

Directions from Routes 104, 31, 31A (all north of Camp)

- Route 63 runs North-South, directly through the center of the Town of Medina and intersects East-West routes running in the Orleans County area, including Routes 104, 31, and 31A. Forrestel Farm Camp is located just south of the Town of Medina in the small hamlet of Shelby Center. If you are coming from anywhere north of camp, take Route 63 South out of Medina.
- The last main crossroads is Route 63's intersection with Route 31A (31A is on the left while 31 continues off to the right this intersection for your reference). Continuing along Route 63 South after the junction with 31A, you will enter a 55mph hour zone for about 1.5 miles. You will transition into a 35mph zone as Route 63 South makes a large bend to the left; on your left is a small car repair garage and a small park called the "Mill Race Park."
- Just after the "Mill Race Park" you will make an immediate left off of Route 63 onto an unmarked country road, (this part may be a bit confusing as this left has no sign, but in reality it is called Main St. and across the intersection from this unmarked road on the right is Blair Road).
- After turning left off of Route 63 South, continue straight for a few hundred yards. You will now be able to see the camp ahead and on your right. Turn right into the camp's driveway at a break in the stone wall. Please park on the grass along the drive and walk to the circle to avoid traffic hang-ups on pick-up and drop-off days.
