The map displays a dense forest with a grid of elevation points. A network of roads and trails is shown, with labels for 'Crefa', 'Munika', 'Kusasa', and 'Munika'. A scale bar at the bottom left indicates a distance of 200 meters. A QR code is located in the bottom right corner.

The map displays a dense grid of elevation points, likely representing a digital elevation model (DEM) or a similar spatial dataset. The terrain is characterized by a series of ridges and valleys, with the highest elevations (up to 1000 meters) located in the central and eastern portions of the map. The lowest elevations (down to 500 meters) are found in the western and southern regions. A network of roads and trails is overlaid on the terrain, with labels for 'Cofea', 'Munich', 'Kavassas', and 'Munich'. A scale bar at the bottom left indicates a distance of 0 to 200 meters. A QR code is located in the bottom right corner, which likely links to additional information or data related to the map.
