Gastroenterology
Internal Medicine
University of Manitoba

Stephen Wong, MC, FRCPC
Associate Professor
Internal Medicine
University of Manitoba

Frederic Gaspard Theatre, Basic Medical Sciences Building
745 Bannatyne Avenue, Winnipeg, Manitoba

DESCRIPTION
During this event, participants will have an opportunity to enhance their clinical competency in hepatobiliary conditions.

COURSE OBJECTIVES
At the conclusion of this educational activity, the participants should be able to:
• Examine the epidemiology, natural history, and evaluation of liver failure and appraise our current management of those with liver failure
• Identify key concepts of Non-alcoholic Fatty Liver Disease (NAFLD) and appraise primary care investigations and management of this common problem
• Review the indications, contraindications, accessibility, and ethical issues of liver transplantation and apply this information to help manage patients with severe liver disease
• Formulate an approach to palliation in those with severe liver disease
• Select diagnostic tests, and therapies for viral hepatitis and formulate an approach to managing patients with viral hepatitis

This program will be of interest to:
Family physicians, specialists, nurses, family medicine residents, physician assistants, pharmacists, and other allied health professionals.

OVERVIEW
The Continuing Professional Development (CPD) Bannatyne Campus Program for Family Physicians is designed to provide a wide range of timely and challenging topics relevant to an office based practice. Working closely with doctors and professional organizations across Manitoba, programs are designed to address current issues relevant to the needs and demands of physicians. These programs are flexible, accessible, innovative and responsive.

Continuing Professional Development is committed to providing high quality educational programs to Manitoba physicians. The main program objectives are to enhance clinical competence and improve patient care. This series of courses will feature a combination of plenary sessions and panel discussions that will allow the participant an opportunity for interaction in a convenient, centrally located venue.

The Bannatyne Campus Series offers approximately 40 hours of lectures and/or workshops throughout the academic year commencing in early October and ending in June. All plenary sessions will be held in the Frederic Gaspard Theatre at the Faculty of Medicine.
Bannatyne Campus CPD Program for Primary Care
Hepatobiliary Disease
Friday, October 3, 2014  8:25 a.m. - 1:20 p.m.

AGENDA

0800-0825  Registration and Coffee
0825-0830  Welcome and Introductions
            Christine Polimeni
0830-0920  Non-alcoholic Fatty Liver Disease
            Stephen Wong
0920-1010  Liver failure
            David Peretz
1010-1100  Liver Transplant
            David Peretz
1100-1140  Nutrition and Networking - a time for refreshments and visiting exhibitor booths
1140-1230  Symptom Management in Advanced Liver Disease
            Susan Cuvelier

            Kelly Kaita

1330-1530  For details and to register for the Mainpro-C Workshop, please visit
            http://events.cpdumanitoba.ca/website/index/BC-WS-14

CanMEDS Roles Integrated in Today’s Presentations

As Medical Experts, physicians integrate all of the CanMEDS Roles, applying medical knowledge, clinical skills, and professional attitudes in their provision of patient-centered care. Medical Expert is the central physician Role in the CanMEDS framework.

Communicator: Physicians effectively facilitate the doctor-patient relationship and the dynamic exchanges that occur before, during, and after the medical encounter.

Collaborator: Physicians effectively work with patients, families, and the healthcare team to achieve optimal patient care.

Scholar: Physicians demonstrate a lifelong commitment to reflective learning, as well as the creation, dissemination, application and translation of medical knowledge.

Professional: Physicians are committed to the health and well-being of individuals and society through ethical practice, profession-led regulation, and high personal standards of behaviour.
Bannatyne Campus CPD Program for Primary Care
Hepatobiliary Disease
Friday, October 3, 2014  8:25 a.m. - 1:20 p.m.
