An aerial photograph of a city grid, likely in a developing country, showing a dense pattern of buildings and streets. The map is overlaid with a black grid. A scale bar at the bottom left indicates a distance of 250 meters. A QR code is located in the bottom right corner. The map is oriented with True North at the top. The grid lines are black and form a rectangular pattern. The map shows a mix of urban and rural areas, with some large open spaces and some very dense building clusters. The colors are naturalistic, showing green for vegetation and brown/tan for buildings and roads. There are four circular markers on the map, two at the top and two at the bottom, which appear to be registration marks for a printing or scanning process. The overall layout is a rectangular map with a grid overlay, a scale bar, and a QR code.
