This is a detailed street map of a neighborhood in Curitiba, Brazil. The map features a grid-like pattern of streets. A prominent orange-colored road runs vertically along the left side, labeled 'Avenida Transnordestina' and 'BR-116'. To its right, several other roads branch off, including 'Rua Araripe', 'Rua Araguacema', 'Rua Apucarana', 'Rua Araguaia', and 'Avenida Rubens Francisco Dias'. Further east, there are more streets like 'Rua Anajas', 'Rua Anajatuba', 'Rua Araguará', and 'Rua Guimarães'. At the bottom, 'Avenida Juvenal Azevedo Matos' is visible. The map includes a scale bar at the bottom left indicating distances from 0 to 200 meters, and a north arrow pointing upwards. A QR code is located in the bottom right corner. The background is a light beige color, and the streets are outlined in white or grey. Some areas are shaded in light green, possibly representing parks or undeveloped land. The overall layout suggests a well-planned urban environment.
