

An aerial photograph of a region in Mexico, showing a grid of roads and a town. The roads are labeled "Carretera a Monclova". A QR code is located in the bottom right corner. A scale bar at the bottom left indicates a distance of 2 kilometers. A north arrow is also present. The terrain is hilly and arid, with some green vegetation. The town is located in the upper left quadrant of the image. The roads form a grid pattern, with some roads branching off. The QR code is a standard black and white matrix code. The scale bar is a horizontal line with a "0" at the left end and a "2" at the right end, with the word "KILOMETERS" in the middle. The north arrow is a small circle with a dot in the center. The text "TRUE NORTH" is written next to it. The roads are thin lines, some of which are thicker than others. The town is a cluster of buildings and other structures. The hills are covered in sparse vegetation, with some areas appearing more green than others. The overall color palette is dominated by earthy tones like brown, tan, and green.
