “Do Not Know” or “No Basis to Judge.” These items are noted in Tables 1 to 18. The number of respondents who selected “Do Not Know” or “No Basis to Judge” is not included in calculating percentages.
