

# The Maintenance Management School Board of Regents Welcomes You Monday, November 11, 2019!

Check in at UCLA Conference Center Lake Arrowhead between 11:00am & Noon  
Lunch at Noon is our first networking activity!

## Here are a few notes about the upcoming school!

This is **important**—bring cash! There are no ATM machines—there are no banks or grocery stores within 5 miles and we have opportunities for you to spend cash and tip the staff at the end of the week for their great service.

- Tip UCLA staff for their amazing service
- Support scholarships through a variety of social activities
- Purchase incidentals and souvenirs from the UCLA store

If you are a vegetarian or require special meals please note it now by emailing or calling the CPRS Registrar, [training@cprs.org](mailto:training@cprs.org) or 916/665-2777 ASAP. **Tell us about any food sensitivities -- we can accommodate!**

Many of you already know about the UCLA Conference Center sitting on a hill. For those folks with respiratory conditions such as asthma or knee surgery, etc., please call us **today**. We can place your sleeping room closer to the meeting rooms.

We have a lot of fun each year at this school—we promise! Please bring athletic shoes, softball equipment, hats, sunscreen—and *lots of lip balm*.

Don't forget to bring a jacket that is best equipped for rain and temps below 40 degrees, etc. The jacket we give you is light-weight. It's also best if you layer your clothing to fit the changing temperature on the mountain, in the meeting rooms and in the sleeping room. Please remember that this is shared housing and your roommate may sleep hotter or colder than you.

This school has been offered over 30 years. It is a great accomplishment. We end our week with a special celebration each year. This is also the time to make plans for continued problem-solving once you return to work.

Have you had a chance to see our updated website? Please visit [cprs.org](http://cprs.org) (select training) for a summary look at our program. You can also email the Regents responsible for your year of study from this location in case you have other questions about class content.

A couple of other things: UCLA Conference Center is smoke-free, meals are only served at designated times, there isn't a snack area and the front desk closes at midnight! If you can't make a meal, check with the front desk for an accommodation.

**2<sup>nd</sup> Year**—your innovative element idea is due to [Derek Neumann](#) on October 22—instructions were emailed to the email you provided on the registration form. Please bring your presentation on a flash drive, no copies needed.
