

Product Spotlight

7543 Tiger Crane Coastal & Inland Water Service Crane

Key Features of the 7543

- A** Pre-wired for optional self leveling boom tip lights.
- B** New lever style anti-two block provides reliable and consistent operation.
- C** Stainless steel plate under crane boom to protect the paint when stowing the block. Stainless steel hardware where possible and stainless steel cable.
- D** Lift cylinders sized to lift the load and are much larger than the competition.
- E** Unique water-tight turret design provides strength while reducing weight.
- F** Electric winch mounted to pivot with the crane boom maintaining wire rope length during movement of the crane.
- ★ Multiple grease points for easy maintenance access when working on the water.
- ★ Two-year warranty is the best in the industry!
- ★ Electric crane sizes available: 2,000 lb., 3,200 lb., 4,000 lb., 5,000 lb., and 6,500 lb.
- ★ Hydraulic crane sizes available: 5,000 lb., 6,500 lb., 7,500 lb., 8,600 lb., 11,000 lb., and 14,000 lb.
