

2014 Exhibitors List

BioReliance Corporation

Booth 12
Scott Hickman
14920 Broschart Road
Rockville, MD 20850
United States
Tel: 800.756.5658
Fax: 301.738.2362
Email: scott.hickman@bioreliance.com
Website: www.bioreliance.com

BioReliance is a leading provider of outsourcing services for pharmaceutical and biopharmaceutical companies, as well as chemicals, consumer products and medical devices. Specializing in mutagenicity testing, our scientific staff and state-of-the-art facilities provide the most complete and comprehensive toxicology resources available anywhere.

Elsevier

Booth 2
Kaia Motter
600 Technology Square
Cambridge, MA 02139
United States
Tel: 617.386.2154
Email: k.motter@elsevier.com
Website: www.elsevier.com

Elsevier is a supporter of the International Association of Environmental Mutagenesis and Genomics Societies, and proud publisher of the Mutation Research journals: Mutation Research: Fundamental and Molecular Mechanisms of Mutagenesis, Mutation Research: Reviews, Mutation Research: Genetic Toxicology and Environmental Mutagenesis, and DNA Repair. Stop by the booth for more information.

Leadscope Incorporated

Booth 7
Heather Landon
1393 Dublin Road
Columbus, OH 43215
United States
Tel: 614.675.3730
Fax: 614.675.3732
Email: info@leadscope.com
Website: www.leadscope.com

Leadscope produces high quality QSAR models and databases. Our Model Applier meets all the requirements of the ICH M7 Guidance on testing for impurities. In addition, our Model Applier produces an ICH M7 consensus prediction as used by the US FDA. Our consensus prediction incorporates the statistical QSAR models; expert alerts results and experimental data.

Lhasa Limited

Booth 1
Matthew Lord
Granary Wharf House, 2 Canal Wharf
Leeds, West Yorkshire, LS11 5PS

United Kingdom
Tel: 44.1133.946.020
Email: marketing@lhasalimited.org
Website: www.lhasalimited.org

Lhasa Limited is a not-for-profit, registered charity that promotes the use of computer aided reasoning in chemistry and the life sciences. We provide decision support tools for our members involved in the investigation of toxicology, metabolism and degradation. A pioneer in the production of knowledge based systems for forward thinking scientists, Lhasa Limited continues to draw on over 30 years of experience to create user-friendly state of the art *in silico* prediction and database systems. We believe in "Shared Knowledge, Shared Progress."

HistoWiz, Inc.

Booth 8
Ke Cheng
Advanced Biotechnology Park
760 Parkside Avenue
Brooklyn, NY 11226
United States
Tel: 347.221.1020
Email: info@histowiz.com
Website: www.histowiz.com

HistoWiz is a histology service company that processes tissue specimens and digitizes the results for biomedical researchers in academia and industry. We guarantee a 3 day turnaround time and provide global access to whole-slide images on a Cloud database, online collaboration features, and mouse cancer pathology expertise.

MetaSystems

Booth 5
Heather Whitney
70 Bridge Street, Suite 100
Newton, MA 02458
United States
Tel: 617.924.9954
Email: hwhitney@metasystems.org
Website: www.metasystems.org

MetaSystems provides easy-to-use genetic imaging and high-throughput slide scanning systems for clinical laboratories and biomedical research: the automatic slide analysis platform **Metafer** provides fluorescence tissue micro array analysis, **Ikaros** offers automatic karyotyping, **Isis** offers FISH imaging, mFISH/MBAND analysis. We also offer **XCyte** DNA probes.

Molecular Toxicology Inc.

Booth 3
Ray Cameron
157 Industrial Park Drive
Boone, NC 28607
United States
Tel: 828.264.9099
Email: rcameron@moltox.com
Website: www.moltox.com

Since 1986, Moltox has been providing CRO's, QC departments and drug discovery scientists with reagents, bacterial strains, metabolic activation products and bacteriological media. As the leading manufacturer of products for use in the Ames Assay, Moltox distributes culture media, tester strains, S9 and positive controls through our partners worldwide.

Perceptive Instruments LTD

Booth 11

Gary Kyle

St. Francis House, Olding Road

Bury St. Edmunds, IP33 3TA

United Kingdom

Tel: 44.1284.765.566

Fax: 44.1284.489.318

Email: sales@perceptive.co.uk

Website: www.perceptive.co.uk

Perceptive Instruments aim to help you improve the integration between data acquisition, auditing and reporting for your genetic toxicology assays. Our flagship products include Comet Assay IV, Sorcerer Colony Counter, Ames Study Manager and Cyto Study Manager. We deliver highly effective GLP-compliant solutions developed under our ISO 9001 accredited quality management system.

Scientific Industries, Inc.

Booth 10

Debbie Segl

70 Orville Drive

Bohemia, NY 11716

United States

Tel: 631.567.4700

Fax: 631.567.5896

Email: dsegl@scientificindustries.com

Website: www.scientificindustries.com

Manufacturer and designer of benchtop lab equipment for sample prep. Includes the "Genie" family products. Made in the USA, including the Distrupor Genie, Vortex-Genie's, Multi-tasking shakers, rockers, rotators, mixers, combi heating and cooling incubators, magnetic stirrers PLUS our "new" line of TORBAL "balances/scales."
