

Directions from NYS Thruway, Route I-90 – Exit 48A:
Please note this is the same exit used for Six Flags Darien Lake amusement park. It can become very backed-up on hot, busy days or days with a special event or concert at Darien Lake, please plan ahead for such events!!

- Turn left at the stop light after going through the toll booth. Head North on Rt. 77.
- After a few miles and two reduced speed zones, you will join Rt. 63 North, continue straight on both Rt. 77 and 63 North.
- In the small town of Alabama, at a blinking red light, stay straight through the light to remain on Rt. 63 North, leaving Rt. 77 as it turns left at the light. Stay straight on Rt. 63 North for a few miles until you approach a 35mph zone.
- Just after entering the 35mph zone, directly in front of you, the main road makes a left turn and a small country road breaks off and continues straight. Bear right (more straight than right in reality) at this fork, look for the Shelby Volunteer Fire Company on your left and a small country cemetery on your right. The total distance from the thruway exit to the fork at Shelby Center is 13 miles.
- In a few hundred feet, you'll see a stone wall encompassing a large green pasture with a 300ft white barn on your right. This is the camp! Turn right at the stop sign at the corner of the stone wall, continue for a few hundred feet and turn right into our driveway. Please park on the grass along the sides of the driveway, making sure to leave space for others pulling in.
